ALLEE SAME CHINAMAN.

Origin of One of the Greatest Hits of the Vaudeville Stage.

Manager Nelson has with him this week with the Shields' Vaudeville Company, one of the best novelty acts in America—the Chinese act presented by the Thompsons—and it is such an odd creation and different from anything else in the vaudeville world it is interesting for the readers of the East Oregonian to know how this clever act originated.

Mr. Thompson is a Texan, and when quite a young lad ran away from home with the determination of making something of himself. His wanderings terminated at San Francisco, and he soon secured a position as bookkeeper at the old Baldwin hotel, and there met a number of Chinese students being educated in this country, who spoke the English language fluently. Ah Foy Chang, (who by the way was a cousin of the famous Chinese minister to this country) was an accomplished musician on the odd instruments of his native land, and Mr. Thompson proving an apt pupil, soon became an expert in not only the Chinese tongue, but their music as well.

One night a visit to the Chinese theater was proposed and accepted. While there Mr. Thompson was invited to play the Chinese national air, and soon had the large audience loudly applauding the "Mexican" man and his efforts to amuse them. Thong Wah, the local manager of the theater, immediately offered Mr. Thompson an engagement, and in a spirit of fun, he accepted. Mr. Thompson argued that if he could entertain the Chinese audience, why not originate an act for the American stage. The idea seemed a good one. The rest, to use Mr. Thompson's own words, "is an open book. My success has proved one thing: that a novelty is what the people want, and I do not regret the hard work I had in putting the act together for the amusement of others."

TO FIGHT UNIONISM.

Anti-Labor Organization Worker Arrived in Portland.

Portland, Sept. 17.—Seeking to band together manufacturers and contractors that they may successfully resist the demands of organized labor, Colonel Charles Kahlo arrived in Portland today. He is a special representative of the National Association of Manufacturers of the United States, an organization having offices at 70 Broadway, New York, and comes here from San Francisco, where he made his headquarters at the Palace Hotel during a several weeks' canvass of that city. He left San Francisco Monday, and will spend some time in Portland.

Under the direction of D. P. Parry, president of the National Association, special representatives have been sent to all parts of the country to induce manufacturers in particular and large employers of labor in general, to give both moral and financial support to the association in the attitude in which he has tried to place it toward organized labor. Kahlo will visit the manufacturers in Portland, Tacoma, Seattle, Spokane, St. Paul and Minneapolis before returning to New York.

Mr. Wright Has Recovered.

Jack Wright, of the O. R. & N., who was operated upon not long ago, is at his post again and left on the Spokane train this morning on his regular run.

Captain E. E. Clough, a pioneer of Baker City, died Tuesday, aged 78 years. He came to Baker City in 1861.

Cloak and Suit Department

New Suits and Coats for Autumn

A Woman Chooses here with the Certainty of Choosing Correctly

The head of our Cloak and Suit Department visited all the leading cloak houses in the East, so we are able to show what is being worn in the fashion centers. We can show you some of the garments displayed in the CONGRESS of FASHIONS recently held in New York. Tailor suits will be in great demand this fall. The radical change in the suit jacket from short to long is reason enough. The straight round walking skirt suit has gained in popularity and will sell largely. Many fancy materials are in evidence, especially Home-spuns, Mixtures and the Mannish Materials.

Building Inspectors Here.

W. H. Kennedy, the chief engineer, and W. A. Storie, the general foreman of the bridge and building department of the O. R. & N., passed through the city this morning on a tour of inspection. The gentlemen are looking over the improvements the company has been putting in along the line and were here for a time to view the progress of the work on the depot. They were in a special train in order that they would not be governed by the schedule of the regular trains.

Fall Trade Good

It is good and that's a fact says Mr. Finneran to our reporter. How do you account for it, when others are complaining about the fall trade I asked him. Why, I do not know any other good reason than that the people have found out that we are actually selling better shoes for the money or the same quality for less money than others do. It is really remarkable how many people there are who remark about the "swearing quality" of our shoes. Now that is what we pay for and you get when you buy Douglas or Gloria or Red Schoolhouse Shoes. These shoes are sold at a price and no one attempts to undersell them—they simply can't and live. We have found the least margin of resistance to trade and that accounts for our increase this fall. Now watch us sell shoes. We carry shoes on five widths in all foot form lasts—in all leathers, heights, styles, sizes, weights, etc. "Say don't that boy talk some?" I thought as I went on my way with a fine pair of the Douglas shoes on from the
