AWAKENING AT LAST.

Today's telegraphic dispatches report a battle royal which took place at Ogden yesterday afternoon. The cause belli was a resolution presented favoring the repeal of the desert land, timber and stone acts, and the commutation clause of the homestead act. The majority report favored the repeal, while the minority report was filed against the repeal. Brilliant speakers were arrayed against each other in the debate. Ex-Congressman Needham of California introduced a substitute report petitioning congress to save the remaining domain to actual settlers. For four hours the debate waged. Railroad lobbyists, land speculators, stockmen, lawyers, irrigationists and public officials clashed in able argument and debate. After a scene of wild confusion, the vote was taken and the substitute adopted 212 voting for it and 148 against. Oregon voted 16 for and four against the measure.

THE FUEL PROBLEM.

Wood is growing more and more scarce. The solution of the fuel problem could readily be solved by the building of a 20-mile branch from Heppner to Willow Creek. One tunnel has already followed a six-foot vein for 260 feet. Besides this vein there are three other veins upon which work is being done. The coal, which is of excellent quality, is sold at the mine for \$2 a ton. As wood is scarce the coal is a boon to the nearby stockmen and farmers. With an unlimited quantity of excellent coal and with an easy grade to the mines, it will not be long until the railroad brings a spur to the mines.

EXIT BARTLETT.

Exit Bartlett. No one is to blame for his dismissal but himself. Disregard of the responsibilities of his office and neglect of its routine work was a poor way to win the approval of the public or the administration. The following telegram from Commissioner Richards shows the attitude of the department. Pending the installation of the new register for the La Grande land office the office will be closed to all business requiring the signatures of both the register and receiver, and will be open for information only.

A two or three-line advertisement appeared in the Daily East Oregonian a week or ten days ago. It read, "Two small houses for rent, apply at this office." Since that time we have had no less than 50 inquiries for the houses. Many of the persons enquiring are new-comers. This is proof of several things. First, that Pendleton is receiving a steady influx of new-comers, second, that houses are exceedingly scarce, which of itself is a good proof of our growth, and third, that nowadays the people read the papers.

The unpalatable Turks are again making the old-time trade of outrage.

slaughter and pillage. To read the account of their atrocities makes one wish that a war balloon would hover over the plague spot and drop about 10 tons of high explosive where it would do the most good. You can not temporize with an ulcer or an abscess, heroic measures are necessary. The surgeon's knife alone will effect a cure. Turkey, through the jealousy of the European nations, has gotten to such a state that its extinction as a nation is needed. Russia would be glad to assume this task and certainly Russian rule, though not of the best, would be an improvement to Turkish misrule.

The westbound cars are loaded with homeseekers coming to the coast. Many of these newcomers are substantial citizens who have sold property in the Central states and are coming West to buy farms or enter into business. Eastern Oregon needs just this class of intelligent and industrious citizens and Umatilla county should put forth every effort to attract them. The issue of a neat booklet in large quantities and distributed in the Dakotas, Nebraska and Kansas, would result in much good to this country and to Pendleton.

Chamberlain the liberal unionist, has resigned from the cabinet. His policy of the preferential tariff has caused such wide differences within his own party that he deemed it best to tender his resignation as Colonial Secretary. Lord George Hamilton, secretary to India and C. T. Ritchie, chancellor of the exchequer, also tendered their resignations, which were accepted.

Twenty-two thousand paid admissions were taken in Thursday at the state fair. This is a record-breaker. The state fair has been blessed with good weather and its excellent attractions have resulted in an unusually heavy attendance. The state fair is certainly on the up grade in point of interest and attractiveness.

The way to build up Pendleton is to patronize Pendleton merchants.

SUFFERED 25 YEARS With Catarrh of the Stomach—Pe-ru-na Cured.

Congressman Botkin of Winfield, Kan.

In a recent letter to Dr. Hartman, Congressman Botkin says: "My Dear Doctor—It gives me pleasure to certify to the excellent curative qualities of your medicines—Peruna and Manalin. I have been afflicted more or less for a quarter of a century with catarrh of the stomach and constipation. A residence in Washington has increased these troubles. A few bottles of your medicine have given me almost complete relief, and I am sure that a continuation of them will effect a permanent cure."—J. D. Botkin.

Mr. L. E. Verdery, a prominent real estate agent, of Augusta, Ga., writes: "I have been a great sufferer from catarrhal dyspepsia. I tried many physicians, visited a good many springs, but I believe Peruna has done more for me than all of the above put together. I feel like a new person."—L. E. Verdery.

The most common form of summer catarrh is catarrh of the stomach. This is generally known as dyspepsia. Peruna cures these cases like magic.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.
