Fall Trade Good

It is good and that's a fact says Mr. Finneran to our repor-ter. How do you account for it, when others are complaining about the fall trade I asked him. Why, I do not know any other good reason than that the people have found out that we are actually selling better shoes for the money or the same quality for less money than others do. It is really remarkable, how really remarkable how many people there are who remark people there are who remark about the "wearing quality" of our shoes. Now that is what we pay for and you get when you buy Douglas or Gloria or Red Schoolhouse Shoes. These shoes are sold at a price and no one attempts to undersell them—they simply can't and live. We have found the least margin of resistance to trade and that accounts for our increase this fall. Now watch us sell shoes. We carry shoes on five widths in all foot form lasts—in all leathers, foot form lasts-in all leathers, heights, styles, sizes, weights, etc "Say, don't that boy talk some?" I thought as I went on my way with a fine rair of the Douglas shoes on from the
