## ROW OVER A CHILD.

Mr. Carlyle Goes for a Walk With the Baby and Does Not Return.  
 Some excitement was caused in the neighborhood of Walters' mill yesterday afternoon by J. A. Carlyle, of Baker City. Carlyle has been for some time separated from his wife, and the lady came to this city to visit her sister, who lives near the mill.  
 Yesterday afternoon Carlyle went to the house and after some talk with his wife asked to take their little child out for a short walk. She consented, and that was the last that was seen of the child until this morning, when Mr. Carlyle was found at the depot with it in his arms. He was persuaded to leave it with its mother, and peace was once more restored.

## Who Are the Leaders?

You know how every store claims to be the BIGGEST without the least regard to the truth or falsity of the claim. Well, if you ever were in any doubt as to which store leads in this man's town, just get onto the trouble we have ripped up. By way of explanation, let's reminisce a little. The Peoples Warehouse gave to some one of its many patrons a parlor set, worth \$50 in 1890. It has given away since two round trip tickets to Chicago and return for the World's Fair in 1893, four bicycles, two gold watches, two Krag-Jorgensen rifles. We never had any occasion to regret having given these articles, and so concluded the time was ripe for another gift, but in the meantime The Peoples Warehouse has grown and so must make presents proportionately better, and that's the reason why on Saturday, October 31st, we are going to present to our patrons a \$165.00 rubber-tired top buggy, a round trip ticket to St. Louis World's Fair, value \$75.00, and ladies' \$30.00 suit, or fur coat in the house, her own selection, any man's \$25.00 overcoat in the house, his own selection, and his choice of any John B. Stetson hat in the house. Now just you watch the other ones fall in line and you'll know then that The Peoples Warehouse are the LEADERS and that's a cinch.

## Does Not Recover.

Mrs. Martin Anderson returned this morning from Hot Lake, where she has been with Mr. Anderson for some time. Mr. Anderson went to the lake for the benefit of his health. At first it was thought that he had appendicitis, but later the physicians concluded that it was inflammatory rheumatism that was troubling him. He went to the sanatorium at Hot Lake in hopes that the waters there would benefit him, but his recovery is slow.

# Cloak and Suit Department

## New Suits and Coats for Autumn

A Woman Chooses here with the Certainty of Choosing Correctly

The head of our Cloak and Suit Department visited all the leading cloak houses in the East, so we are able to show what is being worn in the fashion centers. We can show you some of the garments displayed in the CONGRESS of FASHIONS recently held in New York. Tailor suits will be in great demand this fall. The radical change in the suit jacket from short to long is reason enough. The straight round walking skirt suit has gained in popularity and will sell largely. Many fancy materials are in evidence, especially Home-spuns, Mixtures and the Mannish Materials.

## Story About Coffee.

"A Little Story About Coffee," is the subject of a very interesting and instructive article which appears on the sixth page of this paper. The story is written by one of the most proficient coffee dealers in the state, and gives a detailed description of the process through which the berries, which make the wholesome and delicious beverage, pass in being prepared, converted into roasted coffee. Much thought was given in the preparation of the story, and it should be read by all, as some splendid pointers are given.

## Fall Trade Good

It is good and that's a fact says Mr. Finneman to our reporter. How do you account for it, when others are complaining about the fall trade I asked him. Why, I do not know any other good reason than that the people have found out that we are actually selling better shoes for the money or the same quality for less money than others do. It is really remarkable how many people there are who remark about the "wearing quality" of our shoes. Now that is what we pay for and you get when you buy Douglas or Gloria or Red Schoolhouse Shoes. These shoes are sold at a price and no one attempts to undersell them—they simply can't and live. We have found the least margin of resistance to trade and that accounts for our increase this fall. Now watch us sell shoes. We carry shoes on five widths in all foot form lasts—in all leathers, heights, styles, sizes, weights, etc. "Say, don't that boy talk some?" I thought as I went on my way with a fine pair of the Douglas shoes on from the
