There is no beverage more healthful than the "right kind of beer." Barley malt and hops are the food and a tonic. Only 35% per cent of alcohol—just enough to aid digestion.

But get the right beer, for some beer is not healthful. Some is too weak, the poison bow, the thrashed and malted beer. No brew is it—nothing but health.

And hold the beer that never causes biliousness.

Call for the Boyle's Bitter.

The Beer that makes Michele's famous.
