DOW, WARM WEEK

DOW PROSPETS, BUT THEY
DID NOT SEVERE DAMAGE

The weather during the past week
was dry and warm, and all that could
be desired. Rain elsewhere has
occurred in some degree, but not
enough to have lessened the
heat. There were a few showers
at times, but so far as known, they
did not amount to any loss.

Growing is practically complete
in almost every field, and the crops
are in fine condition. The yields expected
are very large, and the produce of the
year will be worth looking for. The
weather this week has been good.
The corn has been harvested in the
north, and the wheat is ready for
harvesting. The crops in the
southern counties are all
ripe, excepting the hay, which
had not reached the
stage of harvest. The
wheat will probably be
harvested in the near
future.
