THE IRONWORKERS' SQUABBLE

**SAM PARKS STILL THE
BONE OF CONTENTION.**

Housesmiths of New York City Raise the Issue Because They Are Denied a Charter, and Are Roundly Denounced.

Kansas City, Sept. 28.—The Iron Workers' convention this morning became excited over a circular received from the housesmiths of New York because they were not allowed a seat in the convention. It was addressed to Chairman Buchanan and reads:

"In refusing us a charter you indulge all that is rotten and bad in trades unionism. You lose the greatest city in the country. There will be nothing left of your union in New York before three months pass. Any organization relying on brute strength will end in disorder and disruption."

Continuing the circular attacks those who it says called the strike because money was not coming in fast enough. Parks arose and said the housesmiths are a bunch of scabs formed into a fake union by employers.

The convention elects officers tomorrow. French, of San Francisco, seems to have the lead.

The total amount of taxable property in the county foots up this year to \$2,398,799 as against last year's assessment of \$1,852,381. TO BUILD MILLS.

Northern Capitalists Will Invest in the South.

Boston, Mass., Sept. 28.—It is reported on good authority that several of the cotton manufacturing companies in New England are planning to establish plants in the South for the manufacture of cotton goods. While some of the companies will transfer part of the business that is being done in their New England factories, others will increase their business by building additional plants in the southern states.

The cotton grades of cotton goods can be manufactured in the South at greatly reduced cost as compared with that in New England, which is the chief cause given to manufacturing this class of goods in the south.

Sofia, Sept. 28.—Reports of the massacre of a number of refugee Bulgarian bands were received here today. Near Zelatin, a small detachment of troops found 15 refugees working in a field. They bound their hands and drove them into a ditch, where they were butchered.

Snow is falling, and the condition of refugees in the mountains becomes daily more critical. Refugees are mostly women and children and if they remain in the mountains they will perish of exposure and starvation. If they emerge they will fall into the hands of the Turks and suffer death or worse.

Rioters Have Fled.

Constantinople, Sept. 28.—The ringleaders in the Beirut riots have fled to the mountains and refused to surrender unless unconditionally pardoned, which the authorities refuse.

FORGED A CHECK.

Offense Committed Saturday, Today the Offender Was Sentenced.

Saturday afternoon a man came into the store of H. H. Wessel, on Main street, and asked for some clothes to be shown him. He bought a bill of goods amounting to about \$10, and presented a check in payment. The check was drawn on a railroad contractor for whom the man claimed to have been working, and was for \$36.50.

Wessel gave the man \$5 on the amount and then becoming suspicious, followed the man, who was located in a saloon and arrested. At the jail he gave his name as Frank Webster, and he at last admitted that the paper was forged.

This morning Webster was arraigned before Judge Ellis and plead guilty to the charge and was sentenced to two years in the penitentiary. He will be taken to the prison as soon as the sheriff has time to make the trip.

BAND CONCERT.

Elbery's Band Greatly Pleased a Critical Audience.

Elbery's Royal Italian Band give a concert last night to an audience that should have been larger, for the musicians deserved it. It is seldom that the city has the opportunity of listening to music rendered as it was last night by the artists from over the sea.

The 56 men in the company played as one, and there was not a false note in the whole evening's entertainment. The work of the soloists of the quartet, and of the sextets was something that has not been heard in the city since they were here last year.

All in all, it was a rare evening's entertainment, and those who failed to attend may well regret that they missed so good an opportunity to hear music played as was intended by the masters who composed it.

**FIREMEN'S CONVENTION.
Divorcement From Politics Will Be Discussed.**

Chicago, Ill., Sept. 28.—Many of the leading cities of the country are represented at the sixth annual meeting of the National Firemen's association which began in Chicago today. The association, unlike that composed of the fire chiefs, does not concern itself so much with discussing methods of fire fighting as in promoting the general efficiency of the fire departments and looking after the material interests of the members. With this end in view a long program of papers and discussions has been arranged for the present meeting.

The divorce of fire departments from politics is one of the foremost matters of discussion and ways and means for promoting the civil service system will be considered. It is also probable that a permanent date will be designated for a national memorial day on which to honor the memory of the firemen who have perished while doing their duty.

Coulter, president of the Utah federation, who is distinguished by the fact that she is a member of the Utah legislature.

**MOUNTAIN CLIMBERS LOST
PERILS OF EXPLORING
ALASKAN MOUNTAINS.**

Party of Scientists and Guides Who Tried to Reach the Summit of Mt. McKinley, Are Six Weeks Overdue.

Seattle, Sept. 28.—Grave fears are felt here for the safety of the Cook expedition to climb Mt. McKinley. The party should have reached here August 15, but no word has yet been heard from it. It left here the middle of June.

In the party was one lady. They were equipped with an expensive outfit, and it was expected that the results of the exploration would be the addition of a large volume of knowledge concerning the topography and fauna of the mountain, which is known to be the highest in North America.

Owing to the enormous deposits of snow and wide glacial fields, it is not believed that a successful attempt will ever be made to reach this summit.

**DISTURBANCES
IN LABOR WORLD**

**American Militia Taken to
Canada to Quell a Mob of
Fifteen Hundred Finns.**

**KANSAS CITY AND ST. JOE
BUTCHERS MAY STRIKE.**

**Nearly Sixty Thousand Miners Are
Now Working on Half Time in the
Wilkesbarre District—Slav Banker
Fails, Leaving Many of His Countrymen in the Lurch.**

Sault Ste. Marie, Sept. 28.—Fifteen hundred Finns, enraged at their inability to cash the checks of the Consolidated Lake Superior Company, rioted and attacked the company's office this morning on the Canadian side.

The police were unable to quell them alone and secured the assistance of a company of militia from the American side, which dispersed the crowd. All saloons and hotel bars have been ordered closed. The streets are crowded and a renewal of trouble is feared tonight.

The employers have lost the adherence of many conservative people by their action in securing the American militia, while the labor agitators are making the most of the incident. The claim is made that there is no warrant in treaty or international law for such a procedure, and labor circles are greatly disturbed and incensed.

Politicians who are identified more or less directly with the labor unions and their sympathizers on both sides the line, openly declare their purpose to make a test case of the incident. The occurrence is so utterly without precedent that many who favored and advised having the militia brought to the Canadian side are making no defense now of their position.

Sent to Toronto for Soldiers.

The riot was precipitated when the Finns were informed that no money was in sight. The company issued a notice saying that although hundreds of funds they believed the stockholders' plan is good whereby funds can be raised and work resumed within 30 days. It advised the men to get work elsewhere if possible to get money to leave town. The Finns threaten to wreck the company's buildings. The authorities this afternoon telegraphed to Toronto for regular troops to preserve order.

Police and Rioters Fight.

This afternoon the officers and mob clashed. Two policemen were clubbed and stoned in unconsciousness and were removed to a hospital. Two Frenchmen were shot, one through the neck and the other in the leg.

Cartridges have been issued the militia with orders to shoot if necessary. Ferryboats are now tied up to prevent the rioters coming over and attacking the Michigan Soo.

Wilkesbarre, Pa., Sept. 28.—Notices were posted this morning that all Delaware & Lackawanna collieries would be operated on half time until further notice. Nearly 18,000 men are affected by this order. Nearly 60,000 men are now on half time in this district.
