### MAKING SEWER CASTINGS.

Rigby-Clove Foundry Furnishing Manholes for the System.

The Rigby-Clove foundry has a small force of men at work in their shops, having cut the number of men employed since the rush of the summer is over.

They are still working on orders they have for combines and expect to carry enough men during the winter to get the work done in time to set the machines up and test them by the time they are needed in the harvest field.

The chief work now, however, is the castings for the sewers. At each intersection along the line of the sewer the contract calls for a manhole to be placed and the foundry has the contract for these castings. The workmen are turning them out as fast as they are needed on the construction, and by the time the excavating has been finished and the masonry put in, the castings will all be on the ground ready to be set in position.

### J. M. Bently Has Returned.

J. M. Bently returned this morning from a trip to Portland, where he has been attending the carnival and taking in the sights for the past week. Mr. Bently accompanied his nephew, Spencer Bently, of Modesto, Cal., as far as Portland, on his way home after a visit in this city.

### Gone Home to Portland.

Mrs. A. W. Teutsch left this morning for her home in Portland, after a visit at the home of Mr. and Mrs. Lee Teutsch, of this city. Mrs. Teutsch will be joined at Heppner by her husband, who has been there on business.

### The Merchants' Cafe.

Keeps constantly on hand imported larder: roast, Frankforters, Hamburg eels, crawfish, crabs, oysters, all kinds of cheese. Hot merchants' lunch daily from 11:30 a. m. to 2 p. m.

### Son Was Born.

There was born this morning to Mr. and Mrs. Rudolph Martin, of this city, a 9-pound son.

In New York City a baby is born every four minutes in the neighborhood of Houston hill, and one a month on Murray hill. These two quarters are the extremes of the social divisions.

### Toilet Daintiness

Who is it that does not appreciate a sweet, delicate odor, especially of the dainty, lasting kind? We have the largest line of imported and domestic perfumes in Eastern Oregon. A few of our leading imported odors are:

- Azurea, La Trefle, Peau d'Espagne, Violette de Parme, Indian Hay.

And many more of the same quality in bulk as well as in fancy packages.

## COMMENDS ARNOLD

THE DALLES PAPER SPEAKS HIGHLY OF CARNIVAL.

Says Animals Shown Are Carefully Selected—No Grafters Following the Company—Oriental Music is Forbidden—Pendleton Assured of Good Carnival.

That Pendleton has made no mistake in dealing with E. J. Arnold in securing attractions for the coming Merchants' Carnival, is evident from the kindly mention by The Dalles papers of the company which is now at The Dalles, holding a week's carnival, before coming to this city next Monday.

The Chronicle of the city by the falls, in speaking of the Arnold show, says:

"People are wont to look upon an animal show in an educational light, and many who do not care for any other feature of the show will spend some time in front of the cages viewing the fine specimens of animals which cannot be seen outside of such places. In securing the animals he is exhibiting, E. J. Arnold took this fact into consideration and was successful in getting some extra fine specimens, among which is an immense African lion called Columbus. He is 4 years old, and when Mr. Arnold secured him was a vicious dog when he approached the cage would snarl at him. Now it is surprising to see him put his head against the bars to be petted by his master.

"Another good specimen is the 20-month-old Bengal tiger, which is a handsome animal. "Perhaps the most interesting animal is the South American tapir, which, though a species of the elephant, does not greatly resemble those we have seen. He is an ugly-looking animal, and one which is seldom seen in a menagerie.

"Not forgetting home production, he has a small black bear, which was captured at Grant's Pass, in Southern Oregon.

"Besides these, are the hyena, the lioness, Nellie, the 4-year-old tiger, two kangaroos, a pair of deer and a cage of monkeys."

The Chronicle also mentions the fact that the company is not infested with grafters, fallers or unfit amusements of any character. The outlandish Oriental music, so common to the usual carnival companies, is also conspicuous for its absence, and the company is a first-class, clean aggregation throughout.

The merchants of this city are fortunate in securing this company for the coming carnival, as the country people are assured of a week's clean, wholesome amusement. This recommendation from a paper near home is more convincing than any other proof that can be presented, and the excellent preparation now being made by Mr. Wilson and Mr. Halley in this city, assures the highest success for the carnival here. The livestock and agricultural exhibit is to be one of the most interesting features if the promised exhibits materialize.

### THE DUFUR RAILROAD.

Preliminary Survey Completed and Right of Way Secured.

For several months past a party of engineers has been locating a line of railroad from near Seuter's on the Columbia, to the town of Dufur, and now the report is rife that a road is to be built on the line of survey. Last week N. Wheelton and T. H. Johnston interviewed the land owners along the line and in nearly every instance found them willing to grant a right of way through their lands.—The Dalles Times-Mountain.

as yet arrived, there was some delay in getting the little tots home to their dinners on time yesterday noon, as the wagon used had to make three trips. The large wagon ordered will be here in a short time, and when it arrives the children will be transported to and from their school on time.

This is a new branch in the work of the academy and is meeting with the approval of the patrons of the school, a large class having been sent on the first day. It will be made a special feature of the work and will undoubtedly grow to be one of the principal departments of the work.

### DEATH OF A PIONEER.

Mrs. Augusta Moorhouse Passed Away, Aged 91 Years.

Mrs. Augusta Moorhouse died at her home in Weston last night, from complications resulting from advanced age.

Mrs. Moorhouse is one of the old residents of this county, having come here with her husband, Thomas Moorhouse, many years ago. She was born in Germany September 9, 1812, and came with her parents to this country when she was 9 years of age, the family settling in Ohio. There she married Thomas Moorhouse and afterwards moved to Indiana, and from there to Iowa. In 1861 Mr. and Mrs. Moorhouse came across the plains to this country, settling near Walla Walla, and after a short residence there, moved to Weston, where they have since resided.

The husband of the deceased lady died less than a year ago at Weston. Mrs. Moorhouse is the mother of Lee Moorhouse, of this city, and there is one other son, John Moorhouse, whose present whereabouts are not known. The last news received of him he was in California. The funeral was held from the family residence this afternoon at 2 o'clock, the burial taking place in the cemetery at Weston.

### HELD FOR TRIAL.

Jack Gebhart is Charged With Selling Liquor to Indians.

Deputy United States Marshal A. A. Roberts is in the city today, having brought Jack Gebhart here for examination before the commissioner's court on the charge of selling whiskey to Charlie Turnips, an Indian from the reservation, at this place. Turnips has been at La Grande for some time and has been repeatedly filled up on the beverage that inebriates, by Gebhart, who was at last caught by L. Rayburn, the city marshal of La Grande.

Gebhart was arraigned this morning and held to the United States court at Portland, but as he was unable to furnish the necessary bail he will be taken to that city in the morning and placed in jail there to await the sessions of the court in November.

Gebhart is a well known character in and around La Grande, and all over the eastern part of the state, in fact.

### Fourth Facial Operation.

A. J. Crigler, of the Walla Walla valley, underwent an operation yesterday afternoon at St. Mary's hospital of Walla Walla, in order to relieve a nervous affection of the face. This is the fourth time that Mr. Crigler has been under the surgeon's knife for the same thing. It was reported last night that he was resting easily after the operation, and will have no trouble in recovering from the shock.

### Sold 11 Cars of Apples.

A Salt Lake City fruit firm yesterday purchased 7,400 boxes of winter apples from La Grande growers. The price paid was 72 cents per box on board the cars. This shipment represented about one-fourth of the crop.

## CARNIVAL AFFAIRS

OFFICIAL DECORATORS ARE IN THE CITY TODAY.

Prospects increasing for the Finest Livestock Display Ever Seen in the County—Business Houses Will Be Decorated—The Parade Will Be a Large and Spectacular Affair.

T. Ellis and T. O'Hara, of The Dalles, are in the city and will act in conjunction with the merchants of the city in decorating the place for carnival week. The gentlemen are the official decorators of the carnival company, and will make this their headquarters until after the carnival has started.

All of the business places of the city will be decked out in holiday attire for the coming week, and the time will be given over to merriment. The stock and fruit exhibit has been further looked after this week by John Halley, who has charge of that part of the show, and from the returns which he is receiving he will have the largest display ever seen in the city.

The merchants will most of them erect booths in front of their places, and the city will take on an oriental and novel aspect for the five days of the show.

The parade is being now arranged for the opening day and from the interest taken by the people of the city it will be a monster affair. Nearly all of the houses of the city will be represented in it, and besides this, will be the stock exhibits and the wonders of the carnival company. The details of the week's entertainment are now shaping, and in a day or so the official order of events will be made public.

## COUNCIL MEETING

TWO LIQUOR LICENSES GRANTED LAST NIGHT.

Regular Monthly Salary List Allowed—Steps Will Be Taken to Abate the Nuisance of Overhanging Branches of Trees—Bill for Freight Was Allowed.

The council met last night to a small audience and a smaller amount of business to transact. At first the council assembled, but as they were about to commence business the lights went out and part of the body left for home. However, the lights and a quorum returned and business began.

Liquor licenses were issued to Joseph Hoch and M. Gratz, and the salary list for the last month was audited and allowed.

Mr. Clifton, the chairman of the sewer committee, asked that a bill for freight amounting to \$29.63, be paid on some castings for the flush tanks of the new sewer. The castings were at the depot and could not be taken until the freight was paid. The amount was ordered drawn from the sewer fund.

The subject of the lots that the council had agreed to buy, was brought up. G. A. Hartman, to whom the subject had been referred, reported that there were some complications in the titles, but that they could be straightened out by an act of the county court, and that he would see that it was done in the near future.

Mr. Howard, while talking of the

bicycle ordinance, said that he was in favor of having an ordinance drafted compelling the people of the city to keep their trees trimmed eight feet above the ground, where they had limbs projecting over the sidewalks. The council was favorably impressed by the suggestion and appointed Mr. Howard to confer with the city attorney for the purpose of drafting a suitable ordinance and presenting it to the council at the next meeting.

The council then adjourned.

### Lecture Was Highly Appreciated.

The lecture last night at the parish house, by Rev. H. H. Gowen, on the subject of "Othello" was much appreciated by those who attended. Mr. Gowen is a deep student of Shakespeare and treated the subject from a popular standpoint, rather than from the point of view of a student, thus making it much more interesting to the average auditor. The lectures given in the two nights were of much interest, and it is to be hoped that the society will be able to have more of them during the season.
