WILL HEAT WITH GAS.
Judge Ellis is installing a New System of Heating.
Judge W. R. Ellis is about to try a new scheme at his house in the way of heating. He now has installed throughout the building a hot water heating system which he has kept warm in the past by the use of wood and coal. He will now use gasoline as a fuel, and is installing the new plant at this time. In the back yard he has a large tank in which is the gasoline, and here is generated the gas which is conveyed to burners under the furnace.
The whole thing is on the scale of a gigantic gasoline stove, and is claimed by the man who is putting it in to be much cheaper and less trouble to operate than the old way. If it is a success the Judge is to pay for it, and if it does not give satisfaction the contractor is to take it out of the house free of cost.

Jewish Day of Atonement.
New York, Oct. 1.—The first 10 days of the Jewish New Year, which are days of penitence, culminated today in the observance of the Day of Atonement, the only fast day commanded in the Mosaic law, and the most widely observed of Jewish holy days. Business is suspended for the day by the most liberal as well as the most orthodox, and quiet pervades every Jewish community. Among the thousands of strict orthodox Jews to be found on the lower East Side of New York, it is not uncommon for the penitents to stand upon one spot in the synagogue, without food, drink or sleep, for the entire 24 hours.

Fall Trade Good

It is good and that's a fact
says Mr. Finneran to our report-
er. How do you account for it,
when others are complaining
about the fall trade I asked him.
Why, I do not know any other
good reason than that the people
have found out that we are ac-
tually selling better shoes for the
money or the same quality for
less money than others do. It is
really remarkable how many
people there are who remark
about the "wearing quality" of
our shoes. Now that is what we
pay for and you get when you
buy Douglas or Gloria or Red
Schoolhouse Shoes. These shoes
are sold at a price and no one
attempts to undersell them—
they simply can't and live. We
have found the least margin of
resistance to trade and that ac-
counts for our increase this fall.
Now watch us sell shoes. We
carry shoes on five widths in all
foot form lasts—in all leathers,
heights, styles, sizes, weights,
etc. "Say, don't that boy talk
some?" I thought as I went on
my way with a fine pair of the
Douglas shoes on from the
