## A MODEL WARSHIP

VISITORS TO ST. LOUIS  
WILL WITNESS NOVEL SIGHT.

United States Government Will Fur-  
nish Complete Model of One of the  
Immense Fighting Ships and Will  
Have Moving Pictures Represent-  
ing All Movements on Board.

Mr. B. F. Peters, chief clerk, hav-  
ing charge of the navy department  
exhibit at the World's Fair, St.  
Louis, has formulated plans for his  
exhibit which will make it undoubt-  
edly the most notable and novel in  
the history of government participa-  
tion in expositions. The department  
as a whole has an exceptional oppor-  
tunity to contribute to the great-  
ness of the exposition. By its un-  
surpassed exhibit in the government  
building; the detail of a battalion of  
marines in their model camp on the  
exposition grounds; and the proposed  
detail of a squadron of men-of-war  
at St. Louis when the exposition  
opens, this department will add more  
to the success of the exposition possi-  
bly than any other. The new fea-  
tures which Mr. Peters will have in  
his exhibit will render it intensely  
interesting.

The most important feature of the  
exhibit will be an exact sized model  
of an American man-of-war, showing  
that portion of the vessel from the  
bow back a distance of 118 feet to  
about the first smokestack. The  
model will not be a reproduction of  
any particular type of ship, but will  
contain features peculiar to battle-  
ships, cruisers and gunboats. Both  
the upper and main decks will be  
shown. On the former will be two  
10-inch breech-loading rifles in mod-  
ern balanced turrets. The main deck  
will show the captain's office, state-  
rooms, messrooms, petty officers'  
quarters, berths, baths, hammocks,  
galley, mess dispensary, ammunition  
hoists, torpedos, electric water-tight  
doors in operation and naval guns of  
different calibres.

This model will occupy the central  
portion of the naval exhibit and will  
be free of access to visitors, who  
thus will be enabled to examine care-  
fully and at close range a modern  
American man-of-war.  
Next in importance to the warship  
model will be the exhibition hourly,  
while the government building is  
open, of biograph motion scenes, il-  
lustrative of the life and duties of  
the crews on United States men-of-  
war.

These moving pictures will be  
thrown on a 20-foot canvas and were  
taken during the summer maneu-  
vers of the North Atlantic squadron  
off the coast of New England. The  
scenes reproduced show the maneu-  
vers of vessels, great gun exercises,  
landing parties, boat races, fire quar-  
ters and general muster.
