GOOD SHOES CHEAP.

FROM MIDDLE FORK.

Fine Pasturing Yet and Live Stock All in Good Condition.

P. S. Noyer of the Susanville country was in the city today from his ranch on the Middle Fork after a load or two of supplies. In the early days Mr. Noyer used to haul freight over the old road, but has now gone out of the business and is running a big cattle ranch where he now resides. He has a thousand acres there and it is well stocked with cattle.

Mr. Noyer reports that the cattle in his part of the country are in the best of condition, and that there is plenty of grass for all of the stock in the country. The grass in his pastures is now three inches high and growing faster than the cattle can eat it off, and this is the condition all around that vicinity. There is more pasture in the thousand acres owned by Mr. Noyer, so he says, than there is in 5,000 acres of land in this vicinity at this time. The stock in his country is all in good condition, and the growers there will winter every head they can so as to profit by the dearth of feed here.

ASSAULT AND BATTERY.

John Pierce is Defendant in the Justice's Court.

Ed Redford has filed a complaint in the justice court alleging assault and battery against his step-son, John Pierce. The assault was committed on the reservation yesterday, and is the result of a family quarrel. Redford is a white man, while Pierce is a half-breed of the reservation. The case will come up for a hearing as soon as the arrests are made and the defendant is arraigned and allowed to plead.

Pierce was brought in from the country this afternoon by Deputy Sheriff J. A. Blakley, and when arraigned pleaded guilty and was fined \$5 and the costs of the action.

The Merchants' Cafe.

Keeps constantly on hand imported Heber, rat, Frankforters, Hamburg eels, crawfish, crabs, oysters, all kinds of cheese. Hot merchants' lunch daily from 11:30 a. m. to 2 p. m.

She (at the review grounds)—What an imposing figure Captain Borrows has! He—Yes, naturally so. She—And why naturally, pray? He—Oh, he's always imposing on his friends.—Philadelphia Inquirer.

EDUCATIONAL WORK

SUPT. NOWLIN AGAIN IN CHARGE OF HIS OFFICE.

Annual Apportionment About to Be Made—Twenty Thousand Dollars for Distribution—Program for Institute at Weston, Which Meets November 2, is Being Arranged.

County Superintendent of Schools J. F. Nowlin is at work catching up with the routine of his office work, after having been away for some time to California.

Annual Apportionment.

On Monday next he will make the annual apportionment of the state and county school fund among the different schools of the county. According to the law he is required to make this apportionment on the first Monday of October in each year, and this year he will have a little over \$20,000 to distribute among the schools according to the registration of the school children in each district. The rate of distribution has been fixed by the new law at \$6 for each school child in the county, and this will be figured up and the money drawn in that ratio the first of the week.

Teachers' Institute.

The last of next week Mr. Nowlin will have the program made up for the county teachers' institute, which is held annually at some place in the county. This year it will be held at Weston, and there the people of the city will do the right thing by the visitors. There will be about 150 teachers in attendance on the institute, and from the time that they get off the train at Weston on the 2d of November until they leave after the institute has adjourned, they will not have to pay for so much as a sandwich. The people of the city have decided to pay all of the expenses of the visitors during the sessions of the institute, and will provide for their entertainment during their stay in the city.

Convene November 2.

The institute will convene on November 2, and will hold for three days. A very interesting program will be arranged for the time, and it is expected that this year will see a more profitable time than has been had for years.

BICYCLE STEALING.

Arrest of Man Supposed to Have Stolen L. L. Morrow's Wheel.

T. D. Taylor is in The Dalles today and will bring home with him a man who was arrested there on complaint of the city officials here for the larceny of a bicycle belonging to L. L. Morrow, of this city. The bicycle was left in a yard in South Pendleton for a few minutes a day or two ago, and when Morrow came out for it the machine was gone. At first he thought it had been taken by one of the school children by mistake, but in the evening after the children had all taken their wheels it was still gone, and a search by the police convinced him that it had been stolen. Yesterday they received word that the thief had been arrested at The Dalles with the wheel in his possession. He was held on a John Doe warrant at The Dalles, and will be brought to the city in the morning by the sheriff.

PRIVATE SEWER.

Property Owners of Block "E" Will Build at Their Own Expense.

The property owners of block "E" in the city plat held a meeting at the St. George hotel last evening and decided to put a private sewer through the center of the block, to connect with the Alta street sewer as soon as the workmen can be secured to do the work.

For some time the problem of sewerage has been a vexing one to the property owners of this block.

A trial convinces.

F. S. YOUNGER & SON

NOT GOOD, NOT HERE

age in this district has been a hard one for the city, and it will be good news to the health department to hear that the owners of the property have taken the action they have. The sewer will have its head at the rear of the Hotel St. George and will run from thence through the center of the block to Alta street. It will drain all of the tenderloin district and the business blocks on Main street.

The pipe will be an eight-inch, and will be placed deep enough to drain the cellars of the business houses along the block. It is thought that the work will be commenced the first of the coming week.

WILL MOVE TO PORTLAND.

Jack Baker Has Accepted Position With Marshal Wells Hardware Company.

Jack Baker, who has been with the Thompson and Hansford Hardware Company of this city for the past four years has just returned from a three weeks' visit to San Francisco, Santa Cruz and other California points. He has been visiting a brother whom he had not seen for 30 years, and the trip was very enjoyable.

Mr. Baker has accepted a position with the Marshal Wells Hardware Company of Portland, and will travel for them through the Willamette valley as salesman. He was formerly in the employ of the Honeyman Hardware Company of Portland, before coming to Pendleton. He has made a host of friends in this city, and his place with his former employers will be difficult to fill. Mrs. Baker will move to Portland in a short time, where they will reside permanently.

Looking for Winter Pasture.

George McGoughy, of Alba, who met with a severe accident two weeks ago in which he broke his right arm below the elbow by his horse falling on him, passed through Pilot Rock yesterday on his way to Pendleton. Mr. McGoughy is engaged in the cattle business and is now looking for a suitable place to winter his stock.—Pilot Rock Record.

New Farm Residence.

A. C. Henderson, who lives on Birch creek, two miles south of Pilot Rock, was in Pendleton yesterday buying doors and windows with which to complete a new residence. The structure, which will be one of the most commodious and comfortable in that neighborhood, will be completed about October 29.

Returned to California.

C. W. Hollis, formerly of Athena, where he was engaged extensively in the general merchandise business, left for his home in California this morning, after a visit with friends here. Mr. Hollis has been in the city for several days looking after interests here.

WOMEN'S CLUB NOTES.

Will Discuss Browning.

The next meeting of the Thursday Afternoon Club will be held at the home of Mrs. J. Halley, Jr., October 15. The program will be on Robert and Elizabeth Browning. Guests having invitations for October 8 are asked to notice the change in date.

Studying Germany.

The Current Literature Club held its first regular meeting of the year Friday afternoon at the home of Mrs. R. Alexander. The club is making a study of Germany this year, using the Bay View system.

Mrs. Bethel, Author.

Many of our readers will be interested in the following clipping from the Columbus (Ohio) Daily Press:

"The many club women of the city will be pleased to know that an unusual honor has fallen upon one of their most popular members, Mrs. Lillian Cole-Bethel, whose book on 'Parliamentary Laws' has been read with interest by every club woman, received a letter some weeks ago from far-off Japan from a noted publishing house, asking the privilege of translating her work into the Japanese language.

"Mrs. Bethel consented and Wednesday morning received word that the type was all set and all things in readiness for the issuing of the book. "As it takes a number of days for a letter to reach this city from the Orient, it is safe to say that the book is, ere this, completed and stands as a monument of what a club woman—a Columbus club woman—can accomplish."

Mrs. Bethel will spend the winter in California, and probably will be at the next summer Chautauqua Assembly at Gladstone Park, where there will be a grand rally of Oregon club women, if present plans are carried out.

Dr. Gowen's Lectures.

The event of the week among club women was the talk of the Rev. Dr. Gowen on "Browning and His Poetry," at the home of Mrs. C. B. Wade. About 45 ladies availed themselves of the opportunity to listen to Dr. Gowen, and enjoyed meeting him socially.

Dr. Gowen's audiences in Pendleton were small, but appreciative. It is to be regretted that such talent does not call out a larger number of Pendleton's lovers of good literature.

Progress of Federation Work.

The State Federation president, Mrs. T. T. Geer, reports federation work as "really moving," and exhorts the clubs to exercise patience in regard to federation news. The year books have been most unaccountably delayed, but Mrs. Geer says they are promised very soon. A list of all state committees will be published in "club notes" at the earliest possible date.

For the best bread, get Rohman's.

WILL HANDLE FUELS

ROSS COMPANY WILL GO INTO COAL BUSINESS.

Stock Will Be on Hand Before Snow Flies—Changes in Plans of Management Are Not Contemplated—Enlargement of the Business Will Be Made.

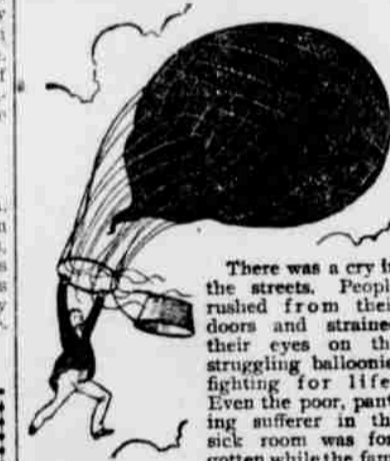

A. D. Stillman, of the Ross Ice & Cold Storage plant has a surprise in store for the people, and an agreeable one at that. It seems strange, nevertheless it is a fact, that the ice man is generally the one who sells to you the coal and wood for the winter months, thus getting a double whack at his customers and that is what the Ross company intends doing inside of the next few weeks.

It seems excessive to Mr. Stillman and the other directors of the institution that the people have to pay \$9 a ton for coal and from \$6 a cord up into the air for wood, and it is the intention of the company to add a coal department to their business before the winter is over. When they open their fuel business they expect to be able to furnish coal to the consumers of the city for at least \$6 a ton.

Will Handle Fuels.

In fact, the plans are being laid for a general widening of the scope of the company. The venture was planned last fall, and was not put into operation until late this summer, and thus far has been more of an experiment on the part of the management in gauging the field of the concern than any attempt on the part of the corporation to do business. Now, however, it has been ascertained how far the field extends, and it is the plan of the management to build out to meet the increased demand. This is the whole of the change at present contemplated.

It was not reported that there were to be many changes in the plans of the management of the company, but this is entirely erroneous, unwarranted, unauthorized and far-fetched, and

There was a cry in the streets. People rushed from their doors and strained their eyes on the struggling balloonist fighting for life. Even the poor, panting sufferer in the sick room was forgotten while the family gazed breathless at this strange tragedy of the air. Then they went back to the sick room to tell of the terrible struggle for life they had just witnessed. It did not occur to them that under their very eyes a more terrible, more pathetic struggle was going on daily.

There can be nothing more pitiful than the struggle the consumptive makes against disease. The greatest help in this struggle is gained by the use of Dr. Pierce's Golden Medical Discovery. It cures obstinate coughs, weak and bleeding lungs, emaciation, and other ailments which if neglected or unskillfully treated find a fatal termination in consumption.

"In 1896 one of my daughters was suffering on account of a severe cough, hectic fever, wasting of flesh and other symptoms of diseased lungs," writes Rev. Joseph H. Fesperman, of Barren Springs, Irwell Co., N. C. "I promptly gave her Dr. E. V. Pierce's Golden Medical Discovery with gratifying success, and she now enjoys excellent health. This being true, I hereby heartily endorse your medicine."

Accept no substitute for "Golden Medical Discovery." There is nothing "just as good" for diseases of the stomach, blood and lungs.

Dr. Pierce's Pleasant Pellets assist the action of the "Discovery."

such a report has not been sanctioned by the stockholders of the company to whom it comes as a matter of news. It was born of a diseased imagination and a stray sentence. However, there is one thing certain, and that alone: the company will have \$6 coal here before the time for fur overcoats arrives, and in the future the plant will be further enlarged to meet the demands of the business that is springing up on every side to welcome it.

Returned From Portland.

E. D. Strahon, Tex Langiver and D. Matlock have returned from their trip to Heppner, which they made in a cab. From Heppner they went to Portland and returned to their homes in this city from there this morning.

Shields' Park Reopening.

H. Nelson, the manager of the Shields' Park Show Company, left this morning for Portland, where he will make arrangements for the re-opening of the show in the near future.

All the proceedings of The Hague Venezuelan tribunal will be officially recorded in English and French.
