## WAS COMPROMISED

SCHOOL DISTRICT NO. 27  
IS AT LAST DIVIDED.

The Habitant of One Section Move to Pendleton—Movement on Foot to Consolidate Part of 27 and All of 25 and 44 With Pendleton District.

The county court met this morning and took up the matter of the division of school district No. 27. This case has engaged the attention of the residents of the district for some time, and it has been before the courts and the district boundary board for several sessions.

In the first place, the residents of the district wanted a division cutting the district in two, and the members of the southern part were not in favor. The matter was referred to the board and the petition allowed, but owing to a technicality it was appealed to the circuit court and the matter was re-referred and ordered to be re-posted and advertised. This was done, and when the petition came before the board the second time, owing to more errors, it was refused a passage. The parties to the controversy have since arrived at an understanding and have compromised the matter. The court today granted the compromise petition, which is practically what was asked in the first one.

In the compromise the residents of the new division agree to buy the schoolhouse of the old district and move it onto their grounds across Birch creek to the southwest of the city. The residents of the south part

of the district will hold no school in their part of the district, but will move their families to Pendleton, where their children will be educated, this being another consideration of the compromise.

The fact of the matter is, the residents of the south part of the old district, Mr. Strong and John Southwell being the principal ones, expect to be annexed to the Pendleton district in a short time and for this reason agreed to the compromise. They, with the residents of districts No. 25 and 44, will make an attempt to have the districts all merged into the Pendleton district, and will send their children to the schools of the city. This matter has been talked for some time, and in the near future an active effort will be made to bring about the consolidation. In the meantime, Messrs. Southwell and Strong have moved their families into the city.

## COUNCIL MEETING

### ORDINANCE PASSED TO COMPEL TREE TRIMMING.

Street Sprinkling Bill Was Not Allowed, and Will Be Investigated—Fire Chief Will Make Report of Olympia Meeting—Sewer System Will Be Completed January 1—Investigating Samples of Hose.

The council met last night, with all of the members present but one. There had been rumors of an interesting meeting, but it proved to be rumors, for the council, after a long time spent in auditing the bills of the month and looking at the samples of fire hose submitted in response to the bids advertised for, adjourned.

#### Tree Trimming Ordinance.

There was one piece of business done, and that was the passing of an ordinance provided for at the last session of the council, in regard to the trimming of the trees inside the corporate limits. The ordinance stipulates that limbs of all trees which project over the sidewalks, shall be trimmed to a height of eight feet above the sidewalks. If the property owners fail to do this in a certain time after the passage of the ordinance, the street commissioner shall have the obstruction removed and charge the amount to the owners of the property. The ordinance was drafted by Councilman Howard and City Attorney Carter, at the request of the council at a previous meeting.

The bills of the month were presented, and with the exception of one which was taken under advisement until the next meeting, were allowed. The bill not paid was the one for street sprinkling, and it was thought that in view of the number of rainy days in the last month the matter should be checked up. Therefore, the bill was held for the investigation of the committee on accounts.

The council asked Fire Chief Withee to make a written report of his visit to the meeting of the chiefs at Olympia, in which he should embody any suggestions as to improvements in the system here, brought to mind by his experiences in the convention.

#### Report on Sewer Construction.

The report of G. N. Miller, the city engineer in charge of the sewer construction, was received. Mr. Miller reported that three miles of the sewer had been completed and that the hardest part of the work was now finished. The work would be completed by the first of the year, provided there were no accidents to the construction. The report called for an outlay of \$4,297.97, which was ordered drawn from the sewer fund.

#### Concerning New Hose.

The bids for the fire hose were opened, and a number of samples were examined by the members of the council. The matter of selection was finally left to a special meeting of the council, which shall be called in a day or so. The fire committee has charge of the selection, and with the assistance of the fire chief, will report to the special meeting the best hose submitted.

## BOGUS MONEY MEN

### FOUR COUNTERFEITERS BOUND FOR PORTLAND.

Expose of a Large Gang Which Worked Very Smooth Schemes—They Were Taken in Custody at Sumpter—Will Be Heard at the November Term of Federal Court.

Deputy United States Marshal A. A. Roberts passed through the city this morning from La Grande, bound for Portland, having in his custody Oscar Wells, Oscar Stratton, Kid Irwin and Ed Jones, who were arrested in Sumpter charged with passing counterfeit money. The men were bound over to the federal court at Portland, and are now on their way there to await the action of that tribunal.

Kid Irwin was the means of the discovery of the gang, as he was arrested while attempting to pass a bogus \$5 piece in a saloon at La Grande. The men had a smooth scheme which they had been working for some time and the officers have had a hard time to catch them at their work.

Three of the men had obtained positions in restaurants at Sumpter as cashiers, and one at La Grande. Other members of the company would then come to the restaurants and present counterfeit \$5 pieces in payment for meals received. The cashier would mix the money with that in the drawer and then discovering that he had no change for the money, would return a good piece of gold to the man and the proprietor of the restaurant would have to stand the loss, as the man who received the bad money would generally find the flaw and ask for his change in good money.

Some of the men are well known in this part of the country, and are well connected. They will have their hearing at the November term of the federal court, and will in the meantime remain in jail in Portland to await its action.

#### NEW HEATING PLANTS.

Hotel Pendleton System Now Running, and Courthouse Repairs Finished.

The steam heating plant in the Pendleton hotel has now been connected and fire was started under the boilers last night. The plant gives perfect satisfaction, the big building being warm now night and day.

The repairs at the courthouse are also nearly completed, it being expected that the system will be ready for use by this evening. The county officials and employes in the courthouse have been having a cold time of it for the last few days, and they will welcome the installation of the heating plant greatly.

#### Returned to Prineville.
