Three Hundred Seven Registered.
The registration of the voters for election closed with a registration of 307 names. While this is a small number to start in with to hold an election, it does not signify that there will be no interest taken in the contest. When the time comes it may be, and will probably be the case, that many of the voters who failed to register will swear their votes in and thus exercise their right to have a voice in the affairs of the city.

Morrow Crop Poor.
William Broadly, of Heppner, tells the Walla Walla Union that crops in the vicinity of lone and Lexington were very poor, only averaging four to eight bushels per acre. Some crops were not cut at all, he says.

Protects the People's Rights.
A new set of snipping regulations recently formulated in New Zealand gives proof of the maternal care with which the government looks after the welfare of the people. Every so-called vessel that can be controlled by the local authority must for the future carry a boat or raft fully fitted up with provisions in case of accident. Provision is to be made for a supply of fresh water and of beef, biscuits, chocolate, tabloids and lime juice, and also of fishing lines and hooks and safety matches. So many desperate tragedies have occurred around the New Zealand coast from time to time after shipwrecks, through the difficulty of getting living necessaries into the boats in the rush and excitement of escaping, that the new regulation in this regard seems to be a wise precaution. It is noteworthy that neither rum nor tobacco is included in the items of this novel "manifest."

COLORADO RESERVES.

Over 3,000,000 Acres Examined and Will be Withdrawn.
More than 3,000,000 acres of public lands in Colorado have been recently examined by the United States bureau of forestry to determine their fitness for forest reserves, and it is probable that a very large proportion, possibly all of them, will be made into reserves before many months.
The examination of this enormous area has been in progress since early in the summer. The government's experts have been all over the state and are prepared to recommend on their return to Washington the creation of reserves in every part of Colorado where the preservation of the timber will be of the greatest permanent benefit to the mining and ranch interests.

In the Southern States there were in 1880 20,500 miles of railroad. In 1900 there were 54,000 miles of railroad.
A Uruguayan gunboat blew up in the harbor of Montevideo and went to the bottom with all the officers and crew.

The famous Ferris wheel will be repaired and duplicated and do duty at the World's Fair.

Prominent Citizen Dead.
Charles H. Fisher, one of the leading business men of Baker City, died yesterday at his home with typhoid fever. Mr. Fisher had been a resident of Baker for a number of years, was interested in a number of the best mines in that vicinity and was engaged in the farm implement business at the time of his death.

Farm Sold.
Nancy J. Crull, a widow, has sold to Benjamin Stanton the southeast quarter of section 28, in township 6, north of range 32 east, containing 160 acres of land in the vicinity of Canon.

Fall Trade Good

It is good and that's a fact says Mr. Finerman to our reporter. How do you account for it, when others are complaining about the fall trade I asked him. Why, I do not know any other good reason than that the people have found out that we are actually selling better shoes for the money or the same quality for less money than others do. It is really remarkable how many people there are who remark about the "wearing quality" of our shoes. Now that is what we pay for and you get when you buy Douglas or Gloria or Red Schoolhouse Shoes. These shoes are sold at a price and no one attempts to undersell them—they simply can't and live. We have found the least margin of resistance to trade and that accounts for our increase this fall. Now watch us sell shoes. We carry shoes on five widths in all foot form lasts—in all leathers, heights, styles, sizes, weights, etc. "Say don't that boy talk some?" I thought as I went on my way with a fine pair of the Douglas shoes on from the
