I know not what I am, nor why, Nor wherefore anything should be. And that men live, or that men die, I know not which most puzzles me.

PROTECTING HOME INDUSTRY. Twenty cargoes of foods and wines have just been refused admission to the markets of this country by the department of agriculture in enforcing the pure food law enacted at the last session of congress.

of their peril. A telegram to the St. Louis Post-Dispatch under date of Chicago, September 29, says "So far this year more than forty railway postal clerks have been killed and over 500 injured, more or less seriously. In consequence the clerks are not attracted by the runs on the fast trains. Many of them have asked to be transferred from the trunk lines, where they get salaries of \$1,500 a year, to the branch lines, where the maximum yearly salary is \$1,000. Much trouble is experienced by the superintendents of railway mail service in securing men for the fastest mail trains."

Madam Melba has issued an ultimatum to the newspapers. She has become indignant at some fancied wrong, committed by some paper, and serves notice on the profession that she has no further use for their help and bars forever from the magic circle of her smiles the news-hungry reporter and the fawning critic. Now really, Melba, this is shocking. But, after all, this is one of your schemes to get cheap advertising. One "roast" is worth a dozen complimentary notices, and no one knows this better than you.

COREA'S AMERICAN EMPRESS. It is stated on good authority that last January, when King Hongs, emperor of Corea, celebrated the fortieth anniversary of his coming to the throne, Miss Emily Brown, who has long been the light of his harem, was crowned empress of Corea, and her son declared heir apparent to the throne. Up to the time of her coronation Miss Brown was known as Lady Emily.

MORE EDUCATION WANTED. "What has education done for us?" is a question that is repeatedly asked. "It has taught the multitude to devour sensational accounts of mysteries, murders, terrors and scandals." But the multitude has only yet reached the penny-dreadful period of its education, just as an average boy at a certain stage devours books which treat of pirates and wars. Say that it takes fifteen years to educate a child, it takes fifty to educate a nation. Educate, educate more, and still educate, should be the motto of modern civilization.—London Truth.

Over 475 hunters' licenses have been issued at the courthouse at Olympia.

The supreme court is to be congratulated on its decision in the Union county county seat removal case. It is refreshing to hear the supreme court uphold the constitution and declare the laws valid. This decision will cause some of those county courts which have flagrantly violated this very law in question, to slake in their beds when thinking of their self constituted judgments.

TEST OF AUTOMOBILES. About forty automobiles, aggregating in value something like \$90,000, will leave this city on Wednesday of this week to undergo the severest practical test to which such machines have ever been officially subjected. They will start on an endurance run of 800 miles to Pittsburg, by way of Buffalo and Cleveland. This will be no speed contest. Eight days are covered in the itinerary. On the scoring tables an allowance of 3,000 points is made as the approximate number of minutes required for the actual run, and from this number a point is to be lost for every minute of unnecessary stoppage.

There will be black marks for machines stalled in sand, for halts to tighten bolts, or to pump up tires, for failures to stand the brake test, for falling below the hill-climbing or weight-carrying requirements, and for violation of speed laws. The rule on braking is of interest. For a perfect mark, a machine going fourteen miles an hour must be brought to a stop within eighteen feet.

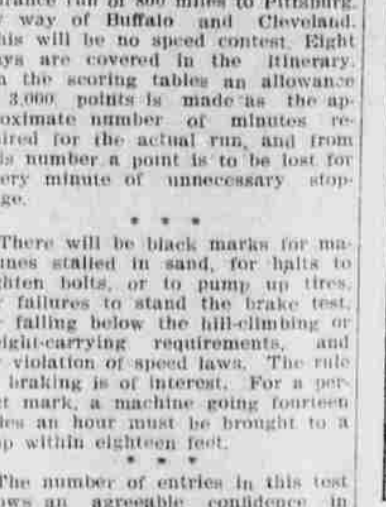

The number of entries in this test shows an agreeable confidence in their machines on the part of the makers. No perfect marks are expected, but it is believed the results will establish for American builders of automobiles a remarkably high standing in the horseless world. The endurance trial will show the qualities of the machines represented at the work of practical touring, for which most people will buy them. In this fact lies its popular interest. The mile-in-less-than-a-minute test on some special course is, compared to the Pittsburg run, an affair of the small minority.—N. Y. World.

The Bellingham Bay Lumbermen's association has reduced the price of common lumber from \$12 to \$10 a thousand in the hope that others will follow their example and reduce the price of labor and materials entering into the construction of houses. In order that building operations, which have been falling off, may be revived.

OIL FOR THE BODY. You can't lose an atom without feeling it. The body is like an engine, a watch, a machine; must be kept in good order to run right. That's the reason Scott's Emulsion is so successful in all wasting diseases. It feeds, nourishes and strengthens when ordinary food won't. Doctors say Scott's Emulsion is the best nourishment for those who are not as well as they should be—young or old.

UNITED STATES SENATOR THURSTON, The Brilliant Statesman from Nebraska, Makes an Important Public Utterance.

INTERIOR OF THE UNITED STATES SENATE CHAMBER.

Ex-Senator John M. Thurston, of Omaha, Nebraska, is one of the most prominent and influential men in the country. He made the speech nominating President McKinley at the St. Louis convention, and was made permanent Chairman of this convention. He was also made Chairman of the convention that renominated the late President McKinley at Philadelphia. He was appointed by President McKinley to be Chairman of the St. Louis Exposition Commission.

"I have used Peruna at various times during the past year or two with most satisfactory results. It entirely relieved me from an irritating cough—the result of excessive effort in the presidential campaign, and I am a firm believer in its efficacy for any such trouble."—Jno. M. Thurston.

Peruna is not a local application or temporary relief; it is a permanent cure. Peruna is a systemic remedy. It eradicates catarrh from the system. It cures catarrh wherever located. Its cures are radical and lasting. Fritze Vollmer, President Schwabacher Sangerhans, Chicago, in a recent letter to The Peruna Medicine Co., says: "My voice was so badly affected from catarrh that I was afraid I would lose it entirely. I read of some of the wonderful things your Peruna would do and thought it advisable to try some myself. I am pleased to state that in a very short time I was cured."—Fritze Vollmer. Address the Peruna Medicine Co., Columbus, O., for a book of testimonials, containing letters from prominent men and women concerning Peruna.

What Doth it Profit a Man if He Protect His Head if he Neglect His Feet and Loseth his Sole?

LADIES we want to have a little SHOE talk with you. Are you satisfied with the Shoes you have been buying for your boy or girl, or are they the kind that are continually ripping or running down at the heel and in less than a week are out of shape? If that is the kind you have been buying make a change at once. Too many mothers are not careful enough about clothing their children's feet. A good, solid, servicable shoe is cheaper than a doctor bill. We have a line of school shoes made by a manufacturer who makes nothing but boy's and girl's shoes and makes them to wear and at the same time look neat. He puts the genuine Rock Oak sole leather in soles and heels and the thread used is the very best silk. These shoes are made by PAT COGAN and every pair is guaranteed to give good wear.
