Sharpsburg, Md., Oct. 11.—The monuments erected by Ohio in honor of the troops from that state who fought and fell on the battlefields of Antietam were dedicated today with simple but imposing ceremonies. A large number of veterans from the Buckeye state were present. The exercises opened with prayer by Rev. William R. Parsons, chaplain of the Sixty-sixth O. V. I. Major David Cunningham, president of the state commission, formally presented the monuments to Governor Nash, who in turn transferred them on behalf of the state to the national government for they were accepted by Hon. Robert Shaw Oliver, acting secretary of war. The orations of the day were delivered by General Robt. P. Kennedy, Twenty-third O. V. I., and General Powell, Sixty-sixth O. V. I.

The monuments are ten in number, representing the various Ohio regiments engaged in the historic battle. One of the shafts is especially erected to the memory of William McKinley, then commissary sergeant of the Twenty-third O. V. I., and marks the spot from which he furnished hot coffee and hot rations to the Ohio troops on the firing line.

WOOD FAMINE THREATENED.

Walla Walla is Paying Highest Price in Years for Fuel.

From the present indications it will cost the people of Walla Walla no small amount of money to keep warm during the coming winter. The prices of fuel are increasing at a rapid rate and those who did not lay in a good supply of wood during the summer will now have to pay fancy prices for heating material.

The local dealers are asking \$6.50 per cord for sawed wood and \$8 for four-foot lengths. Large lots of the latter, however, are being delivered at prices ranging from \$5.50 to \$5.75 per cord.

Eugene Tausick had 2,500 cords engaged from Hood River parties, which was to be delivered here during the present month, but several days ago the entire lot was carried into the Columbia river by a flood. Mr. Tausick has just returned from Hood River, where he placed another order with a firm for an large a supply.

Narrow Chests

The old theory that consumption was inherited is utterly discredited by modern medical science. The germs of consumption must be received from without. These germs are every where. They are constantly being received and cast out by the healthy system.

It is the narrow chested whose inheritance is weakness who fall a prey to consumption because they are too weak of lung to resist and throw off disease.

Doctor Pierce's Golden Medical Discovery makes weak lungs strong. It cures obstinate deep-seated coughs, bleeding lungs, weakness, emaciation and other conditions which if neglected or unskillfully treated find a fatal termination in consumption.

"In the spring of 1890 I was taken with hemorrhage of the lungs, and became very weak and short of breath, lost flesh and had no appetite," writes Mr. E. L. Robinson, of Xerxes, Tenn. "I was persuaded to try Dr. Pierce's Golden Medical Discovery. The first few bottles seemed to do me but little good. Thought I would soon be a victim of that dreaded disease, consumption, of which several of my family died. But almost given up in despair when my friends persuaded me to give your 'Golden Medical Discovery' a fair trial. I commenced its use again and in a short time was feeling better. I continued its use until I had taken sixteen bottles. I weigh 150 pounds now, and when I commenced I only weighed 120 pounds. If any one doubts this statement I will be pleased to answer any inquiry."

Accept no substitute for "Golden Medical Discovery." Nothing "just as good." Dr. Pierce's Pleasant Pellets cleanse the clogged system from impurities.
