How to Sell a Crop and Still Have it.

A great many farmers carry their crops for a long time after harvest waiting for an advance in prices. Those who need money can get a large part of the value of their crop out in money and still hold the grain for an advance in the following

Suppose a farmer has 5,000 bushels of wheat which he can sell at 65 cents a bushel; let him sell it and receive \$3,350 in payment; then let him buy 5,000 bushels of May wheat and margin it 5 cents a bushel. This will require \$250.00. He will then have \$3,000 to use us he sees fit If the price of May wheat goes up five cents per bushel, he will make \$550 the same as if he had held his 5,000 bushels of wheat in his granary.
Yours for consideration,

RAILWAY MEN MEET

SESSION AT NEW ORLEANS.

The Scalper and Ways to Prevent Him From Plying His Trade is One of the Important Questions under Discussion-Baggage Smashing is Another-Will Discuss New Worms of Tickets.

New Orleans, i.a. Oct. 13.—Representatives of nearly every important railroad system of America, members of the Americann Association of General Passenger and Ticket Agents assembled in annual convention to-day at the St. Charles botel to consider a number of matters that conwith which the members are con-nected. The scalper and ways of preventing him from plying his vo-cation forms one of the chief topics to be considered. The rough hand-ling of baggage, or, in more common vernacular, "Baggage smashing," is to be discussed and it is possible that the association may devise some method for abolishing the smasher. Technical questions concerning the issuance of various forms of tickets will be considered as usual. Elado-rate entertainment has been provided by the local railroad officials for the visitors during their stay in the Crescent City.

A Literary Tea Toper.

There have been many literary tes topers, but William Hazlitt, the writer and critic, probably surpassed every other author in the singularity and strength of his potations. Rising usually at 1 or 2 o'clock in the day, he would sit over his breakfast of exceedingly strong black tea and a toast ed French roll-if he had no work or hand-for hours, silent, motionless and self absorbed as a Turk

It was the only stimulant or luxury be ever took, and he was very fastidious about its quality, using always the most expensive kind and consum ing, when he lived alone, about a pound a week. He always made the ten himself, half filling the teapot with tea, pouring boiling water on it and then almost immediately pouring it out and mingling with it a great quantity of sugar and cream.

Such a beverage must have been de licious. Indeed. Douglas Jerrold says. "there was fascination in it," but as a dally stimulant it must have been mos deleterious, and as the essavist died after several severe attacks from a dis case of the digestive organs it probably caused his death.—Beverages.

Phenomenal Honeymoon

A newly married couple were on their way from Antwerp to Paris when one of their fellow passengers cut his throat with a razor in the railway esrriage in which they were traveling.

Another shock awaited them in Paris A visitor in the hotel in which they were staying was killed in the lift in their presence.
On Sunday they called on a friend

living in Paris who had invited them to lunch at his house. When extending the invitation the friend observed. inughing, "You will not find any corpses with me." But when they arrived at the house their host greeted them with request to have the lunch put off, as his servant had died that morning in a bathtub from heart disease.

Tạis was too much for the bride, who fainted and then went into hysterics. The couple subsequently took first train back to Antwerp.-London

The importations of pig tin last year were 68,0.0,000 pounds, against 7,000,000 in 1890.
