TO SHIP 6,000 SHEEP.

Smith Livestock Company Sends 11,000 Head to Eastern Market. The J. E. Smith Livestock Co. is bringing in from the mountains 6,000 head of lambs which will be shipped in a few days to Kearney, Nebraska, where the company has previously shipped 5,000 head. The entire lot of 11,000 head will be full-fed there for the eastern markets. The company is selling an unusually large number of bucks this fall, so many, in fact, that the supply will probably be very much depleted by the middle of the winter.

The Merchants' Cafe.

Keeps constantly on hand imported Heberwurst, Frankfurters, Hamburg eels, crawfish, crabs, oysters, all kinds of cheese. Merchants' hot lunch daily from 11:30 a. m. to 2 p. m.

From Store to Table

MACARONI

Macaroni.—The preparation of macaroni, spaghetti, vermicelli, etc., is much like that of cereals. Each is cooked in boiling salted water until tender, twenty to forty minutes, according to the size and shape. If drained and put in cold water for a short time it will keep its shape without sticking together. Then it may be cut in rings for soup, or in short sections to line timbale molds, or for croquettes, or to serve in a sauce. One-fourth of a pound package of macaroni will measure about one quart when cooked.

Macaroni with Cheese

Macaroni with Cheese.—Mix together, or put in layers in a dish, one pint of boiled macaroni, one cup of thin white sauce highly seasoned with salt and pepper, and from one-fourth to one-half cup of chopped or grated cheese. Sprinkle with buttered crumbs and bake until hot and brown.

Macaroni with Ham

Macaroni with Ham.—To the macaroni and sauce add one cup of fine minced ham seasoned with mustard, and beat one raw egg into the white sauce.

Macaroni with Oysters

Macaroni with Oysters.—Add one cup of oysters, highly seasoned with salt and pepper, to one pint of macaroni. Moisten with one cup of cream or sauce. Cover with crumbs and bake.

Macaroni with Tomato

Macaroni with Tomato.—Fry one teaspoon of chopped onion in one teaspoon of butter until slightly colored; add one tablespoon of flour, and when well mixed add gradually one and one-half cups of strained tomato and half a teaspoon of salt. This may be mixed with the macaroni alone or with the addition of the cheese or oysters. The macaroni may be baked or reheated in a double boiler with the tomato sauce.

IT "COCKS" HAY

RIGBY-CLOVE IS TURNING OUT HAYING DEVICE.

It is Attached to the Mower and No Rake is Needed—It is the Joint Production of Harrah, Cox and Hays, Who Came to Pilot Rock From Iowa and Missouri—Have Also Improvement on Wood Saws.

The Rigby-Clove people have added wood saws and mowing machine attachments to their line of manufactures. Both machines are built along original lines—in fact, the latter is an entirely new device.

It is the joint production of three men named Harrah, Cox and Hays, who have lived for about a year and a half near Pilot Rock. These men were from Southern Iowa and Northern Missouri, and the patent spoken of was issued to them since they came West. All three returned to the East yesterday with their families—probably not to remain there permanently, although they have sold their Umatilla county land.

They left an order for 150 of the attachments, which the foundry will build this winter. Trials of the device resulted in its being pronounced an entire success by those who have witnessed its operations. It collects and deposits in piles, or "cocks," the hay cut by an ordinary mowing machine. It has the great advantage of not being cumbersome, heavy or complicated. It is understood that most of the 150 attachments being made are to fill orders from farmers who know its advantages.

The wood saws carry no patent, but Mr. Clove says they are materially different from any in use anywhere in the Northwest.

SHIPS 500 CATTLE.

J. C. Lonergan Will Send Out a Large Shipment to Seattle Tomorrow Night.

J. C. Lonergan will ship out 500 head of fat cattle, over the W. & C. R. tomorrow night, to the Frey, Bruhne Company, Seattle.

This shipment was purchased from Joe Combs, of John Day, and is expected to arrive this evening or in the morning from the range. Another shipment of 300 head will also be made by Mr. Lonergan between now and October 20. This latter bunch was purchased from Brennan & Smith, of Beaver Creek, and will be delivered soon. Mr. Lonergan finds the cattle situation in the interior about the same as it has been during the entire fall season. Feed is scarce and high priced, and the growers cannot possibly hold over any large amount of stock.

ENTERTAINED DELEGATES.

Ministers En Route to Detroit Convention Detained by Wreck.

Rev. Brooks and others of the Christian church people are enjoying a visit today from several valley friends who are en route to the national Christian church convention, at Detroit, and who have tarried here on account of the Huron wreck delaying their train. They are A. G. Eason, pastor of the Rodney Avenue church of Portland; J. F. Ghormley,

pastor of the First Christian church of that city, and Dean Sanderson, of the Eugene School of Divinity.

GAMBLING AT WALLA WALLA.

George Dehaven Says Town is Supposed to Be "Closed," But It Isn't.

George Dehaven, of Walla Walla, formerly a resident of Umatilla county, residing at Milton, was in the city last evening, en route to Yoakum, to visit his son, Edward Dehaven, who lives on the Umatilla river, near that station.

Mr. Dehaven was one of the oldest settlers in the Milton district and naturally feels deeply interested in this county yet, although he has adopted the Garden City as his present residence.

In speaking of the general condition in Walla Walla, Mr. Dehaven says the town is supposed to be "closed," but that a great deal of gambling is going on, from which the city receives no benefit, through license. From all appearances, there are about as many professional gamblers in that city as before the present policy went into effect, and while the open rooms are not in evidence, it is known to all who are in touch with the situation, that a great deal of private gambling is going on.

Many families have moved from the surrounding country to Walla Walla this fall to take advantage of the excellent school facilities, and the vacant dwellings are all occupied. Mr. Dehaven was accompanied by his wife and grandson, and will spend several days with his son before returning home.

NEW MEETING PLACE.

Hose Company No. 6 Will Build Addition to the Station in East Part of City.

Hose Company No. 6 met at the council chambers last night. About the only matter of interest that was discussed was the proposed addition to the company's hose house, out beyond the foundry, between the tracks of the W. & C. R. and the O. R. & N. The addition proposed would cost about \$40 and is wanted solely as a meeting place for the members of the company in their capacity as a fire company—not socially, or for any other purpose than the one mentioned. The origin of the demand is the frequency with which the meetings of the company at the council chamber is either interrupted with or interferes with meetings called for that place for other purposes.

HEN OF THE GOLDEN EGG.

Golden Nugget is Found in Crop of a Pendleton Chicken.

A chicken that was hatched last spring in Pendleton in J. B. Despain's poultry yard, and has never been off Mr. Despain's premises, went to the block yesterday. When dressed, a piece of pure gold—a virgin nugget—was taken from the crop. It is irregular in shape, but is worn very smooth. It is the size of an average grain of corn, and is worth about 40 or 50 cents.

DOES FINISHING TOUCHES.

The Last Work is Being Done on the New Hospital.

Architect Blanchet is in the city, giving the finishing carpentering touches to the new hospital. This work is a matter of finishing the cupboards, of which the institution holds so many, and of affixing the doors of the cupboards and toilets. Mr. Blanchet arrived about a week ago from Vancouver, B. C., where he recently let the contract for the St. Paul's hospital, which will cost \$40,000.

Hunting for Feed.

Brady Huffman returned from near Lewiston, Idaho, where he was in search of a good place to winter his cattle, and will return there shortly with his nearly 200 head, says the Pilot Rock Record. To winter them here, he says will cost him \$1,000, on account of the high price of feed, while he can winter them in Idaho at a cost not exceeding \$300. He will drive his stock through and expects to leave next week. He anticipates the loss of many head of cattle in this section the coming winter on account of the scarcity of feed.

No Wheat Sales in Palouse.

Wheat remains firm at 60 cents for club and 64 cents for bluestem at Colfax. Farmers will not sell at these prices. Grain buyers say that practically no sales have been made since the price began to decline, and the farmers seem determined to hold for higher prices. There is no doubt that a majority of the farmers are able to hold for some time, for money is plentiful in the Palouse country, and they have no pressing debts of past years.

Milarky Building Completed.

The new Milarky building at the corner of Garden and Court streets is very nearly completed—in fact, some of the rooms will be ready for occupancy tomorrow. A Rhode will occupy the west rooms on the first floor with his cigar factory. N. Joeger, the tailor, will move into the next room to the east of Mr. Rhode. The large room on the eastern limit of the first floor is not yet leased. The hall on the second floor has been leased to the Federation of Labor, and will be occupied by that order in a short time—just when is not yet determined.

Horses Stolen.

Stolen from the Taylor Ranch on Butter Creek, Friday night Oct. 2, two bay horses, one gray horse and one gray mare, all branded L E connected (reverse L) on left shoulder. Will pay \$10 each for recovery of horses and \$50 for conviction of thief.

LOWERS INSURANCE

LA GRANDE WILL IMPROVE HER FIRE COMPANY.

By Adding an Alarm System Will Save Over \$2,000 Per Year in the Cost of Premiums—Council Will Accept Recommendations of Fire Chief.

J. H. Peare, chief of the La Grande fire department, was in the city this forenoon on the east-bound train, which was delayed here by the wreck of the freight train at Huron.

Mr. Peare is returning from a conference with the board of Fire Insurance Underwriters, of the Pacific Coast, at Portland, in regard to the installation of a system of fire alarms and the addition of a new combination chemical engine and hose cart for the La Grande fire department.

The city council of La Grande has had the matter under advisement for some time, and will probably order the new apparatus next Wednesday night.

The proposition as now before La Grande is as follows and is worthy of consideration by the councils and fire departments of every city in Oregon.

The fire underwriters have agreed to reduce the premiums on fire insurance 10 per cent if the city of La Grande will install 10 fire alarm boxes in the city and add the combination chemical engine and hose cart, a team of horses and one paid fireman to be on duty all the time, to the fire department of that city.

The cost of the chemical engine and hose cart will be \$2,200, and the cost of a 10-box system will be about \$1,900, the horses, harness and extra apparatus about \$500, making the total cost of the new apparatus, complete, about \$4,600.

The present amount of fire premiums paid in La Grande is \$26,000 per year. The 10 per cent reduction on these premiums will amount to \$2,600 per year, at the present amount of insurance. The cost of maintaining the new additions to the fire department will be about \$600 per year, thus saving a total of \$2,000 per year to the business men and taxpayers of the city, beside the better protection afforded by the improved system.

The company handling the fire alarm apparatus and the city are figuring on a five-year basis, and in that time, the city will have saved \$10,000 in premiums at the present amount of insurance carried. The cost of the new apparatus will be \$4,500, and the city will have saved in cold cash the sum of \$5,500 in five years from the deal, aside from the better service afforded and the increased safety thrown around the homes and business portions of the city. The cost of repairs after the system is once installed is comparatively nothing, and the first cost is practically all the cost attached to the system. The system of boxes will be made to cover the entire town so every remote district will be equally protected.

DR. VINCENT DECLINES.

Will Not Become Candidate for Mayor of the City of Pendleton.

Dr. F. W. Vincent, who has been prominently mentioned by friends as a prospective candidate for mayor of the city of Pendleton this morning definitely declined to accept the nomination or to be considered as a possibility for the position.

The reasons given for this action are failing health, business pressure and an unwillingness to serve a municipality which takes so little interest in its own affairs as to register but one-fourth of the total vote of the city on the eve of a municipal election.

The many friends of Dr. Vincent will regret to hear of his decision, as he served as mayor of Pendleton for a period of three years and made a record of which himself and the city may well be proud.

It is generally understood that Mayor Halley will not accept the nomination again, so this leaves W. F. Matlock alone in the public eye as a man ready for the harness.

FOR THREAT TO KILL.

George Johnson, of Meacham, is Held to Circuit Court on Serious Charge.

George Johnson, of Meacham, was brought in today by Sheriff Taylor, charged with threatening to shoot George Curran as the result of a quarrel over some sheep. It is alleged that Johnson shot Curran's dog and threatened to do the same to Curran. The row occurred on the 10th. Judge Fitz Gerald held Johnson for trial in the sum of \$250. Prosecuting Attorney Halley will file a motion for his trial directly in the circuit court, thus dispensing with a preliminary hearing in the justice's court.

THE WHOLESOME Crescent

Baking Powder

The remarkable increase in consumption proves its purity and wholesomeness. ONE POUND 25 CENTS With a Coupon

Will Have New Cook.

Mrs. S. C. Cochran, of Cottage Grove, an aunt of Mrs. J. A. Greene, will arrive in a short time and take charge as head cook, of Mrs. Greene's boarding house, at 213 West Webb street. Mrs. Greene will retain her proprietorship of the Strahon lodging house.

Shooting Tournament.

It is probable that there will be several competitors from Pendleton at the coming shooting tournaments at Seattle and Lewiston. The former meets October 28, 29 and 30 and the latter November 4, 5 and 6. Only innate bashfulness stands between several of our local shootists and professional careers.

Ladow's New Home.

Irving Ladow is having the residence he lately purchased and had moved to 512 Thompson street, overhauled and remodeled. The lot surrounding it has been filled and graded and the property made quite desirable for residence purposes.

Druggists Get the Habit.

The druggists of this city have signed an agreement under which all will close their places of business at 9 p. m. week days, 10 p. m. Saturdays and 8 p. m. Sundays.

To Attend Grand Lodge.

A. L. Knight has gone to Portland. Though the trip is primarily on business, he will attend the grand lodge of the Knights of Pythias.

Visit Professor Conklin.

Mrs. Judd Geer and children, of Cove, are the guests of Professor E. B. Conklin and family.

Case Postponed.

The case of John Doe, charged with the theft of a bride from the Carney livery barn, has been indefinitely postponed.

Anton Stacca, a miner, was instantly killed by the premature explosion of a blast in the West Colusa mine, at Butte, Monday.
