How to Sell a Crop and Still Have it.

A great many farmers carry their crops
for a long time after harvest waiting for
an advance in prices. Those who need
money can get a large part of the value
of their crop out in money and still hold
the grain for an advance in the following
manner:

Suppose a farmer has 5,000 bushels of
wheat which he can sell at 65 cents a
bushel; let him sell it and receive \$325.00
to pay; then let him buy 5,000 bushels
of May wheat and margin it 5 cents a
bushel. This will require \$325.00. He
will then have \$1,000.00 to use as he sees fit
if the price of May wheat goes up five
cents per bushel, he will make \$250.00
more on it if he had held his 5,000 bushels of
wheat in his granary.

Yours for consideration.

PENDLETON RETAIL MARKETS

Quotations on Staples Furnished by Local Merchants and
Revised Daily.

The market is quiet and there have
been no changes in any of the de-
partments since the last report, that
is worth the noting.

The stock situation is the same.
There are plenty of cattle in the
country, but the prices are so low
that the growers are not anxious to
sell, but are waiting for a rise and
holding all the stock that the scarce
feed will permit.

In the grocery line there is not
much of interest. In the East some
of the staples are quoted as being
bound to rise in price in a short
time, but the effect of the Eastern
pressure has not been felt thus far.
In fact, there has been nothing of in-
terest for several days.
