# GIRDLE THE GLOBE

FINAL AIM OF WIRELESS  
TELEGRAPH COMPANIES.

From Seattle to Dutch Harbor Thence  
to Japan—From San Francisco to  
Honolulu, Thence to Australia and  
the Orient—Will Encircle the  
Earth.

Seattle, Nov. 7.—As announced  
last week, the Pacific Wireless Tele-  
graph company, which has recently  
installed two stations, connecting  
Port Townsend and Fort Casey, is  
planning a system of wireless com-  
munication on a more stupendous  
scale than any yet projected by any  
company of similar character. The  
consummation of its plans will mean  
that wireless messages will in a few  
years go sizzling around the world.  
Details of some of the plans of the  
company were given to the Star to-  
day by General Manager A. L. New,  
who is now in the city looking over  
available places for a station here.  
He said today:

"Our two stations at Port Town-  
send and Fort Casey are working  
perfectly and messages are being  
transmitted without error or delay.  
The station on the United States  
revenue cutter Grant is almost com-  
pleted and will be tested some time  
next week.

"Masts for the Friday Harbor sta-  
tion on San Juan Island are already  
fitted and will be erected in a few  
days, and the station will be in ac-  
tive operation within ten days. I  
have been up to Ratsoosh Island and  
looked over sites there. The equip-  
ment for the Cape Flattery station on  
this island is now on its way, and  
work will be begun as soon as it  
arrives. We are also planning other  
stations at Whatcom, Vancouver,  
Port Angeles, Victoria, Everett and  
Seattle. In fact, I have been offered  
an excellent site for a station here,  
but do not want to make up my mind  
where to put the station, until I can  
get the most suitable place in this  
city.

From Cape Flattery we will go di-  
rect to Dutch Harbor, an air line  
distance of 1,683 miles. I am confi-  
dent that we can send messages that  
distance without trouble. Should  
there be any difficulty in covering  
this distance we will put in an in-  
termediate station. From Dutch  
Harbor we will connect with St.  
Michael and Nome; Juneau will also  
be connected later.

"We have already secured valu-  
able concessions in South America,  
which will keep our company busy  
twenty years extending the system.  
We will begin operation in Brazil,  
connecting Para, the capital of the  
state of Para, at the mouth of the  
Amazon river, with Manaus, the  
capital of Amazonas, a distance of  
800 miles. These points have hith-  
erto been connected by a cable and  
supported by government subsidy,  
but the heavy currents of the river  
have repeatedly destroyed the cable  
and now the government is ready to  
give us a chance.

"The United States government  
has assured us that if we can estab-  
lish a line of communication from  
Dutch Harbor with Attu, the farther-  
most island of the Aleutian group,  
Uncle Sam will establish a govern-  
ment coaling station at that point.  
This will serve a good purpose for  
us, for from this island to the near-  
est one of the Japanese group is but  
a little over 600 miles and then we  
will go into the Orient and follow  
down the whole line of the Asiatic  
coast.

"This may sound large, but it is  
not our biggest plan, by any means.  
If we are as successful as I am  
confident we will be with the long  
jump to Dutch Harbor, we will con-  
nect Seattle with Honolulu, Honolu-  
lu with Australia, Australia with the  
Philippine Islands and our ultimate  
hope is to girdle the globe.

"When you figure that it cost only  
one-tenth as much to install a sys-  
tem like ours as it does any other  
system now in existence, you can  
see how much more feasible such  
gigantic undertakings are for us than  
any one else. The Pacific Wireless  
Telegraph company has unlimited  
financial backing, so that lack of  
funds will never stand in the way of  
its gigantic prospects."

General Manager New returns to  
Port Townsend tonight but will re-  
turn to Seattle in a few days and  
complete plans for installing the  
system here.

## WALLOWA WAGON TRAIN.

Lewiston Receives Large Shipment  
From the Flora Country.

Lewiston, Nov. 5.—A train of 20  
wagons arrived in Lewiston yester-  
day from Flora, Oregon. The teams  
were loaded with hogs which will be  
shipped to Seattle this morning. The  
shipment of hogs was made by Ba-  
ker & Drake, the well known mer-  
chants of Flora, Oregon.

Yesterday the teams which brought  
the hogs to the city were receiving  
cargoes from the Mark Means com-  
pany and the Lewiston Mercantile  
company and will leave today on the  
return trip to the Oregon town. Mr.  
Baker states that Lewiston affords  
the best market for all towns in the  
Wallowa country and that the mer-  
chants of that country naturally pre-  
fer to trade here.

The distance from this city to Flora  
is 60 miles and the wagon road is  
mountainous and rough. An agitation  
for improved roads leading from this  
city into the Wallowa country has  
been started.

## Mining Men Organize.

An organization of mining men  
from the Sumpster and Granite dis-  
tricts was formed in Baker City last  
night.

Our famous crop of track sharps are up at break of day, "clocking" the horses in their morning tryouts, and while  
you sleep they spot the winners that bring you steady income. Our method puts you on a level with the most successful  
plungers on the American turf. We operate for you for 25 per cent of weekly earnings. We win only when you win. Re-  
sults obtained really "beyond dreams of avarice."

Again we scored heavily for all of our clients last month. Again we landed the money and handled it in chunks. Three  
years of organization, with the best facilities that money and brains can procure to make our service of picking and back-  
ing winners at the horse races the most accurate and profitable in the land, has had its natural sequence, and each week our  
showing demonstrates a good profit for every client.

How \$50.00 netted \$201.75 in less than a month.

Here is a complete statement, showing the result of a \$10 play on each horse given in our "Discretionary Series" dur-  
ing October. (Not a single cent to begin with; \$50 when they are ready to win.)

### We Pick the Winners

The above showing is no improvement over that of September, and is not remarkable, since we have excelled it time  
and again during the past three years of our uninterrupted operations. Good as it is, however, we are confident we will  
make it "hook sick" by comparison with the showing we are going to make at the meeting of 100 days which begins at  
New Orleans this month.

We do business only on the great race tracks of the U. S. We number among our clients some of the best known  
sportsmen, financiers and merchants in the country. Investment on the turf is now deemed as legitimate as any other  
high-class form of speculation. The present high standard to which racing has been brought, and the absolutely good faith  
in which turf affairs are conducted under the auspices of the Jockey Club in the East, and the Western Jockey Club in the  
West, has inspired millionaire capitalists and business men all over the country with as much confidence in racing as in the  
stock, grain and cotton markets, and this is one reason why transactions in the betting rings now rival in magnitude those  
of the stock, cotton and grain exchanges.

Another reason for the rapid growth of turf speculation in popular favor is the rapidity with which all transactions  
are wound up. The speculator makes his investment at the racetrack in the afternoon through us and receives a notifica-  
tion by mail, in a letter guaranteed to bear a postmark earlier than the race is run, not just what horses are to be backed  
for his account. By the next mail he is informed of the result of that day's operations, and he learns quickly just where  
he stands. At the end of each week he receives a complete statement of his account, with a money order for his profits,  
less 25 per cent, which we deduct as our fee.

This gives a wholesome tone to legitimate turf speculation which cannot be found in the more or less involved trans-  
actions of the big exchanges, and this is why turfers live more comfortably and live longer than do men whose involved  
transactions are on their minds, day and night, for weeks and sometimes months at a stretch.

### Our Clients Won A Million Dollars

As it is well known that our clients have collectively won as much as a million dollars at a single race meeting, it  
is sometimes asked: "Why do not Maxim & Gay simply sit down and back their own selections instead of running a  
considerable clerical force and spending large sums in advertising in newspapers throughout the country?"  
The answer is simple enough if one stops to consider the situation. Maxim & Gay, by dint of ability, energy, organ-  
ization, capital and advertising, have secured an enormous clientele, which means the command of immense capital. If we  
can pick winners for this immense number of investors, our profits are larger than if we played our own money only, for  
on a basis of 25 per cent of winnings, which we charge for information, and commission, one man out of every four of our  
customers is practically betting for us. The proof that this plan works for the benefit of the public as well is that they  
win three weeks out of four and our books show that no customer who stuck to us for two months ever failed to get well  
ahead of the game, while not a few of those who now own winning stables of racehorses and who are cutting an important  
figure on the turf, began the game as mere novices, playing our selections through us.

The principle which we operate in such a way, we must of necessity, in the best we can for you. Our income, as  
pointed out, is derived solely from a percentage of the winnings of our clients, and if we cannot make you win, our entire  
income is cut off. That we have been successful in making our clients win is amply proven by the fact that we have pro-  
ceeded for upward of three years, while imitators, pursuing more economical and less businesslike methods, have gone  
under by the score. Noting the success that was being achieved by Maxim & Gay, scores of "get-rich-quick" operators tried to  
break into the field, and endeavored to outstep the older and more responsible firm, but it did not take the press and public  
long to discriminate between the legitimate and the illegitimate, and as a result we have continued to flourish uninter-  
ruptedly, while in the ranks of our rivals there have been scores of enterprises initiated, only to end in failure.

### A Few of Hundreds of Recent Endorsement of the Press

CINCINNATI COMMERCIAL TRIBUNE, March 1, 1903.  
Maxim & Gay, who have been so successful in selecting  
winners at the New Orleans races, are in a class by them-  
selves, and have no relation in their system of operation  
to the "get-rich-quick" schemes which have recently gone  
to pieces disastrously to those who patronized them.  
Maxim & Gay do not guarantee their clients' profits nor  
against losses, but merely play the money of their sub-  
scribers and deduct a fixed percentage from winnings for  
placing the commission. This point is made clear in  
our lists of announcements. What they guarantee to do is  
to confidentially handle all money forwarded them and  
place it on the races just as if it were their own. They  
have in their employ as "clockers" the most expert and  
judges of track work in the country, and there is not  
a horse at the New Orleans meeting that they have not  
a record of. The information collected in this way is  
used to the benefit of their subscribers, and its reliable  
character is attested by the numerous winners they have  
picked in the past two weeks.  
Maxim & Gay are the pioneers in this line of invest-  
ment or speculation; they have been established three  
years; they conduct their business on straightforward  
business lines; their methods have been thoroughly in-  
vestigated and are entirely different from those pursued  
by the "get-rich-quick" schemes, so-called, which were  
but recently closed by the authorities. The transactions  
of Maxim & Gay are legal in every sense, and they do ex-  
actly what they advertise to do, that is, play the money  
of their subscribers on the horses they judge will win,  
and they usually win. Prompt and proper accounting is  
made of the result, but they guarantee no fixed profits,  
though those who have continuously patronized them  
have not been losers.  
ST. PAUL DISPATCH, February 28, 1903.  
An investigation of the methods of the Maxim & Gay  
Co. shows them to be conducting their business on  
straightforward business lines. They have been estab-

lished nearly three years. They do not guarantee clients  
profits or against loss, but merely place subscribers' money  
on judgment of experts, charging a fee for information,  
and deduct a fixed percentage from winnings for placing  
the commissions. They are the pioneers in this line of in-  
vestment or speculation.  
N. Y. MORNING TELEGRAPH, February 23, 1902.  
Since the incorporation of the Maxim & Gay Co., the  
casual success can possess himself of as much if not  
more knowledge of the comparative merits of the horses,  
and their chances of success, as the "regular," who burts  
the midnight oil studying from charts. He can secure  
through this company, which is incorporated under the  
laws of New York state, the expert knowledge and expert  
judgment of an experienced combination of horsemen,  
whose duty it is to find out for him such things concern-  
ing the horses as he could not possibly find out for him-  
self, unless he devoted his entire time and attention to  
the business. Even then, to do as well, he would have to  
possess a peculiar talent and be specially fitted by ex-  
perience and natural ability.

CINCINNATI TIMES-STAR, March 2, 1903.  
The Maxim & Gay Company, well known purveyors of  
turf information, should not be confounded with "get-rich-  
quick" turf investment or concerns of similar character.  
They have been established nearly three years. They place  
subscribers' money on judgment of experts, and deduct a  
fixed percentage from winnings for placing the commis-  
sions. They are the Napoleon in this line of investment  
or speculation.  
MEMPHIS EVENING SCIMITAR, March 2, 1903.  
The advertisements that appear from time to time in  
the columns of various newspapers with reference to the  
turf plan of Maxim & Gay Company tell a story entirely  
different from the exploits of the defunct "get-rich-quick"  
concerns.  
The Maxim & Gay Company transact business thor-  
oughly and solely on business principles.

### Join Our Winning Army

The greatest race meeting in the history of the South begins at New Orleans within a fortnight. In magnitude it  
will eclipse all other turf gatherings of the past. The Crescent City Jockey Club knows this to be a banner year, and has  
prepared for it. So have we. If there are more horses at the New Orleans racetrack than ever gathered there before, we  
have more expert "clockers" and handicappers than we ever employed at any other meeting. They cannot make the game  
too big for us to handle. We move with the times.  
If you want to get ahead on discretionary in-  
vestment, at New Orleans, in which we play daily those and only those  
horses we think all betting propositions, with the privilege of not playing any horses at all on days when we consider con-  
ditions unpropitious, fill out the following blank and forward your remittance to us at New Orleans as soon as you can. Play  
will be begun on the first day of the meeting, if your money reaches us in time; otherwise, we will begin play the first day  
it reaches us after the meeting has begun. Money should be sent by bank draft, express money order, or currency in regis-  
tered letter. Uncertified checks are not accepted.
