SUSANVILLE DISTRICT STOCKMEN BACKING IT.

Will Open Retail Markets in Pendleton and Other Towns as a Measure to Get More for Their Stock-Said to Have \$60,000 Capital.

Several days ago O N. Prather, of Killbride, was in the city and at that time, though he would not disclose the nature of his business, it was sur-mised that he was hunting a location for a butcher shop. Since he left the whole purpose of his visit has come

The stockmen of the Susanville country, and all of the stock raising districts in that part of the state, have come to the conclusion that they are not getting a fair deal at the hands of the cattle buyers for export as well as at the hands of the retail of the local markets. ny of these men, representing at least \$60,000 in capital, have therefore banded themselves together for the purpose of realizing more on their stock. It is their intention to ship their stock to the coast markets di-rect, and to sell them direct to the meat companies, thus saving the buy-ers' profits, besides also holding the possibility of being able to force the price up to a reasonable figure.

The company will have its own shippers permanently employed, and the scheme will be practically a cattle pool, embracing all of the principal herds in the interior,

In order to get at the local dealers who, so the men claim, are not giving all that they could afford to for beef cattle, it is the intention of the stockmen to establish retail markets in Pendleton and Baker City, and it was to gain a desirable location for such a place that Mr. Prather was in the city. If such a market is estab-lished in the cities mentioned, it will have a tendency to put meat before the retail customer at a lower figure will be no middleman's pronts to over come.
