MEN ARE POWERLESS

To Fight Against Disease Unless They Strike at the Underlying Cause.

To treat dandruff and falling hair, with irritants or oils on which a parasitic germ will prosper, is like scooping water from the ocean to prevent the tide from coming in.

You cannot accomplish a satisfactory cure without a right understanding of the fundamental causes of the trouble.

You must kill the Dandruff Germ. Newbro's Herpicide does this because it is specially made to do that very thing.

When the germ is removed, the hair has no choice but to resume healthy growth and beauty.

"Destroy the cause, you remove the effect."
Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. F. W. Schmidt & Co., special agents.

Magnificent Scenery With This Dramatic Production.

The dramatic field is always open for novelties—in fact, it is essential that new ideas be constantly supplied to keep up the interest of a stage whose superficial devices pall with repetition. One of the noteworthy new things that stand out prominently among the season's successes is E. J. Carpenter's great play, "A Little Outcast," which comes to the Frazer next Tuesday, Nov. 17. It has

been making a sort of royal progress through the country, and there has been no limit to the praise both the play and the players have won, and the money receipts have been in consonance with the praise extended by the critics.

The scenery is unique in its correctness of detail, magnificent furniture, draperies and general plan of the boudoir in the second act is a replica of the famous "Colonial Room" in Mrs. "Jack" Gardner's palace in Boston, which was a nine days' wonder to the decorators and aroused the envy of every woman of the Four Hundred.

ABOUT THAT COAT

You wear a coat. Why? To keep the cold out? No; to keep the warmth in. What of the body that has no warmth—the thin, poor body that lacks the healthy flesh and fat it needs?

For such we say that Scott's Emulsion provides the right kind of a coat. Why? Because Scott's Emulsion builds firm, solid flesh and supplies just enough fat to fill nature's requirements—no more. That means bodily warmth.

We'll send you a sample free upon request. SCOTT & BOWNE, 405 Pearl Street, New York.
