Quotations on Staples Furnished by Local Merchants and Revised Daily.

Wheat is quoted at the mill at 64 to 65 cents, with little doing. The reported heavy buy, in fact, has extended over a period of some weeks and the amount purchased at any one time has not been worthy of notice as a hig movement Altogether, during the past month or six weks the mills have purchased something like 150,000 bushels. Other market features are dull. The holiday trade is expected to be heavy this year, owing to the good prices for crops, and the heavy demand for supplies from the interior, on account of the excellent conditions of the roads. So far this fall, the movement of flour, feed and other supplies sent to the inte-rior has been very active. The importance of this city as a wholesale trading point, for the merchants in the Grant and Southern Umatilla county towns, is becoming more and more recognized and vastly more merchandise has been into that country this fall than ever before.

Diabetes News.

To the People of Pendleton. As San Francisco druggists person-ally acquainted with the facts we are asked to cerufy to you the curability of chronic Bright's Disease and Dia-betes, and however unreasonable it may seem to you, yet such is the fact. Up to a year ago we never heard of a genuine case of chronic Bright's Disease or Diabetes recovering. Now it is a common occurrence in this city. A great disvovery has undoubtedly been made. Many prominent people here have recovered and every one of us whose names are appended hereto have either nad recoveries among our customers or have genu-ine chronic cases now recovering. And the percentage of efficiency seems to be very high, for there are very few failures. Yours, etc.
