

## GORGEOUS CHURCH

NEW ONE ERECTED BY THE CHRISTIAN SCIENTISTS.

New York Structure Cost Over a Million Dollars—Seats Twenty-five Hundred People—First Congregation in That City Was Organized Fifteen Years Ago.

New York, Nov. 14.—Eminent members of the Christian Science faith are here from various parts of the country to take part in the dedication tomorrow of the new First Church of Christ, Scientist, at Ninety-sixth street and Central Park West.

This remarkable and gorgeous temple of worship has cost more than one million dollars. The entire fund expended upon the building was raised by the personal efforts of the first reader, Mrs. Augusta E. Stetson, who fifteen years ago came from Boston to New York and began her missionary labors in her boarding house. She soon had gathered about her quite a following, and with this nucleus began to hold meetings in a small hall in Fifth avenue. Then the little congregation took the old church in West Forty-eighth street.

**Projected Three Years Ago.**  
Three years ago Mrs. Stetson conceived the idea of building a new church, and the money began to roll in, with what effect may be seen in the new church of gray stone, every dollar upon which has been paid.

The entire chapel, including panels, pulpit and pews, is of Caucasian walnut, hand-carved and inlaid. The church proper seats 1,400 persons and the raised gallery, 1,100. In the spacious reading room and waiting room adjoining the church are hung large and costly pictures of Mrs. Mary Baker Eddy and of the mother church in Boston. The decorations of the interior generally consists of the most precious woods, tinted marbles, stained glass and stucco, and have been put in regardless of expense. One of the features of the edifice is a mammoth organ, which will be heard for the first time tomorrow.

Medical authorities claim that the death rate for children is lower in Japan than in Europe or America, owing to the entire absence of collars and the universal custom of bathing.

**Not a Sick Day Since.**  
"I was taken severely sick with kidney trouble, I tried all sorts of medicines, none of which relieved me. One day I saw an ad. of your Electric Bitters and determined to try that. After taking a few doses I felt relieved, and soon thereafter was entirely cured, and have not seen a sick day since. Neighbors of mine have been cured of Rheumatism, Neuralgia, Liver and Kidney troubles and General Debility." This is what B. F. Bass, of Freemont, N. C., writes. # Schlitz

## THE FAMILY BEER

Visitor: "Does your whole family drink beer?"

Host: "Just Schlitz beer—no other. Our physician says that Schlitz beer is good for them."

Visitor: "Why Schlitz beer and no other?"

Host: "Because Schlitz beer is pure. There are no germs in it. Schlitz beer is brewed in absolute cleanliness, and cooled in filtered air. The makers go down 1400 feet for the water they use in it. They filter the beer, then sterilize every bottle—by Pasteur's process—after it is sealed."

Visitor: "But beer makes me bilious."

Host: "Schlitz beer will not, that's another advantage. Biliousness is caused by 'green' beer—beer hurried into the market before it is sufficiently aged. Schlitz beer is aged for months in refrigerating rooms before it is bottled."

Visitor: "And what do you pay for it?"

Host: "Just what you pay for other beer. I secure the most careful brewing in the world for what you pay without it. I get a beer that costs twice as much as common beer in the brewing, by simply demanding Schlitz."

Visitor: "I'll do that next time."

Host: "Yes, and ever afterward. People are learning these facts, and Schlitz sales now exceed a million barrels annually. Ask for the brewery bottling."
