### PHOTOGRAPHS OF CRIMINALS.

#### County Court Bought a Photograph Outfit for Sheriff's Office.

A couple of weeks ago the county court bought the sheriff's office a new camera for convenience in taking the pictures of some of the men who come into the county jail. Many criminals have escaped the law in the past owing to the fact that there has been no way of identifying them once they are out of the jail.

In future, when a man comes into the jail who has been convicted of a crime, or who has a bad reputation, and whom the officers of the law wish to remember, the sheriff will have a picture taken of him, and the plate will be preserved for future use. Men who are convicted and sent to the penitentiary to serve a term for any offense will be photographed and their pictures kept, as they generally come in good play in the future.

Saturday afternoon Major Lee Morehouse took pictures of several of those who are now in the jail, and this practice will now be followed in the future.

## NO MORE GOVERNMENT SURVEYS THIS WINTER.

J. T. Whistler Will Be in Pendleton But a Short Time—Mr. Lewis in Charge.

J. T. Whistler returned to the city last night from Harney county, where he has been for a couple of weeks closing up the year's work in the government survey. It now has become so cold in the mountains and the days so short, that the work could not be followed further with any profit, and for this reason it was decided that it would be best to close it for the winter.

The work has not been finished, and no estimates have been submitted, nor will they be for some time yet; but about the first of the month Mr. Whistler will leave for Washington, where he will be engaged a winter in preparing his report, or as much of it as is ready for the government board.

Mr. Lewis, who has charge of the water-gauging department, will remain in the city all winter, and will carry on that work during the winter months. He will have charge of the office and will make his headquarters in this city while Mr. Whistler is away.

In speaking of the convention, Mr. Whistler said that from the distance from which he stood, it seemed to have been a great success. All of the work had been earnest, and as the result of study and deliberation, had been done for the good of the cause. The conduct of the convention had been clean, and no demands had been made and no action taken that should not have been. No one section had attempted to work to the disadvantage of another, and the convention was as a whole a success. The papers had all been of great interest, and had shown a thorough knowledge of the subjects and were very instructive.

Mr. Whistler will remain here for a time, during which he will finish his year's work in this section, after which he will leave for Washington City for the remainder of the winter.

### FIRE AT SAXE STATION.

Cook Wagon, Granary and Personal Effects Burned Friday.

Friday afternoon a fire at the ranch of Marion Jack, about one and a half miles north of Saxe Station, burned the cook wagon of the men at work on the ranch, and with it a small two-room house containing about 300 sacks of barley, the loss in all amounting to a little over \$700.

There were several men working on the place and they ate dinner as usual in the cook wagon, and having finished, left a small fire in the stove to boil some meat when they went into the fields to work. Shortly after fire was discovered, and before they could reach the place both of the buildings were in flames and they could not get near them. The men lost all of their possessions which were in the house at the time, with the exception of their working clothes. It is thought that there was no insurance on the barley or the houses.

## Women as Well as Men Are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a Home of Swamp-Root pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.
