We now stand aghast at the thought that civilized men should hold their fellow beings in slavery. The men of future generations will view with equal horror our belief that it is proper to build up large fortunes at the expense of character. They will wonder how it was that at the beginning of the 20th century enlightened men in France, Germany and Russia could be prejudiced against other men because they were born of Jewish parents. They will wonder why it was that the men of today believed that it was right and proper to steal money from the government and thought it wrong only to be caught at it.—Rabbi Emil G. Hirsch.

The White House is not big enough to hold Theodore Roosevelt and Carrie Nation at the same time.

"Profit" Dowle has received another revelation commanding his followers to sell their property and raise him \$2,600,000, presto. Dowle could be a drawing card for the Quaker doctors. His grand stand performances have never been equalled, from the financial standpoint.

Idaho is now entitled to a front seat in the hall of fame. She has developed a land office scandal of the first class. But her laurels are dimmed by the fact that an Oregon woman originated the idea of the dummy entryman, which Idaho has shamefully imitated in the Couer d'Alene office. Marie Ware should copyright her ideals.

It seems quite probable that the democrats and republicans in the United States senate will be sharply divided on the seating of Senator Smoot. The democrats generally object to seating him, and the republicans favor it, but the petitions coming in against seating Smoot are not confined to any section of the country, nor from any certain creed or political party, but are evidences of the universal opposition to the barbarous institution of polygamy.

Twelve cranks have visited the White House within a month, the president still lives and the gentlemen with the unbalanced superstructures are yet among us moving their mysterious way. This sort of thing seems to agree with Mr. Roosevelt, so the superstitious may silence their tears and await the coming of the 13th fellow with the calm assurance that he will only make the White House a way station on his road to trouble.

The suggestion of Douglas Belts, president of the Oregon Wool Growers' Association, that all branches of the livestock industry in Oregon be represented at the coming national meeting in Portland should be headed by the cattle, horse, goat and hog raisers. Every branch of this great industry in the state should be heard in the councils of that meeting. It is not a woolgrowers' convention, nor a cattlemen's convention, exclusively. It is a livestock convention, and as such should be heartily supported and cheerfully attended by every man interested in that pursuit in the state.

The speedy acquittal of Malcolm A. Moody, in Portland, Wednesday evening, by a jury of his peers, bears out the statement made by the East Oregonian, when Mr. Moody was indicted. At that time the statement was made that it would require something more than bare accusation to convince the people of Eastern Oregon that either Malcolm A. Moody, or Asa B. Thompson were guilty of the crimes charged against them, and the same sentiment is repeated today. The trial of Asa B. Thompson, it is fully believed by all conversant with the facts, will result in same speedy vindication, as has characterized Mr. Moody's trial. These indictments are just sidelights on the political situation in Oregon, and in the drama that is being enacted, some one must suffer the thrusts of the political carving knife.

The teachers of Multnomah county schools who are refusing to pay the five dollar fine imposed by the state on teachers failing, without a reasonable excuse, to attend county institutes, should have their certificates revoked and be put at work on milk ranches or some other place where institutes are not necessary. The state of Oregon has provided for county institutes, by which teachers may keep in touch with their profession, and in order to make these institutes successful and give teachers an interest, the state provides the teachers shall draw full pay, while attending the meetings held during school terms. In order to add to the efficiency of the institutes, the state provides a penalty of five dollars for non-attendance, this fine to revert back to the school fund. It is a wise law, and a needed law, for this same spirit which is exhibited in resisting the fine, would be exhibited in discouraging attendance, without the fine, and without the law compelling some of these Multnomah county teachers to study and keep pace with their profession, they would drop out of the calling through sheer incapacity within a few years, judging from their stand in the matter.

Pendleton flour now goes to the Orient by the carload, and the visit of H. E. Doseh to this city yesterday, to urge an increase of the output here, gives an added impetus to the industry. Pendleton boasts the first prize from Japan on woolen manufactures, and now enjoys the novelty of listening to an agent for Oriental traders beg for more products from this city and county. There should be a ready response to this call, on the part of Pendleton millers. It is interesting to know that the only word, in the English language which a returned traveler from Manchuria, could find in a remote station on the Siberian railway, was the label on a sack of Pendleton flour. It even preceded the Pendleton newspaper into that corner of the world.

As a student of history, and as a lover of the pioneer, President Roosevelt in his famous 1898 message to congress, that will be an inspiration to congress to take favorable action on that bill. No other American president, has done as much literary work of various kinds, as Roosevelt, and he is particularly enthusiastic on historical and frontier topics. His wide familiarity with the history of his country and with the high achievement of those hardy explorers in giving this Northwest territory to the United States, should prompt him to make a personal effort to commemorate their work in a fitting manner.

Women as Well as Men Are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased. Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a Home of Swamp-Root pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

BABY'S VOICE

Is the joy of the household, for without it no happiness can be complete. How sweet the picture of mother and babe, angels smile at and commend the thoughts and aspirations of the mother bending over the cradle. The ordeal through which the expectant mother must pass, however, is so full of danger and suffering that she looks forward to the hour when she shall feel the exquisite thrill of motherhood with indescribable dread and fear. Every woman should know that the danger, pain and horror of child-birth can be entirely avoided by the use of Mother's Friend, a scientific liniment for external use only, which toughens and renders pliable all the parts, and assists nature in its sublime work. By its aid thousands of women have passed this great crisis in perfect safety and without pain. Sold at \$1.00 per bottle by druggists. Our book of priceless value to all women sent free.
