Making an Omelet.

A frequent cause of failure in making omelets is in the use of too many eggs at a time. Four eggs make an omelet cusy to handle. If more are needed, it is better to make a second or even a third one.

To make a plain omelet beat the eggs thoroughly, not separating whites and yolks. Add a tablespoonful of milk and a saltspoonful of salt for every egg. Put a tenspoonful of butter on the end of a knife (a palette knife is best, but a case knife will do) and oil the omelet pan thoroughly on bottom and sides. Turn in the egg mixture and keep the pan in motion on a hot part of the stove so that one part will not cook faster than another. When the eggs have become sufficiently firm on the bottom of the pan, run the knife care-fully under and loosen the omelet so that it will easily slide to and fro. Then cover for a minute or two and raise the pan a triffe from the stove, so that the bottom will not scorch while the top is "settling." Slide the kuife under, fold the omelet over and serve at once.

#### Women of Today.

The women of today are better educated and bence superior in every way as wives, mothers, housekeepers and members of the community to those of a century ago, and they are treated with far more respect by the men of the household than formerly. Women's influence in all directions steadily increases with their higher development Naturally they are far more contented and happy with all the privileges they now enjoy than they were under the old restraints. There is nothing that could be borrowed from the past which would improve their present condition.

When woman fully awakes to the beauty and value of science, philosophy and government, then will the first note of perfect harmony be touched; then will the great organ of buumnity be played on all its keys, with every stop rightly adjusted, and the londer, loftier strains, the march of civilization will be immeasurably quickened.

#### Disastrous Wrecks.

Carelessness is responsible many a railway wreck and the same causes are making human wrecks of sufferers from Throat and L troubles. But since the advent Dr. King's New Discovery for Con-sumption, Coughs and Colds, even the worst cases can be cured, and hopeless resignation is no langer necessary.
