AMERICAN FRUITS

RECORDING BREAKING DEMAND IN EUROPE.

Need of Measures to Prevent Dishonest Packing of Fruit in the United States—Total Failure of English Fruit Crop This Year and Short Crop on the Continent.

The following paragraphs about the American and European fruit crop, and relevant topics, are from a report to the state department by Consul Jas. Boyle at Liverpool:

"The outlook for an increased sale of American fruit on this market for 1903 is very promising, owing to the short supply of European fruit of all descriptions and the absolute failure of the English fruit crop." Last season's imports (1902-3) of American and Canadian apples into Liverpool were the largest since the year 1896-97, the total being 1,396,420 barrels and 74,691 boxes, yet the imports so far during the present season, which opened early in August, 1903, are 111,500 barrels, against 89,500 barrels for the same period last season. Notwithstanding the reports that this season's crops are not to be so large, the receipts in Liverpool thus far are in excess of last year.

"On the whole, the condition and quality of the fruit from the United States is satisfactory, but there were instances where the packing was very bad—in fact, some in the trade describe it as dishonest packing, a few large apples being put on the top and at the bottom of each barrel, and in the center of the barrel all sorts of rubbishy apples were placed. If packers will be more particular in grading and packing, greater confidence will exist here with buyers and the result will be better prices. Great satisfaction is expressed as the result of the action taken by the Canadian government to prevent fraudulent packing, for by it irresponsible shippers are prevented from operating.

"The total import of apples into the United Kingdom for last season (1902-3) was 2,508,193 barrels, of which, 1,870,719 barrels came from the United States and 637,474 barrels from Canada.

"Already large shipments of apples have come in from Canada. Canadian shippers have been quick to avail themselves of the failure of the fruit crop generally, and particularly the apple crop in England.

"A great many plums have arrived in England this summer from Germany, but there have been many complaints as to their quality.

"Spain is getting to be a great source of supply for fruit consumed in this country. Excellent melons, something like American canteloupes, are imported from Spain and can now be bought in Liverpool at prices ranging from 6 to 16 cents."

A Remarkable Case.

One of the most remarkable cases of cold, deep-seated on the lungs, causing pneumonia, is that of Mrs. Gertrude E. Fenner, Marion, Ind., who was entirely cured by the use of One Minute Cough Cure. She says: "The coughing and straining weakened me so that I ran down in weight from 148 to 92 pounds. I tried a number of remedies to no avail until I used One Minute Cough Cure. Four bottles of this wonderful medicine cured me entirely of the cough, strengthened my lungs and restored me to my normal weight, health and strength." Sold by Tallman & Co.

"THE TOREADOR."

Jefferson De Angelis in Comic Opera at the Frazee Next Monday.

That merry and always popular fun-maker, Jefferson De Angelis, with his Opera Company, will make his new local bow at the Frazier on Monday, Nov. 30, in the sumptuous and brilliant Sam S. Shubert and Nixon and Zimmerman production of "The Toreador," the event promising to be a noteworthy one in the history of local musical comedy successes.

"The Toreador" is credited with being one of the very best of the pieces brought forth at George Edwardes' London Gaiety Theater, and in its composition were engaged no less than six of the best known English musical comedy creators, James T. Tanner and Harry Nichols being responsible for the book, Adrian Ross and Percy Greenbank for the lyrics, and Ivan Caryl and Lionel Monckton for the music. The piece is now in its second year at the Gaiety, and the American production has a record of seventeen weeks at the Knickerbocker Theatre, New York.

HERPICIDE'S MISSION.

It Takes 'Away the Dread of Birth-days.

Nothing is more annoying to men and women of middle age than to see those unmistakable signs of age—thin hair and grayness—approaching. But science has discovered that these conditions are no longer, "unmistakable" evidences of old age, for the dandruff germ theory proves that even very young people may suffer hair loss, while those fortunate enough to escape the ravages of the scalp germ, retain their abundant locks to a ripe old age. Newbro's Herpicide kills the dandruff germ and removes the risk of appearing old before your time. Save your hair and your feelings, by using the genuine herpicide. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.
