AMONG THE EXCHANGES OF THE INLAND EMPIRE

MISDIRECTED KINDNESS.

Farmer Worth a Half Million Taken for a Tramp.

It is not often that the average wealthy wheat raiser of the Walla Walla valley is taken for a tramp, but such was the case Thursday. One of the pioneers of Walla Walla, worth about \$250,000, was taking a morning walk for his health when a woman hailed him from the porch of her house, asking him if he wanted work. The vicissitudes of fortune to which the pioneer has been subjected are sometimes not conducive to much regard for personal appearance as far as dress is concerned, and the woman thought she had a chance to give a "tramp" something to do. "Do you want work?" she demanded. "If you do go around to the wood shed and split some wood for me. I'm all out and nearly froze." The pioneer stopped and eyed the woman sternly for a moment. His hesitation puzzled her and she repeated the question. The "tramp" then understood the situation and, with the remark that he was not in the wood business, he moved on, dimly wondering—Walla Walla Union.

Hurry Up, Idaho.

H. N. Savage, who is connected with the reclamation service of the interior department at Washington, is in the city today in consultation with D. W. Ross. Mr. Ross has submitted several feasible propositions to the government for the reclamation of lands in Idaho and Mr. Savage is here for the purpose of investigating them. In a conversation with the Capital News reporter this afternoon he said that Arizona and other states were making a strong bid for government aid and that if Idaho wanted to get the benefit of the first work under the irrigation act they would have to get to work at once and put forth their best energies.—Boise Capital News.

Boring for Artesian Water.

Messrs. Patterson and Proffit, who are making preparations to bore for water on their land east of the city limits, expect to go ahead with the work as soon as the machine arrives, which will be about the first of January. They express the greatest confidence in the success of the undertaking, and have manifested their faith in the possibility of finding water by investing \$3,500 in a machine for boring for it. They expect to drill one well as an experiment, and as soon as the water is found they will make other drillings. The water to be used for irrigating purposes.—Baker City Herald.

Nez Percés Dissatisfied.

James Stuart, the well known Nez Percé Indian of Koonick, has gone to Washington, D. C., where he will go before the department in regard to matters pertaining to the government

of his tribe. One of the objects of Stuart's visit will be to prevail upon the department to abolish the agent for the Nez Percé tribe and allow the Indian land owners to transact their own business. It is said an element of the tribe believe that it will be much better for the Indian to have the management of his own affairs than to have the business transacted through the agency.—Lewiston Tribune.

Scab Law a Failure?

There were two sensational features at the meeting of the Idaho Wool Growers' association. The first was over the scab question, in which many of the members took occasion to say that the present state law as enforced by the state sheep inspector and his deputies was a complete failure and wanted the federal authorities to be invited to take hold of the matter. The other was over the election of officers for the ensuing year. A bitter fight was made on the re-election of Secretary M. B. Gwinn, but when the vote was taken he won out by a handsome majority.—Boise Statesman.

Nail Causes Death.

G. W. Howe died at Cottage Grove of blood poison, Tuesday, as the result of a slight abrasion on the finger of the right hand. Several days ago Mr. Howe scratched the finger on a rusty nail and gradually poison set in. As a last attempt to save the man's life the arm was amputated, but too late. The sufferer rallied from the shock caused by the amputation, but soon rapidly grew worse and expired.—Eugene Guard.

New Road Map.

County Surveyor L. W. Locher is at work making a new road map for the county. He is taking all the old road districts of the county and putting them into one large map. Each district will show every county road existing in that particular district, together with all the changes and vacations that have been made since the county was established.—Walla Walla Statesman.

Over Two Tons of Onion Seed.

William Dobbs, one of our leading farmers, shipped last week a consignment of 2,500 pounds of onion seed from eight acres of ground, and he had only about half a crop. Mr. Dobbs is one of the most thorough farmers of the county, and his seed shipments are a source of considerable revenue as well as an evidence of his enterprise.—Union Republican.

Union Packing House.

Starting out modestly, the Union packing house is killing about 75 hogs per week, and curing the meat ready for market. Mr. Foster, in charge of the work, is confident that he will produce a superior class of meat, and thinks there will be a ready sale for all he can cure.—Union Scout.

DEMAND IS GOOD

AMERICAN PRODUCTS USED EXTENSIVELY IN IRELAND

Large Amount of Footwear, Flour, Canned Goods and Machinery of American Manufacture used in Erin—How to Extend Trade.

American Consul William W. Touville, at Belfast, Ireland, writes the following interesting article to the department of labor and commerce, on "American Products in Ireland."

"I have been unable to get an itemized statement of the articles received at this port (Belfast) from the United States. This is due to the fact that most of the imports from the United States are received at Liverpool, Glasgow, Southampton and other ports and trans-shipped to this port by cross-channel steamers; but among the line of American goods it may be mentioned that agricultural implements of all kinds are in the lead in the markets here.

"Many other productions from the United States have a solid footing in the trade in this city, among which may be mentioned American steel, iron and all kinds of labor-saving machinery, wire nails, sewing machines, lawn mowers and a great variety of smaller manufactured articles.

"The tobacco used by the manufacturers is principally of American growth, being mostly Virginia and Western leaf, and is used in the manufacture of cigarettes. Boots and shoes of American make, both for women and men, are preferred to all other makes. American flour supplies the market here and is far in excess of the importation of any other country.

"All kinds of canned goods from the United States find a large and increasing sale. In all the avenues of trade productions from the United States are to be found.

How to Increase American Trade. "I receive many inquiries from correspondents in the United States asking me what is the best method for extending the sale of their manufactures in this market.

"My reply to all such inquiries is that the goods should always be sold strictly on their merit, using the same care that is given to the extension of the sale of manufactures in the home market, a personal representative or agent being the best method to adopt. Catalogues and price lists receive but slight attention from business men."

ALABAMA'S BIRTHDAY.

Was Admitted to the Union Eighty-four Years Ago.

Montgomery, Ala., Dec. 14.—Alabama was admitted to the Union eighty-four years ago today, and the anniversary was celebrated throughout the state. It is the first time the anniversary has been observed and today's celebration was due chiefly to the efforts of the Alabama Educational association.

In response to an appeal sent out by the association, the schools throughout the state devoted today to the holding of commemorative exercises, the programs including the reading of the resolution of congress admitting Alabama into the Federal Union, summaries of the history, growth and development of the state and other exercises of an historical nature.

SOUTHERN LEAGUE MEETING.

Baseballists Rounding Up for Next Year's Business.

Atlanta, Ga., Dec. 14.—Presidents and managers of the clubs comprising the Southern Baseball league are rounding up in Atlanta in readiness for the league's annual meeting to be held tomorrow.

There is considerable routine business to be transacted, including the winding up of the business of last season, the distribution of the guarantee fund and the collection of funds for next year. Applications have been received from Houston, Jacksonville, Dallas, Galveston and Mobile, but talks with the magnates already here indicate that a change in the present circuit is unlikely. President William M. Kavanaugh and the other officers of the league are to be re-elected without opposition.

Strayed.

From Bowman's ranch on McKay creek, seven miles from Meacham, in October, three head of horses. One 3-year-old roan horse, branded Q on left hip. One 2-year-old bay horse, branded Q on left hip. One 2-year-old bay filly, branded Q on left hip. A reasonable reward will be paid for information leading to the recovery. Address W. Brummett, Meacham, Or.

Olympia Beer—Olympia Beer.

The most popular brand for family use. On draught at Anton Nolte's. He also handles the bottled beer in any quantity desired.

Spalding, Mich., is greatly excited over the finding of a human foot which the doctors pronounce to be that of a young woman, in a yard in that city.
