QUARTET FROM WALLA

WALLA ARRESTED TODAY.

A Few Scandals More or Less Make No Difference to the Representatives of the Garden City's Social Circles-Charges of Adultery and Seduction Are Profuse and Appar. ently Uncontroverted.

Miss Gertrude Ackerman, of Walla Walla, is in the city looking for a wayward lover, and has found him. Mrs. Addie M. Sullivan and Miss Bes-Mrs. Addie M. Sullvan and ansa bes-sie M. Mann, both of Walla Walla, and Frank Howard (or Leonard.) the erstwhile owner of the bulldog that caused the prizefight, and J. G. Hoke, an ex-railroad man of Walla Walla, are in the county jall charged with lewd cohabitation, and with a charge of seduction and adultery hanging over two of them

Leonard and Miss Mann and Hoke and Mrs. Sullivan came to the city the first of the week and registered at the Gratz lodging house as man and wife. Last night, finding that Miss Ackerman was in the city look-ing for them, they changed the regis-ter, but not before they had been located by the police, and this morning they were arrested in the rooms by Marshal Scheer, upon the complaint of the visitor from Walla Walla.

Miss Ackerman came to the sher-iff's office this morning and bad a talk with Hoke, and after a time their differences were patched up to the extent that he was willing that the ceremony should be performed. But as he did not have the price of the license, he left the matter to the lady, who wished to become his wife, and with the shoriff and the prosecuting attorney, went to the clerk's office for the necessary permit. Here, howover, it was remembered that neither was a resident of this county. the marriage was called off until the prospective and reluctant groom-tohad finished with the compliments which the county has in store for him and can hasten to the altar at Walla Walla, under the eye of the Washington officers. Miss Ackerman will return to her

home this evening, where she will wait, in company with the prosecuting attorney of that district, for the return of Hoke.

Miss Mann is a working girl of Walla Walla, who has fallen under the spell of the actor man, and she is in the jall with Mrs. Sullivan, who is the wife of a laboring man of Walla Walla.

Hoke was formeriy a brakeman of one of the roads leading into that city

INCREASE IN

UMATILLA COUNTY GREW 8,000 ACRES THIS YEAR.

Acreage in the County Averaged 29 Bushels per Acre-R. C. Judson Brought Seed to the County Five Years Ago From North Dakota-First Steps in Development of a Great Agricultural Factor,

R. C. Judson, industrial agent of the O. R. & N., returned from Athena last evening, after spending the day in that vicinity yesterday, securing figures and data on the Umatilla corn crop.

There were grown in Umatilla county this year a total of 8,000 acres of corn, which averaged 29 bushels per acre. Four thousand acres of per acre. Four thousand acres of this corn is tributary to Athena and 4,000 acres of it tributary to Weston.

#### Enterprising Farmers.

Among the farmers growing the largest acreage were Charles Wilkes, with 100 acres; Charles Brothering-ton, with 80; T. J. Kirk and Charles Coppick, with 40, and many others with 30 to 35 acres. Many of the small crops averaged 32 bushels and T. J. Kirk's crop averaged 35 bushels per acre.

The corn grown in Umatilla coun-tr is the Dakota yellow dent variety, and the seed was brought to this county by Mr. Judson and R. B. Miller, freight agent of the O. R. & N. five years ago, from North Dakota These gentlemen distributed \$59 worth of seed among the farmers of the county and the acreage has 'ncreased from perhaps 50 acress five years ago, to 8,000 acres, averaging 29 bushels per acre this year.

Mr. Judson feels a justifiable pride in this record, as it was with difficulty that he secured a promise from the farmers to give the first corn crop room to grow on their land.

## An O. R. & N. Policy.

Seed to the amount of \$50 was als distributed last year and the company will continue this progressive policy until Eastern Oregon is producing some valuable crop on every acre of idle land,

The corn harvested in this county this year was all first-grade and mar ketable at the grist mills and the acreage will be increased next year. The entire crop this year was grown on summer fallow land and it has proved to be one of the very best crops that can be grown to rest the land and kill out the weeds.

#### Experimental Barley,

While at Athena yesterday, Mr Judson made arrangements with Kirk to sow an experimental field of the famous Hannan barley, the foremost brewing barley grown in Germany, and the result of this trial

tion to adopt the girl, and it is sure that the court and the society will be able to secure a good home for her. The act of turning her over to the society at Portland is simply in conformity with the law, and is formal in meaning more than anything else.

## PARTY WAS NOT DROWNED.

Report of Second Drowning at Mountain Sheep Rapids Not True.

The Lewiston Tribune, speaking of the reported drowning of a party of workmen on Mountain Sheep rapids in Suake river, while trying to rescue the boilers of the steamer lumaha, заув

The Hoke party were safe at the Mountain Sheep rapids and were en-gaged in constructing a raft last Monday. Such is the report brought to the city yesterday by J. M. Edwards, The first I heard of an accident to the party was when I reached Aso-tin, said Mr. Edwards yesterday, tin.' said Mr. Edwards yesterday. 'but I am positive that they are all

safe and are now working on the rafi to float the boilers to Lewiston. The last I heard of the party was on my way to this city when a miner who was en route to the lower river stated that he passed the Hoke party Monday. last.

The crew were then building the raft and would be ready within a lew days to raise the boffers. Had an accident of a serious nature happened to the party or any one of the crew the miners of the upper river would have known of it as a particu-larly close watch is kept on the river at this time by all the miners in the hopes of recovering the bodies of the McFarland brothers

'It is a very common occurrence for loose boats to be found in the up-per river and it is probable that the finding of the skiff has caused the report that the Hoke party has been drowned."

The McParland brothers referred to were brothers of E. D. McFarland, of Adams, who is making every effort to recover their hodies. He is of the opinion that they will be found some distance down the Snake or even on the Columbia river, owing to the high water in the streams.

## Baker City Jail Break.

Baker City, Dec. 18 .- Three vaga bonds broke out of the city jail last evening, leaving a note that the board was not fit for prisoners to eat and that it was better to starve outside, rustling for grub, than to pine away in confinement, on the scanty fare furnished by the city. Two of the prisoners had been arrested for ped-dling razors without a license, and police judge now has a stock of the confiscated razors for sale.
