AT ASSEMBLY HALL.

Negative in Debate Won Out—Another Program Next Friday Night. Considering the bad evening, a very good audience greeted the students of the high school last night at the assembly hall, when they presented their regular weekly program. The debate was won by the negative after a hard fight by all of the debaters. The rest of the program was perhaps the best that has been given so far this year. On the evening of next Friday another program will be given, for which the pupils have been making especial preparation.

GAMBLERS FINED

SEVEN MEN CONTRIBUTED \$150 EACH TO THE CITY.

City Treasury Enriched to the Extent of \$1,350 This Morning—Lester Swaggart Held for Two Counts, Pays \$300, the Others \$150 Each —District Attorney Hailey Will Now Prosecute Under State Law.

The new council has shown its hand on the gambling question. In pursuance with the policy adopted at one of the secret meetings held last week and the week before, the marshal has begun to round up some of the men who have a fondness for the card table, and as a result of his visits Frank O'Hara, William G. Bogert, Charles Morrison, W. H. George, C. F. Cook, Tom Johnson and A. Stephens were arrested for gambling contrary to the ordinances of the city, and were brought before the court, where their bail was fixed at \$150 each. All of the men put up their money, and when their cases were called forfeited their bail. Lester Swaggart was arraigned on two charges and paid \$300 as bail, which he also forfeited.

As a result of the transaction the city treasury is \$1,350 better off this afternoon than it was this morning.

It appears that it is the policy of the present administration to fine the gamblers—whether monthly, or at longer periods is not plain, but judging from the amount of the fines, or the bail fixed, which is in effect a fine, the incidents will be at longer intervals.

District Attorney Hailey, who has been threatening to reopen his campaign against the gamblers for some time, has stated that he will also, as an officer of the state, file an information against each man arrested by the city for gambling and prosecute him for the violation of the state law.

MORTGAGES FOR \$51,000.

Rugg Brothers File Heavy Mortgages to Secure First National Bank.

A chattel mortgage was filed yesterday afternoon in the office of the county recorder by G. W. and A. Rugg, known as the firm of Rugg Brothers, in favor of the First National Bank of Pendleton, by which they secure to the bank the payment of \$51,000 given them by the bank on notes ranging from \$4,500 to \$7,000. The mortgage calls for one dollar on its face, but is given to cover the notes which are affixed to the instrument.

The instrument gives as security for the loan all of the personal property of the mortgagors, consisting of several thousand head of sheep, cattle, farm implements, camp wagons and outfits, saddles, horses, pigs and in fact about all of the property of the ranches and holdings of the firm.

A deed of trust has also been given to H. F. Johnson as the present cashier of the bank to a large part of their real estate holdings, sheep, ranges and land of that sort. Just how much of their real estate is subject to the mortgage is not known, but it is a large tract of land. This is the largest mortgage of this nature that has been filed in the office of the recorder for some time.

WOOL AND SHEEP IN 1903.

Number of Sheep in 1903 Over Two Million Head Less Than in 1902.

The National Association of Wool Manufacturers estimates the number of sheep on hand in the United States April 1, 1903, at 39,284,000 head, as against 42,184,122 head on the same date in 1902, a decrease for the year of 2,900,122 head, says Bradstreet's.

The wool clip of 1903 is estimated at 245,450,000 pounds of fleece and 42,000,000 pounds of pulled wool, making a total wool product of 287,450,000 pounds of wool in the grease. The corresponding figures for 1902 were 274,341,032 pounds of fleece wool and 42,000,000 pounds of pulled, making a total wool product for 1902 of 316,341,032 pounds.

The estimated decrease in the wool clip of 1903, as compared with that of 1902, is, therefore, 28,891,032 pounds. The per cent of shrinkage in scouring for the 1903 clip is estimated at 69.8 per cent for fleece wool and 33 per cent for scoured, so that the total 1903 clip as expressed in terms of scoured wool amounts to 124,366,405 pounds.

In 1902 the shrinkage in scouring was estimated at an even 60 per cent for fleece and 33 per cent for pulled wool, the total 1902 product of scoured wool being estimated at 137,912,685 pounds.

The decrease in the output of scoured wool in 1903 as compared with that of 1902 is thus estimated to be 13,545,680 pounds. The average weight of fleeces in 1903 is estimated at 6.25 pounds, a decrease of .25 pound from the average weight in 1902, which was put at 6.50 pounds. The average weight of fleeces in 1901 was 6.33 pounds, and 6.46 pounds in 1900.

ALASKAN IMPROVEMENTS.

Baker City Man Says Territory is Filling Up With Adventurers.

Mr. W. H. Washburn, the well known mining man of Baker City, who has just returned from Alaska, states to the Morning Democrat, that that territory has a governor appointed by the president and that the present official's name is John G. Brady, but that he has so little to do with the actual running of affairs that few people know there is a governor.

Alaska as yet has no delegate to congress. It is a district governed exclusively by federal officers supported by direct licenses imposed on the different branches of business. Real estate is not taxed. In other words, Alaska is not even a full-fledged territory.

Population is now increasing so fast in Alaska and its mining interests are becoming so great that all these things will soon be changed. Besides mining recent discoveries of oil have been made, and there are large beds of coal which will soon become valuable.
