## COMING OF SPORTS

**GREAT INTEREST IN THE REGULAR MEDAL SHOOT.**

New Traps and Buildings Are Being Erected, and Marksmen Will Attend From Heppner, Elgin, Sumpster and Other Distant Points—Valuable Medal as a Trophy is Coming.

On Sunday morning the Sportsman's Association will hold their regular monthly medal shoot, and from the indications there will be a larger attendance than for some time, for it is so near the time of the tournament that all are beginning to wake up and to do a little practicing in anticipation of the big event.

On Sunday the members will shoot over the new traps that have been ordered for the tournament, and which have been placed in position. There will be three (or one set) of the traps, and they are now being placed in position.

Carpenters are now at work on the grounds of the association, putting up a couple of new houses for the convenience of the shooters. From the returns coming in from the invitations that have been sent out, it is evident that there will be a larger number of sportsmen in the city at that time than has ever before gathered in Pendleton at one time. Heppner had heard of the affair even before the sportsmen in that place had received their invitations to come, and they had written to the management here saying that they will send over a large delegation who will come prepared to take away the trophy with them if it is in their power.

Sumpster has replied to the invitation, and will send a good sized squad to make the try for the purses and the honors of the tournament. The town has never before sent a representation to the shoot in this city, and the association is feeling good over the fact that they will be here. Elgin and Wallowa will send a joint delegation, all the members of which are good shots, and will make it interesting for some of the contestants. Other towns are also intending to come, and it is an assured thing that the tournament this year will be one of the best, if not the best, that has ever been held in this section of the country.

The medal for the highest average shooting of the tournament has been shipped and will be here in a short time. When it arrives it will be placed on exhibition in the window of Tallman's drug store, where all will be able to see it.

## SOCIAL EVENTS OF THE WEEK

Concerning the People of Pendleton and Vicinity • Notes Personal and Otherwise • By Our Regular Correspondent

Post holiday week has been an unusually quiet one, all seemingly having expended their social energies the last few weeks of the old year. Reaction has set in and will no doubt hold sway for a time until the lethargy wears away. But Pendleton society cannot long remain under this spell. In fact, plans are now brewing for various affairs, one of which is a party of some sort to be given by the ladies in return for the pleasant entertainment furnished them New Year's night by the gentlemen. No doubt if such a party is given, all the rules governing leap year will be observed.

### Let's Emulate This.

Philanthropic movements frequently prove as beneficial to the promoter as to the persons whom they intend to benefit. A striking example of this is seen in the result of a philanthropic movement by the Women's Club, of Roanoke, Minn.

In 1896 the energetic members of the Women's Club conceived the idea of fitting up a rest room for the wives of the farmers who came to town. An immediate canvass was made among the business men, who donated liberally, with the result that a room was rented and furnished with chairs, sofas, cradles, cooking utensils and other home comforts. Here the weary wives rested and rocked their babies.

The outcome was that women, who would not expose their children to the cold of the streets or to the smoke of the corner grocery, came more often to town, brought their butter and eggs, and either "traded out" the amount due or spent the cash which they received.

The rest room was, so far as is known, the first one of its kind ever established. Its growth has been rapid.

The club women are delighted, the farmers' wives are charmed with the comforts and the business men see readily where the canvassing club women were only helping them to help themselves.

What was started from purely philanthropic motives has proved to be a sound business principle. The effect of every philanthropic movement is far-reaching.

Mr. Coolidge came West by way of Los Angeles, and has been enjoying a winter's outing on the Pacific coast to the best advantage. He is an extensive farmer in Iowa, and would not exchange his corn land there for anything as has been yet, although he has not visited the true wheat belt of the West in the Athens and Weston districts.

He will attend the rabbit drive near Echo tomorrow, in order to complete his Western experiences before starting home.

### Entire Family Ill.

The family of W. C. Hosenason have all been ill during the past week with the grip, which has now made the circuit of the family, leaving them still sick, but on the mend.

### A COUGH CONUNDRUM

When is a cough more than a cough?

When it's a settled cold. When it hangs on in spite of all you can do. Cough mixtures won't cure it because they are merely for a cough and this is something more.

Scott's Emulsion cures the cough because it cures the something more. It heals and repairs the inflamed tissues where the cold has taken root and prevents its coming back.

We'll send you a sample free upon request. SCOTT & BOWNE, 409 Pearl Street, New York.

### FREE LUNCH AT DRIVE.

Farmers Will Have Sandwiches and Coffee on the Ground Tomorrow.

The largest crowd ever attending a rabbit drive from this city, will go to the drive near Foster tomorrow. The special arrangement by which the O. R. & N. trains stop at the place where the drive is to begin at milepost 197, just west of Foster, has induced many people to go for the day's sport. Major Moorhouse will go prepared to take some elegant pictures of different scenes at the drive and Portland correspondents and photographers will also be on hand to write up and photograph the event.

The farmers who have charge of the drive announce that there will be free lunch of sandwiches and coffee served on the grounds at the close of the drive. The absence of a place to get dinner has been one of the principal drawbacks and this thoughtful arrangement on the part of the farmers will meet with hearty approval from those who had intended to go, but hesitated on account of
