CREAMERY NOTES

PLAN OF MAPLE BROS. OF PAYETTE, IDAHO.

They Acknowledge its Practicability, Urging Co-Operation by the Farmers as the Essential Factor—Offers Some Especial Inducements Which Should Be Well Considered.

George Maple of this city and W. L. Maple, of Payette, returned last night from a trip to Hillsdale where they had gone several days ago to look after the condition of their stock there.

They report that all the stock in that section is looking better this year than it did at the same time of the season last year. The pasture is good and the cattle are fast getting into good condition for the spring. Feed is plenty throughout the country and there is now no danger of a shortage should a cold spell visit the country. In fact it would do more good than harm, for a snow of several days or weeks would rest the ranges and allow the grass to grow where it is now grazed short, and at the same time would utilize the feed that is now standing idle in the fields.

W. L. Maple is the manager of the Maple Leaf creamery of Payette, and would like to open a branch in this section of the country. His plan would be to ship the cream for the time being to his plant at Payette, where he could use it. He would install the separators for the farmers and take their notes without interest for one year as payment. He would keep the machine in order for the first year free of cost, and would pay the freight on the machines to this city, pay the express on the cream, and return the cans to the farmers free of charge. All that they would have to do would be to come for the cans to the station nearest their homes, and return them full when they had the cream.

Mr. Maple will return to his home in Payette in a few days. While in this city he is the guest of his brothers.

AUTOMATIC ENUNCIATOR.

No More Shouting "Next" at Kraessig & Sharp's Barber Shop.

Kraessig & Sharp have installed a new automatic electric enunciator in their barber shop for the convenience of their patrons when there is a crowd in the house. Each man as he enters the place takes a tag from a hook near the door, and as each man is turned from the chair a bell is rung and the number due for a shave is indicated by a dial placed in a prominent position. The contrivance is of great convenience where there is a house full waiting for their turn to come.
