TOURNAMENT TODAY

SOME HIGH RECORDS WERE MADE YESTERDAY.

Several Shot the Limit—Twelve Events Today, With a Long List of Added Money—Marksmen Present and Taking Part From a Wide Area, Coming From Spokane and Salem and Idaho Points.

With the good weather, and the large and enthusiastic attendance of sportmen, the second annual tournament of the Pendleton club is a decided success.

Yesterday was a sort of catch-as-catch-can day, for not all of the shooters had come, and the regular squads had not been made up, so that it was not until today that the regular prize shooting could begin. During the day yesterday several impromptu bouts were had, and some high averages were made, several 25-bird runs being made out of a total of 25. Also, in the 16-bird events, it was not an unusual thing for the men to get all of their shots.

Today 12 events were pulled off, the added money in the purses being put up by Bentley & Hartman, Morrison Club rooms, M. A. Rader, Palace Cigar Store, George R. DeMott & Co., Tallman & Co., Stillman & Pierce, T. C. Taylor, Thompson Hardware Co., Lee Teutsch, Columbia Bar, and the Hotel Pendleton. The total number of targets for the

Shooters Taking Part.

Among those present at the shoot today and taking part in the program were Roscoe Shepton, Salem; A. J. Winters, Portland; W. W. Caldwell, Portland; George Palmer and Hank Palmer, Salem; George W. Tannahill, Sumpter; L. N. Knettle, Pomeroy; George B. Baker, Dayton; J. H. Blake and S. W. Spencer, Heppner; J. C. Sewell, W. J. Sewell and S. R. Thompson, Pendleton; D. E. Brockbank, San Francisco; H. C. Watkins, H. J. Stillman, T. W. Ayres, W. W. Hock, D. C. Clark and F. W. Wait, Pendleton; H. O. Peck and Hershaw, Walla Walla; Dan Jaeger, L. C. Edwards and Kirk Taleafaro, Sumpter; O. Kincaid, Geiger; P. Shields, Harrington; Frank Roberts, C. A. Minor, Lee Matlock, W. R. Irwin and William Cowins, Heppner; George C. Beck and G. Gans, Spokane; T. P. Holahan, Wallace; G. B. Ware and J. Forbes, Spokane.

Visiting in Helix.

Miss Jessie Smith left this morning for Helix, where she will be the guest of relatives for a few days. On Monday she will return to the city accompanied by her mother, Mrs. A. H. Smith, who has been visiting in Riverville.

"Evil Speaking" Tonight.

Dr. S. M. Martin will preach this evening at the Christian church on the subject of "Evil Speaking." He has been speaking in crowded houses and the meetings are nightly growing in interest.

Visitors From South Dakota.

Professor William M. Haw, of Aberdeen, S. D., accompanied by his wife, is in the city for a visit at the home of G. A. Robbins. Mrs. Haw and Mrs. Robbins are sisters.

BAKING POWDER

The remarkable increase in consumption demonstrates its superlative merits and wholesomeness.

ONE POUND 25 CTS

NOT GOOD, NOT HERE

...A...

Praiseworthy Fault

One that true economy must endorse

The only complaint we have ever heard about "Revere" Coffee came from a consumer who said it was "too strong." "Too strong" is a highly laudable fault in a Coffee, and one easily remedied by

USING LESS TO THE CUP

"Too strong" is not the same as "too rank." The latter is a fault that often characterizes weak coffee, and nearly always characterizes very cheap grades. "Too strong" simply means that

REVERE COFFEE

will produce more cups of the desired strength than the consumer gives it credit for, and for that reason true economy prompts its purchase. The "per cup" cost of "Revere" coffee at 40c a pound is no more than when a 25c grade is used. The incomparable flavor, rich aroma and satisfying body cost absolutely nothing extra.

KNOCKER AT WORK

PROSPECTIVE INDUSTRY FOR PENDLETON BEING OPPOSED.

Representative From Outside Creamery Company, Circulating False Reports About the Business—The Farmers Cannot Be Deceived by Any Knocker Who is an Enemy to the City and the County.

Some knocker against the creamery to be built in Pendleton by the Commercial Cream Company of Salem, has been traveling over the country near this city telling falsehoods about the methods of the creameries operated by this enterprising company.

Farmers from Birch creek say that some fellow unknown to them, has made several special trips among them to ascertain the sentiment regarding the creamery, and while feeling of the public pulse on the subject has told all kinds of discouraging tales of creameries in other places, and has made every effort to prevent them from patronizing such an institution.

The intelligent farmers of that thrifty community have not been influenced by anything said by this enemy of the city and county. They can read figures and statistics published on the subject and are interested in bringing every profitable institution possible into the county.

The Commercial Cream Company operates one of the largest creameries in the state, at Salem, has a reputation all over the Northwest as a solid, up-to-date firm and will do with a creamery in this city just exactly what they say.

If 50 patrons can be secured, they will begin the erection of a plant in this city. They will pay for butter fat two cents per pound less than the highest market price for first-class creamery butter at all seasons of the year.

The cream must be separated by the farmer and the creamery company will arrange to gather the separated cream from each farmhouse, if so desired. An ordinary cow will produce from 15 to 25 pounds of butter fat per month, which at the usual market price of butter in this city, means an income of from \$5 to \$8 per month from each cow, and in case of high grade butter cows, over \$10 per month for each cow.

Don't be led astray by knockers. Somebody who is interested in keeping a creamery away from this city has done the knocking and people should harshly turn down any enemy of the city and county who tries to prevent legitimate development.

Butter is selling at 75 cents a roll or 37½ cents a pound in Pendleton now. Two cents less than the price of butter would mean 35½ cents per pound for butter fat. A cow yielding 20 pounds of butter fat per month at 35½ cents per pound, would bring her owner an income of \$7.10 per month. Twenty pounds of butter fat per month is less than the average yield, while 37½ cents per pound for creamery butter is the ordinary price.

There is a profit in the business. No knocker against the city need tell you otherwise. La Grande is starting a large creamery. Lewiston is putting in one of the largest in the Inland Empire and the little city of Union has one of the most complete creameries in the state, and cannot supply the mines of Baker county. Pendleton's location as a business center, renders her an especially favorable point for such an institution.

"WAY DOWN EAST" TONIGHT.

Favorite Old New England Play Comes to the Frazer.

"Way Down East," Manager William A. Brady's much talked of production, which will be presented at the Frazer tonight, has had unstinted and enthusiastic praise from the clergy, school teachers, women and in fact from people in every walk of life, including thousands who are seldom seen inside the walls of a theater.

The scenes are laid on a New Hampshire farm, the play written by Lottie Blair Parker, and elaborated by Joseph R. Grismer.

The play deals with simple incidentally fitted to portray the eccentricities and quaint humor of New England folk. The production from a scenic standpoint will compare favorably with any play presented in many years.

WRANGLE OVER CORPSES.

Undertaker and Coroner Clash Over Disposing of Paupers.

The wrangle between Buchanan & Co., the undertakers, and Coroner D. L. Smith, was finally settled this morning, says the Spokane Press. These people have been having a little difficulty over the pauper-dead which have been lying at the parlors of Smith & Co. Smith is the official morgue of the county and the coroner has sent several paupers to the morgue.

Buchanan has the contract to bury the county-dead at \$12 for each body. He claimed the coroner should have sent those bodies to him in the first place, arguing that he had plenty of before he sent them to the morgue. On that account Buchanan refused to call for the bodies. The difficulty was finally settled satisfactorily and Buchanan came for them.

COLD SPRINGS PROSPECTS.

Abundant Moisture and Winter Wheat Growing Finely.

W. R. Campbell, of Cold Springs, was in the city today for a business visit. Mr. Campbell is one of the most prominent farmers of this section of the county, and is well pleased with the outlook for the year. He thinks there is more moisture in the ground at this time than there has been at this season for the past 20 years, and there is a fine chance for a good wheat crop.

What wheat is in the ground is doing well and growing fast, and if there is no extra cold weather to retard its growth it will soon have the hills green and waving with the coming harvest.

MRS. FELL RETURNED.

Webfoot Climate Did Not Agree With Her, as it Induced Asthma.

Theron Fell, of Portland, is in the city for a short visit with his mother, Mrs. C. E. Fell.

Mrs. Fell some time ago went to Portland for an extended visit with her children, who are residents of that city, intending perhaps to remain there indefinitely, but the low altitude and heavy air brought on asthma and she was forced to return to her home in this city, where she has a residence in North Pendleton.

SPRING CAMPAIGN

WOODMEN OF THE WORLD MAY BUILD IN PENDLETON.

With Over 500 Active Members Now, Pendleton Camp Has Set the Mark for 600 by April First—Reserve Fund of Pacific Jurisdiction Will Be Increased From \$700,000 to \$1,000,000.

J. H. Lawrey, counsel commander of Pendleton Camp No. 41, Woodmen of the World, is enthusiastic over the prospects for the spring campaign of that order.

Head Commander Falkenburg has sent out notices to the different camps that 12,500 new members are expected during the Pacific Jurisdiction during this campaign, which will end on the first of April and the Pendleton camp is now doing its share to bring in this number.

"The membership of the Pacific Jurisdiction must be increased from 22,000 to 100,000 during this campaign," said Mr. Lawrey yesterday evening to an East Oregonian representative, "and we have set the mark for this camp at 100 of that number. Pendleton camp now has over 500 active members and this campaign must bring the number up to 600, which will be an easy task, judging from the number of applications now coming in, and the enthusiasm which pervades the ranks."

"One of the other objects of this campaign is to bring the reserve fund up from \$1,700,000 to \$1,000,000 as one of the most worthy ideals of the order is to secure and maintain a reserve fund adequate to all emergencies. The financial foundation of the order is now beyond question, but the constant effort of every official and member is to make it still more secure by added funds and added members."

"It is not at all unlikely that Pendleton camp will erect a building for its lodge room and business offices. This is one of the issues now before the camp, and is being seriously discussed. The membership is so large that it is unwieldy in any of the present lodge rooms available in the city, and with the constant increase, which is being added, some radical change is necessary."

"If the membership should all attend lodge on the same night now, the present quarters would not hold over half the number. This is an unfortunate condition, and one which will be remedied at once, by building a Woodmen building, if a suitable location can be secured."

"This spring campaign finds 750 camps in the Pacific Jurisdiction, with Pendleton camp the largest in the state of Oregon, outside of Portland. Every member is expected to bring in a new member, if possible, and the campaign will close about the first of April with a banquet in this city, in which all the camps in the county will participate."

Here Before Pendleton Was.

James H. Jones came in town from his ranch, eight miles north of town. "Here's \$5 for the paper. I want to try my luck on guessing for that rubber-tired buggy," said Mr. Jones. The paper is big value for the money, but if I get the buggy, why I am just that much ahead. I have had my name on your subscription books ever since the East Oregonian started. Let me see, that must be about 28 years ago. I have lived on my ranch north of town for 30 years. I was here first in 1855, then I went down to the Willamette valley and in '55 and '56 I served in the Indian war. I have 480 acres on my place, 225 of which is in wheat. It is looking pretty well. We have had a good winter for grain."

WOMEN PRAISE IT

There are thousands of women today praising the celebrated Hostetter's Stomach Bitters. When they were run down and in need of a health restorer and regulator they were persuaded to try the Bitters, with the result that they now enjoy perfect health. All sickly women should try it at once. Besides curing all Female Complaints, it is also unequalled for Indigestion, Dyspepsia, Insomnia and Constipation.

HENRY KOPPE RETURNED.

Has Bought the Purdy Farm Near Athena for \$22,000.

Henry Koppe was in the city this afternoon making arrangements for the transfer to himself of the Sam Purdy place a short distance east of Athena.

Mr. Koppe was formerly a well known resident of this section, but of late has been living at Ellensburg. He has once more come to this city, however, and has contracted to buy the Purdy place of 360 acres near Athena at \$22,000. The papers have not yet been signed, but the transfer is practically made, and the deal will be consummated this evening.
