

Like a Comet
This famous remedy does for the stomach that which it is unable to do for itself, even if but slightly disordered or overburdened.

Kodol supplies the natural juices of digestion and does the work of the stomach, relaxing the nervous tension, while the inflamed muscles and membranes of that organ are allowed to rest and heal. It cures indigestion, flatulence, palpitation of the heart, nervous dyspepsia and all stomach troubles by cleansing, purifying and strengthening the glands, membranes of the stomach and digestive organs.

LARGEST CRUISER
CHARLESTON LAUNCHED TODAY AT NEWPORT NEWS.

Only Two Other Vessels of Its Class in the American Navy—Is Four Hundred Twenty-four Feet Long—Has a Displacement of 9,700 Pounds—Cost One Million Seven Hundred Forty Thousand Dollars.

Newport News, Va., Jan. 23.—The protected cruiser Charleston, the largest and most powerful vessel of its type in the American navy, was launched today in the presence of a large crowd which included a party of distinguished persons from the city of Charleston, S. C., a large number of naval officers from Washington and other invited guests.

The new cruiser Charleston continues the name of the 3,700 ton vessel wrecked several years ago in the Philippines. There will be but two other vessels in the United States navy of the Charleston class. They are the Milwaukee and the St. Louis, now under construction. While designed primarily for speed they will be at the same time formidable fighting machines. They will have the most powerful ordnance for vessels of their class and have the highest speed compatible with good cruising qualities and great radius of action. They so closely approach the type of second-class armored cruisers that they might easily be mistaken for such.

The Charleston is 424 feet long and has a breadth of 66 feet. Her displacement is 9,700 tons. Her armament will consist of 14 six-inch rapid fire guns; 18 14-pounder rapid fire guns, 12 three-pounder rapid fire guns, four one-pounder automatic guns, eight one-pounder rapid fire guns, two three-inch rapid fire guns, two machine guns, 30 caliber, and eight automatic guns, 30 caliber.

The Charleston is to have twin screw engines, which will furnish 21,000 horse power, and which will enable her to show better than the enabled speed of 22 knots per hour. Her coal capacity with the bunkers full is 1,500 tons, which would enable her to cross the Atlantic several times without re-coaling.

The building of the Charleston was authorized by an act of congress in 1902 and her keel was laid last year at the yards of the Newport News shipbuilding and dry dock company. According to contract the vessel will be ready for delivery to the government within twelve months from date, and will cost \$1,740,000.

MEDICAL LAKE SALTS
 NOT A CATHARTIC — NOT A PATENT MEDICINE.

So long as Medical Lake can Provide
 the requirements of an enfeebled constitution, you need not suffer. Here are Nature's own remedies, direct from the hand of the Great Creator, brought to you in the shape of pleasant, agreeable, health-giving Salts, composed of an own process. They have lost absolutely no virtue—no strength. By analysis, the waters of Medical Lake contain twenty ingredients, each and all standards of the pharmacopoeia. By analysis the Salts have the same in exactly the same proportions. Nature has compounded them so efficiently that man has tried and tried in vain to make them. But she can never create such nature, when nature evolves a masterpiece. That the Salts are a masterpiece, their history proves. To Medical Lake, a little world, land gem hidden high up in the mountains, among the forests of Washington, the Indians for centuries came. Here they worked, and drank of the pleasant waters. The well were made stronger and thrived on the delicious beverage, and the sick and ailing were restored. In all diseases of the BLOOD, RHEUMATISM, NEURALGIA, MALARIA, and in all cases of KIDNEY and LIVER TROUBLE, MEDICAL LAKE SALTS WILL MAKE A CURE, if taken faithfully, yes, cure as sure as the sun rises. Man, with all his learning and his cunning, his experience and his skill, cannot make remedies like these, which nature freely gives.

25 CENTS, 60 CENTS AND \$1.00 A BOX, AT DRUG STORES

The Salts are also reduced, as a convenience, to Tablet form, five grains in each Tablet. Such a Tablet dropped into a glass of water, makes a remedy for the same troubles and at the same time an equally delightful cooling beverage.

ALL HAIL, THE MICROBE.

Go draw the curtains, sister, and stop up all the chinks. For microbes and bacilli are knocking up high jinks. Go sterilize the water and disinfect the cook. The germ is grimly stalking like some pursuing spook! And while you're doing these things You'd better do 'em twice. And when you've got 'em finished Go down and boil the ice!

Be careful of the mutton; oh, guard you well the meat! It's full of varied microbes we would not care to eat. And trace the antecedents of that seductive slice: We know not how much danger is lurking in the brew! Go vaccinate the oatmeal And sulphurize the rice. And once again, dear sister, DON'T fail to BOIL the ICE!

Oh! Knowledge all upsetting! Once we were biting and free And didn't build our fears on microbes we couldn't see. But science has exposed 'em, and now they're everywhere. They're poisoning the stuff we eat; they're masters of the air! If we neglect to heed 'em, They'll have us in a trice. So, sister, dearest sister, after you have finished reading that romance in three acts, entitled "The Deadly Germ; or, The Scientific Solar Plexus," and after you have drawn the curtain, stopped up the chinks, sterilized the water, disinfected the cook, examined the mutton and secured the history of the stew. GO DOWN AND BOIL THE ICE!

EAST OREGONIAN UNKNOWN NUMBER GUESSING CONTEST
 Every Subscriber to Have an Opportunity to Guess on a \$100 Rubber Tired Buggy

As an Expression of Our Good Will Toward our Subscribers and to Increase our Subscription List

We Will Give Away, Absolutely Free, a Cushion-Tire Buggy now on Exhibition in the Show Window of the A. Kunkel & Co. Implement House, Two Doors South of the East Oregonian Building.

The East Oregonian has purchased from the A. Kunkel Implement Co. a \$100 cushion tire buggy. It is a beauty, strong, serviceable and well finished. For each year's subscription to the Weekly at \$1.50 or for every similar amount paid on the daily or semi-weekly the subscriber is entitled to one guess at an unknown number of three figures, that will be placed in a sealed envelope. This is not a drawing, lottery, or gift enterprise of any kind.

How to Participate.
 Each receipt for \$1.50 for the Daily, Weekly or Semi-weekly East Oregonian, to any address, the person to whom the receipt is issued, will be given an opportunity, absolutely without cost, to have a guess at the unknown number, and the person or persons guessing nearest that number will receive as a present and without any compensation whatever, and merely as an expression of good will on the part of the East Oregonian toward its subscribers, the \$100 cushion tire buggy advertised in this paper and on exhibition at A. Kunkel & Co.'s Implement house two doors south of the East Oregonian building.

For each \$1.50 paid the holder of the receipt will have an opportunity of making one guess. For example if you send \$1.50 for one year's subscription to the Weekly or \$2.00 for one year's subscription to the Semi-weekly you are entitled to one guess. If you pay \$5.00 for one year's subscription by mail to the Daily you will get three guesses. If you pay \$7.50 for one year's subscription to the Daily delivered by carrier you will get five guesses, or if you pay \$3.75 for six months of the Daily by carrier you are entitled to two guesses.

No commission is allowed to any agent or collector for securing subscribers under this offer, and the person so subscribing does it with the understanding that the East Oregonian is accepted as payment in full for the money paid.

Unknown Number—How Prepared.
 Monday, January 18, the following committee of business men met at the office of the East Oregonian and formed the unknown number that will get the \$100 rubber-tired buggy. The committee consisted of M. A.

Rader, the furniture man, E. T. Wade, the real estate dealer, G. A. Robbins, proprietor of the Owl Tea House, Glenn Winslow the jeweler, and A. Kunkel, the implement man.

Ten numbers from one to naught were cut from a calendar. These numbers were sealed up in 10 different envelopes by the committee. The 10 envelopes were placed in a hat and thoroughly shuffled and shaken. Three members of the committee then took out one envelope each, which were marked one, two, three, in the order in which they were taken out.

These three envelopes were then placed in a larger envelope and sealed and a wax seal placed on the flap and delivered to the chairman of the committee, M. A. Rader, to keep until the day the buggy will be drawn. The remaining seven envelopes containing the other numbers were then burned in the presence of the committee, thus insuring an absolutely unknown number.

Each and every one of the committee was thoroughly satisfied with the absolute fairness of the method of selecting the unknown number, and signed the following statement:
 "We, the undersigned, were present at the East Oregonian office Monday afternoon, January the 18th, and assisted in forming the unknown number according to the plan published, to be used in the East Oregonian guessing contest.
 "Under the rules of forming the number, it is impossible for anyone, not even the members of this committee, the publishers of the East Oregonian, or anyone else to know what the number is."
 (Signed.)
 E. T. WADE,
 A. KUNKEL,
 M. A. RADER,
 GLENN WINSLOW,
 G. A. ROBBINS.

Upon the day when the envelope is to be opened and the buggy awarded to the person guessing nearest to the number, the numbers will be assembled in the order in which the envelopes are marked. It may be as low a number as 012 or as high as 987. As a matter of course, it must be three different figures, as no figure was used twice. Somebody will get a splendid \$100 present when the 975 receipts have been given out. The unknown numbers will be

formed by putting together the numbers in the order as marked, two, three, on the envelopes on which they are contained. The unknown number will not be assembled until the guessing contest is complete, hence no one will know what it is until it is publicly announced to subscribers.

Limited Competition.
 The number of receipts issued for this contest will be limited to a number of guesses possible in a range of the numbers between and 987, and the unknown number must be composed of a figure within those limits. The unknown number cannot be less than 012 nor more than 987.

To be a perfectly fair and legitimate guessing contest the number to be guessed at must be and remain absolutely unknown. There must be no chance for the East Oregonian, the committee, or any subscriber to know the number and this plan insures that result.

The receipts for this guessing contest will be numbered in duplicate but the stub will be only for the purpose of identifying the subscriber who is the successful guesser—subscriber writing the guess number on the back of his receipt—each making his or her own guess at the unknown number. As soon as the receipts are all sold the guessing contest will be over and the number awarded the buggy.

How the Guesses are Made.
 Upon securing a receipt for \$1.50 the person wishing to guess will write his guess on a small piece of paper in ink or indelible pencil, writing one guess on each receipt, and depositing the same in the sealed box provided at the East Oregonian office for that purpose. Subscribers out of town will be allowed to mail their guesses in the same manner, and send the same in a sealed envelope plainly marked "East Oregonian Guessing Contest," and they will be deposited in the box. The sealed box will not be broken until the receipts in the guessing contest are sold—975 receipts in all.

Subscribers can get their receipts any time after the committee has met and drawn the three numbers which will give the lucky holder of the receipt with the same number the
