GOOD SHOES CHEAP

STORE NATURAL ICE

O. R. & N. COMPANY WILL FOLLOW USUAL CUSTOM.

Railroad Storehouse at Pendleton Will Hold Six Hundred Tons—Ice Will Be Brought From North Powder — Storage Chambers Now Empty and Company is Using Cold Storage Ice.

During the latter part of this week or the first of next, the O. R. & N. will start its track department workmen on the task of filling the company's ice house in this city. It will hold 600 tons of ice, and heretofore it has been the habit of the company to fill the building each winter from the North Powder. This year it is not thought that the usual amount will be placed here for the reason that it is only the train service that has to be met, while at the other points along the road there is a large amount of refrigerator business that has to be attended to.

The house here is now empty, and the company is using ice from the cold storage plant to fill the tanks of the passenger trains that pass through here.

At Walla Walla and Riparia the houses have been enlarged, the increased capacity being made necessary by the larger fruit shipments that have been made and are expected in the future. At Huntington, while the house has not been altered it will be filled to its utmost capacity.

F. & S. Cough Syrup

Will stop that Cough and Cure that Cold. It is Sure to reach THE RIGHT SPOT.

TALLMAN & CO. Leading Druggists

ity, in order that there will be sufficient stock on hand during the summer to replenish the refrigerator cars that pass through that place on their way East.

The ice is plentiful this year, though during the last week it sank under the workmen and put a stop to further proceedings for a time.

AT ASSEMBLY HALL.

Varied and Attractive Program by High School Students.

Friday evening the pupils of the high school will present their regular Friday evening program to their friends at the assembly hall. The program is a good one, and doubtless will meet with the flattering reception that has been accorded to those previously rendered. The numbers for Friday evening are:

- Music—High School Orchestra.
- Debate—Resolved, That further annexation of territory is not for the best interests of the American people. Affirmative, James Reeves and Earl Archibald; negative, Ed Forest and Francis Jackson.
- Essay—Sybil McDaniel.
- Recitation—Delva St. Clair.
- Essay—Flora Oman.
- Recitation—Lella Crooks.
- Speech—Carl Ford.
- Recitation—Bernice Ruppe.
- Recitation—Anna Baseler.
- Recitation—Jessie Raymond.
- Gratton—William Wyrick.
- Recitation—Willie Milne.
- Critic's report.

Heavy Snows at Alba.

Lonzo Downs, one of the well known ranchmen of Camas prairie, was a business visitor in the city today. He reports the snow to be from eight to 10 inches deep in the vicinity of Alba and much deeper in the timber.

Train up a child in the way he should go and when he is old he will not go to congress unless he has a chance.

THE BUTTER TRADE

PROSPECTS FOR CREAMERY IN PENDLETON PROMISING.

Commercial Cream Company Will Look Over the Field Next—Pendleton Best Creamery Location in Northwest if Farmers Will Furnish Cream—Some Outside Concern Liable to Make the City Nothing But a "Cream Station."

George D. Goodhue, representative of the Commercial Cream Company, of Salem, is in the city today, en route to La Grande, to assist in the opening of a new creamery at that place, and will return to Pendleton the first of next week to look over the field in Umatilla county.

He has just returned from a business trip to Lewiston, where his company will probably start one of the largest creameries in the Northwest, and is pleased with the outlook there.

Mr. Goodhue regards Pendleton as the most favorable creamery town in the entire Inland Empire, if the farmers will take sufficient interest to furnish milk for such an industry. It is the distributing point for a larger territory than any other city in Eastern Oregon, with possibilities for expansion of trade every year, and if the business men and farmers do not take sufficient interest to support a home creamery, some large concern will soon make Pendleton simply a "cream station," and all the butter will be imported from outside points as in the past, and the cream produced in the vicinity will be shipped elsewhere to be manufactured into butter, instead of furnishing employment to a large number of people in this city, in that industry.

About 100 cows have now been pledged to the creamery proposition here, and if enough can be found to justify the business a first-class institution will be built here in the immediate future.

Pendleton has the largest retail butter trade in Eastern Oregon and with the exception of small quantities made by scattering farmers, the entire amount used is imported. All the money spent in making Pendleton's butter supply would be spent among home business men if a creamery were built here.

WANTED—WEATHER OBSERVER

Pendleton the Only Large City in the State Without Regular Weather Reporter.

District Forecaster A. E. Beals, of Portland, has sent out an inquiry for a local weather observer in this city. Since Roscoe Bryson left the city the weather has attended to itself, and no reports have been sent in to the district headquarters at Portland. Mr. Beals is very desirous of finding some person who will make regular reports to his office on weather and crop conditions from Pendleton, and will send out the necessary blanks and turn over the office barometer and rain gauge at any time, to the person desiring the honor. (P. S.—There is no salary attached to the position, but it is a government job.)

WILL PAY FOR NAMES.

Primary Nomination League Offers Five Cents Per Name for All Registered Petitioners.

In order to hurry up the work of circulating the petitions for the direct nomination amendments, the league has offered five cents per name for every name of a registered voter sent in on the petitions, before February 6th.

Nearly every voter approached on the subject is in favor of the amendment and will sign the petition if presented to him, but does not take sufficient interest to go to the clerk's office and sign the petition voluntarily.

The petitions can be secured at the county clerk's office and any person desiring to spend a few days' soliciting signers will be repaid for the work by the price offered by the league. The petitions should be returned to the county clerk, or forward to W. S. U'Ren, Oregon City, not later than February 4, so they may be filed with the secretary of state by February 6.

STRICKEN WITH CATALEPSY.

Traveling Harness Maker Was Taken to Poor Farm.

William Williams was removed from the Wheeler lodging house yesterday afternoon in a cataleptic state and taken to the county poor farm. Wheeler is a harness maker by trade and came here a short time ago to work in the Smith harness works on Court street. He has no relatives or friends in this country, having come here but a short time ago.

For a time he was in the Canadian mounted police, and after leaving that service went into the United States regular army, being discharged from the service for physical disability. He will be kept at the poor farm until further disposition is made of him.

"HOLY SPIRIT."

This Topic Drew a Large Audience Last Night.

Dr. Martin discussed this much abused subject at the First Christian church last night to a large and appreciative audience. The speaker gave the Bible teaching on the work of the holy spirit in conversation and illustrated the subject in many simple but forcible ways.

The services each evening are very instructive and uplifting. Miss Springer's solos are always impressive.

Tonight Dr. Martin gives his great lecture on "Marriage and Divorce." This lecture is amusing, instructive

and impressive. No one can afford to miss it. Services each evening at 7:30. The public is cordially invited.

GRAND MASTER IS HERE.

Head Official of the O. W. Fellows Will Meet With Both Local Lodges Tonight.

Joseph Micelli, grand master of the Odd Fellows of Oregon, arrived from Union this morning, on an official visit to the thriving lodges of the order in this city.

Mr. Micelli is making an official tour of the state and just visited several lodges in the eastern portion and is now on the return trip to his home in Roseburg.

He will meet with both lodges here tonight, at I. O. O. F. hall at 7:30, at which time both teams will exemplify the work of the order and receive instructions from the grand master.

Mr. Micelli finds the order in a most prosperous condition in the state. There are now 176 lodges of the order in Oregon, with a membership of 11,000, and new lodges are being organized regularly at different points, besides the encouraging increase in membership in all the old established lodges.

POLICE COURT.

Jessie Howard Defended Her Own Case on Plea of Not Guilty.

Jessie Howard was drunk on the street yesterday and the marshal had at last to load her into a dray to get her to jail. This morning she pleaded not guilty in the police court, and defended herself. She said she had but two glasses of beer, and that she wanted to walk by the side of the officer, falling in which she refused to walk at all. She was fined \$10 and left the court in search of an attorney to appeal the case to the circuit court.

One Indian was given three days for being drunk on the street last night.

MISS SUMNER ILL.

Suffering From Severe Attack of Cerebro Spinal Meningitis.

Miss Bertha M. Sumner, the general organizer of the Women of Woodcraft, who was in the city a short time ago, has been taken to the North Pacific Sanatorium at Portland, suffering from cerebro spinal meningitis. While making the trip into the Coos Bay country Miss Sumner caught a severe cold and the attack followed. She is now improving, but has been critically ill at Coos Bay for a month, and was removed to Portland by boat.

TOUR OF INSPECTION.

Officials of O. R. & N. Will Go Over the Washington System.

D. W. Campbell, the assistant superintendent of the Washington division of the O. R. & N., with headquarters at Tekoa, was in the city yesterday and left this morning in company with W. Hoons, superintendent of the track department, for Walla Walla. They will make a tour of inspection over the Washington division of the O. R. & N.

AT FROOME'S STABLE.

Professor Haw Will Give His Free Exhibition of Horse Training.

Professor Haw, the horse trainer, will give his free exhibition at Froome's livery stable, opposite the postoffice, this evening, and every evening this week. The change in location from Jay & Jensen's blacksmith shop to Froome's stable is because of more floor surface at the latter place.

Yard Force Reduced.

One switchman on the O. R. & N. yard force has been laid off for a time until the spring rush begins. J. J. Lally, being the youngest man on the force has been laid off, leaving Yardmaster Leonard and Ralph McDonald to handle the work at the present.

Moved to Seattle.

Mr. and Mrs. Thomas Gahagan left this morning for Seattle, where they will reside in the future. Since being in the city both Mr. and Mrs. Gahagan have made a large circle of friends who will be sorry to see them leave.

It is stated that the recent unsuccessful strike of 100,000 textile workers in Philadelphia caused a loss of \$12,000,000 to the manufacturers and \$5,000,000 to the employees. One result was the introduction of labor-saving machinery which displaced 2,600 men.

To prevent Colds, Chills, or Malaria there is nothing so sure as the Bitters. It tones up the system, stirs up the sluggish blood and positively cures Sick Headache, Dizziness, Insomnia, Indigestion, Dyspepsia and Constipation. A fair trial will convince you.

Are You Fagged?

That run-down feeling is caused by your over-worked digestive organs not doing their work properly. Set them right, reinvigorate your system and restore sound and lasting health by using

Beecham's Pills

Sold Everywhere. In boxes 10c. and 25c.

PICTURE FOR SCHOOLS.

Art Exhibit Committee Receives Notice of the Award.

The Pendleton art exhibit committee received word yesterday from the Turner Art Company that they had ranked 13th in the art exhibit prize contest and would be entitled to a picture valued at \$10.

The committee decided to place this in one of the school rooms that has been added since last year, as all others have been provided for.

The recent action of the City Improvement League in turning over a fund of \$73.35 to the art exhibit committee, as stated in the motion, "for the purpose of framing the pictures," will be heartily appreciated by the clubs. This money comes as a surprise to the clubs as it was not known that this fund was available.

Regular Council Meeting.

The city council will meet this evening. It is thought that it will be an uneventful session, as there is nothing in sight to cause especial interest. At this meeting the bids of the different papers which desire the city printing will be opened and a choice made.

BIG Remnant Sale

We have just completed our invoice and find an immense assortment of Remnants. All kinds of goods sent. Gingham, Woolens, Ticks, Sheetings, Ribbons, and a thousand and one other things.

COME AND BUY THEM CHEAP

We will also during this sale make a great clean up of all grades

It has been the most successful year since 1903.

Again thanking one and all,

ST. JOE STORE

Leaders of Low Prices in Pendleton

Notice to Dry Goods Buyers

This is the last week of the Closing-out Sale of Dry Goods at the Boston Store in the present store room. All this week lowest closing-out cut prices for "ends of lines," "remnants," "odd pairs," and "take all that's left at a price," will prevail. Think twice before spending once, and you will go to the Boston Store, if economically inclined. Next week we open our Shoe stock in north room and ask your kind indulgence. Our system of good fitting, appearing, and wearing shoes at popular prices will be more noticeable than ever.

The Boston Store

PLUMBING
Our Work and the Best
Will stand comparison with the best of them. The work is as neat as a human can attain—therefore as cheap as anybody can expect. We do all kinds of plumbing and gas fitting—charge you not immoderately—our estimate on your next need is our line.

W. J. CLARKE & Co. 211 Court Street

YOUR PLUMBING

Have it done by a Scientific Plumber and you will not be bothered with bad breaks. Let us figure on your work.

BECK, THE PLUMBER
COURT STREET

HOW DO YOU expect people to know you have to sell if you know unless it advertises

F. S. YOUNGER & SON

Once Tried Always Used

will produce more cups of the desired strength than the consumer gives it credit for, and for that reason true economy prompts its purchase. The "per cup" cost of "Revere" coffee at 40c a pound is no more than when a 25c grade is used. The incomparable flavor, rich aroma and satisfying body cost absolutely nothing extra.

USING LESS TO THE CUP

"Too strong" is not the same as "too rank." The latter is a fault that often characterizes weak coffee, and nearly always characterizes very cheap grades. "Too strong" simply means that

REVERE COFFEE

The only complaint we have ever heard about "Revere" Coffee came from a consumer who said it was "too strong." "Too strong" is a highly laudable fault in a Coffee, and one easily remedied by

One that true economy must endorse
