

GROWING LENGTHWISE

You want the children to grow, but not all lengthwise. When they start that way Scott's Emulsion will help them to grow right—with due plumpness and outward proportion, and with inward vigor and good spirits.

The Emulsion increases digestive power and strengthens the vital organs to get the best and make the most out of all the other food. It gives a kind of help that every growing child ought to have.

WOULD ROB THE CHURCH.

Smooth Gaffer Works Lewiston People on Ticket Swindle.

Lewiston, Jan. 28.—A man giving his name as Thomas Sheehan was arrested yesterday evening by Deputy Sheriff Monroe on the charge of obtaining money under false pretenses.

When arrested, Sheehan was trying to negotiate the sale of tickets on property alleged to be offered as a premium by the Catholic church.

An investigation revealed the fact that Sheehan had come into possession of the tickets for his own personal gain, and not for the hospital fund of the church, as represented.

Earlier in the evening Sheehan had been seen trying the door at the Bethel jewelry store and when arrested and searched a skeleton key was found in his possession. Sheehan admitted that he had been released from the penitentiary at Deer Lodge, Mont., but a few months ago, but would make no statement of his doings since arriving in the city.

MILLIONS IN BONES.

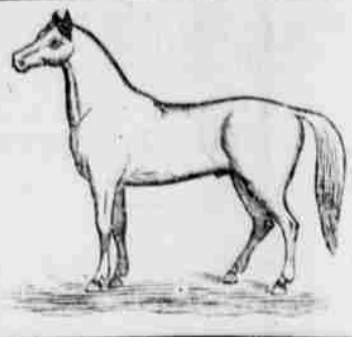

Estimated That the Bones of 31,000,000 Buffalo Have Been Gathered From Kansas Plains.

Barring the dreadful stampede, which good judgment could avoid and the occasional charge of an enraged bull to escape his tormentors, or some fretted cow to protect her calf, the killing of buffaloes was a sport without peril, and a business void of hazardous incident, carried on with such ruthless, wasteful and unnecessary destruction that the memory of it excites pity, indignation and disgust of the present generation.

In Kansas alone between 1858 and 1881, \$25,000,000 was paid out for bones gathered on the prairies and sold to be utilized in various carbon works. It took 100 carcasses to make one ton of bones, the price of which was \$8. So this vast sum represents 31,000,000 buffalo, or more than one-half of the total number of all the cattle in the whole United States in 1902.

On the Santa Fe trail and miles away, too, from the usual course of travel, as Major Inman relates, in some places one could walk all day long on the dead bones of buffalo without touching foot to the ground.—Exchange.

It is difficult in Germany for a professional rogue to enter a family as a domestic servant. There every servant has a character book, in which the mistress must enter the dates of the coming and leaving of the servant, with her character while in the service. This the girl is obliged to take to the nearest police station and have it dated with the official stamp, thus preventing the manufacture of fake recommendations.
