

PAUL GILMORE
THE MUMMY AND THE HUMMING BIRD
SCENE FROM ACT 3

PAUL GILMORE.

Mummy and the Humming Bird at the Frazer.

Manager Taylor announces one of the most important "bookings" of this season, the big New York and London success, "The Mummy and the Humming Bird," which has never been seen outside of the American and English metropolises until this season and which will be presented at the Frazer on Feb. 5, with Paul Gilmore, who made such a hit last season in "The Tyranny of Tears," in the stellar role.

Manager Jules Murry, who controls the American road rights to "The Mummy and the Humming Bird," has purchased the entire New York Empire production intact—scenery, electrical effects, properties,

etc., and all these will be used in the engagement in this city. Mr. Murry, in addition to directing the tour of the Paul Gilmore company, also manages Lewis Morrison, Rose Coghlan, Marie Wainwright, Sadie Martinot and Kathryn Kidder.

If you have any doubts about it, read the card of criticism from the Eastern newspapers in Tallman's drug store window. You will be convinced.

Ten Nights in the Barroom. The old fashioned folks are delighted to know that this favorite is to come to the Frazer on Tuesday night. It is a touching, thrilling production, filled with keen interest to old and young alike and is never failing as a moral teacher and stimulant.

UNIQUE DISPLAY.

Beautiful and Remarkable Layout for World's Fair.

St. Louis, Mo., Jan. 20. — One of the most interesting and instructive state exhibits to be seen at the approaching world's fair undoubtedly will be that of Louisiana, which is now fast assuming shape. Not content with reproducing the historic Cabildo, where the actual transfer of the Louisiana purchase territory took place one hundred years ago, the Louisiana state fair commission has decided to lay out the plot of ground surrounding this building so as to resemble in every particular the fa-

mous Jackson Square of New Orleans.

The Cabildo itself will undoubtedly be one of the most interesting structures on the grounds. Its furnishings throughout will be of the period of the early part of the nineteenth century and will include many fine specimens of old furniture loaned by the old French and Spanish families of New Orleans. In addition it will contain many priceless relics of the Spanish and French occupation of the Louisiana territory.

Riots resulting from election excitement at Cienfuegos, Cuba, resulted in one man being killed and several wounded.

MONEY IN FEEDING

HOG RAISING EXPERIMENTS SHOWED GOOD RESULTS

W. J. Townley, of Union, Furnishes Some Interesting Figures to Col. R. C. Judson, Industrial Agent of the O. R. & N.—Facts Are Worth Considering by Farmers.

The following hog feeding experiments are taken from Col. R. C. Judson's report on the industrial experiments of the O. R. & N. Company for the past year.

The figures are taken from actual accounts kept by the farmers mentioned in the report. Mr. Judson says:

"After a series of feeding experiments dating over about eight weeks, W. J. Townley, a prominent hog raiser of Union, says he has demonstrated that he can secure \$42.05 worth of pork with \$28.66 worth of food. He selected six hogs of about equal possibilities for the experiment, separated them into three pens of two each, giving each pen separate classes of feed. To the first pen he fed a mixture of two parts shorts and one part bran for a period of 62 days. To the second he fed chopped feed for 49 days. To the third pen he fed a mixture of shorts, chopped wheat and bran in the ratio of 10 to seven to three.

Mr. Townley has just made out a summary showing that the six hogs ate 2,829 pounds of various kinds of feed during the experiments. The aggregate cost of this feed at current prices was \$28.66. The gain pork was 647 pounds, which at \$6.50 per hundred weight, is \$42.05.

The first two pigs, fed for 62 days on a mixture of two parts of shorts and one of bran, consumed 1,198 pounds and made a total gain of 232 pounds, an average gain of 1.87 pounds a day. This mixture cost 85 cents a hundred weight and it took 5.03 pounds of it to make one pound of gain. At this rate the cost of 100 pounds of gain was \$4.34.

The second pair, fed for 49 days on chopped wheat, ate 792 pounds of food and gained 211 pounds a day. This food cost \$1.25 a hundred weight, and it took 3.83 pounds to make one pound of gain. This brought the cost of making 100 pounds of pork up to \$4.24.

The third pair, fed for 49 days on a mixture consisting of 10 pounds of shorts, seven of chopped wheat and three of bran, ate 869 pounds, and gained a total of 208 pounds, an average of 2.12 pounds a day. This mixture cost \$1 a hundred weight, and it required 4.18 pounds for one pound of gain. This left the cost of gain \$4.18.

Mr. Townley claims that each bushel of clean milling wheat fed these pigs, produced \$1.10 worth of pork, besides increasing the value of the original carcass \$1 a hundred weight."

TRUTH ABOUT THE DEAD SEA.

Popular Reports About the Historic Spot Cleared Away.

So many false and foolish reports about the Dead Sea—that strange and interesting lake—have been circulated lately, that the truth will, no doubt be acceptable. Since the earthquake in Palestine last April, some one circulated the story that the mouth of the River Jordan had been so affected by the shock that the level of the river had been altered to such an extent that at the place the historic river goes into the Dead Sea there was now a waterfall of considerable depth and strength.

This is altogether false, and no change whatever has taken place at or near the mouth of the Jordan. The writer has just spent some days there, and made it his special business to investigate this matter. Much has also appeared from time to time in papers and periodicals about steamboats navigating the Dead Sea.

This, too, is a fabrication. The only boat on the Dead Sea is a small sailing boat about 20 feet long. This vessel makes trips as the wind allows, from the north end of the sea to the bay on the eastern side of the tongue that divides the water near the middle. Here at this terminus some Jews are located. The whole concern is, in fact, in the hands of Jews, who, at a low rate, buy wheat and barley from the Arabs, to be delivered on the seashore.

From there it is shipped to the Jericho side, and carried on donkeys to Jerusalem, where it finds a ready sale at a good price. When reverse winds blow, the little craft is in danger of being swamped, for the so-called Dead Sea becomes a living mass of waves. The writer recently spent four nights, such as never will be forgotten on these waters, and the smartness of the old man at the helm and his boy with the sails saved us from being wrecked again and again.

A charge of one mejeide (82 cents) a trip is made for each passenger, and for such a unique voyage it is not exorbitant. There is some talk about a small steam tug being put on the sea, but the authorities are loth to grant permission. It will be a great boon when, if ever, it does arrive, as it will bring the east and west sides of Jordan nearer to one another for communication and trading purposes.—London Graphic.

A FEW WORDS ABOUT PEARSON'S MAGAZINE FOR 1904

PEARSON'S MAGAZINE appeals to every member of the family. In the words of a subscriber, "It is the easy-to-read Magazine." It is different from any other magazine, and by that quality, although less than five years old, has taken its place amongst the very best sellers. Its field is a general one of wholesome entertainment and instructiveness.

Following are four of the special features for 1904:

- WALL STREET METHODS OF "FINANCE" By HENRY GEORGE, J. A number of true accounts of some of the Wall Street "deals" by which the savings of the many have been sacrificed to satisfy the cravings of the few. Read these articles and realize the wisdom of the advice of the late Governor Roosevelt. It flows to a party of his friends to "keep your money in your pocket."
- MODERN INDIAN WARS By CYRUS TOWNSEND BRADY A brilliant and thrilling history of the hostile frontier of the past forty years, giving justice to the public service of such men as Miles, Lawry, Cannon, Fuyshing, Curtis, Larsson, McKennie, Howard, Wharton, Davis, Sully, Baker and others—taking Indian rights out of the category of boys' story books and dignifying them with their proper place in the history of our nation. A series of six or eight articles.
- TOM NAST, CARTOONIST By ALBERT BIGELOW PAINE Illustrated by the cartoonist of the world-famous cartoons of the man who has been described as the greatest master of public opinion since Homer. The biography of Nast is certainly a world's picture of the times when "NAST" was at the making.
- The Overthrow of the Tweed Ring—The Civil War Period—The Horrors of Slavery—The Reconstruction Period—The Groesley Presidential Campaign—The Garibaldi Campaign in Italy—The Great Hoopoe-Swifts Fight in London—The Blaine Presidential Campaign are a few of the important headings upon which the series of six or eight papers are built.
- THE REVELATIONS OF AN INTERNATIONAL SPY Which ran in Pearson's through the first six months of 1903, will be reprinted in January, 1904. This new set of detective stories has been arranged for in response to the demands of thousands of readers who regretted the termination of the first series. The author still stipulates that his name must remain a secret.

EAST OREGONIAN UNKNOWN NUMBER GUESSING CONTEST

Every Subscriber to Have an Opportunity to Guess on a \$100 Rubber Tired Buggy

As an Expression of Our Good Will Toward our Subscribers and to Increase our Subscription List

We Will Give Away, Absolutely Free, a Cushion-Tire Buggy now on Exhibition in the Show Window of the A. Kunkel & Co. Implement House, Two Doors South of the East Oregonian Building.

The East Oregonian has purchased from the A. Kunkel Implement Co. a \$100 cushion tire buggy. It is a beauty, strong, servicable and well finished. For each year's subscription to the Weekly at \$1.50 or for every similar amount paid on the daily or semi-weekly the subscriber is entitled to one guess at an unknown number of three figures, that will be placed in a sealed envelope. This is not a drawing, lottery, or gift enterprise of any kind.

How to Participate

Each receipt for \$1.50 for the Daily, Weekly or Semi-weekly East Oregonian, to any address, the person to whom the receipt is issued, will be given an opportunity, absolutely without cost, to have a guess at the unknown number, and the person or persons guessing nearest that number will receive as a present and without any compensation whatever, and merely as an expression of good will on the part of the East Oregonian toward its subscribers, the \$100 cushion tired buggy advertised in this paper and on exhibition at A. Kunkel & Co's. Implement house two doors south of the East Oregonian building.

For each \$1.50 paid the holder of the receipt will have an opportunity of making one guess. For example if you send \$1.50 for one year's subscription to the Weekly or \$2.00 for one year's subscription to the Semi-weekly you are entitled to one guess. If you pay \$5.00 for one year's subscription by mail to the Daily you will get three guesses. If you pay \$7.50 for one year's subscription to the Daily delivered by carrier you will get five guesses, or if you pay \$3.75 for six months of the Daily by carrier you are entitled to two guesses.

No commission is allowed to any agent or solicitor for securing subscribers under this offer, and the person so subscribing does it with the understanding that the East Oregonian is accepted as payment in full for the money paid.

Unknown Number — How Prepared. Monday, January 18, the following committee of business men met at the office of the East Oregonian and formed the unknown number that will get the \$100 rubber-tired buggy. The committee consisted of M. A.

Rader, the furniture man, E. T. Wade, the real estate dealer, G. A. Robbins, proprietor of the Owl Tea House, Glenn Winslow the jeweler, and A. Kunkel, the implement man.

Ten numbers from one to naught were cut from a calendar. These numbers were sealed up in 10 different envelopes by the committee. The 10 envelopes were placed in a hat and thoroughly shuffled and shaken. Three members of the committee then took out one envelope each, which were marked one, two, three, in the order in which they were taken out.

These three envelopes were then placed in a larger envelope and sealed and a wax seal placed on the flap and delivered to the chairman of the committee, M. A. Rader, to keep until the day the buggy will be drawn. The remaining seven envelopes containing the other numbers were then burned in the presence of the committee, thus insuring an absolutely unknown number.

Each and every one of the committee was thoroughly satisfied with the absolute fairness of the method of selecting the unknown number, and signed the following statement:

"We, the undersigned, were present at the East Oregonian office Monday afternoon, January the 18th, and assisted in forming the unknown number according to the plan published, to be used in the East Oregonian guessing contest. "Under the rules of forming the number, it is impossible for anyone, not even the members of this committee, the publishers of the East Oregonian, or anyone else to know what the number is. (Signed.)

E. T. WADE, A. KUNKEL, M. A. RADER, GLENN WINSLOW, G. A. ROBBINS."

Upon the day when the envelope is to be opened and the buggy awarded to the person guessing nearest to the number, the numbers will be assembled in the order in which the envelopes are marked. It may be as low a number as 012 or as high as 987. As a matter of course, it must be three different figures, as no figure was used twice. Somebody will get a splendid \$100 present when the 975 receipts have been given out. The unknown numbers will be

formed by putting together the numbers in the order as marked two, three, on the envelopes on they are contained. The unknown number will not be assembled the guessing contest is complete hence no one will know what it is until it is publicly announced to subscribers.

Limited Competition.

The number of receipts issued for this contest will be limited to number of guesses possible in range of the numbers between 0 and 987, as the unknown number must be composed of a figure within those limits. The unknown number cannot be less than 012 nor more than 987.

To be a perfectly fair and intimate guessing contest the numbers to be guessed at must be and remain absolutely unknown. There must be no chance for the East Oregonian, the committee, or any subscriber to know the number and this plan insures that result.

The receipts for this guessing test will be numbered in duplicate but the stub will be only for the purpose of identifying the successful subscriber writing the guess on the back of his receipt—each making his or her own guess at unknown number. As soon as the receipts are all sold the guessing test will be over and the nearest guesser awarded the buggy.

How the Guesses are Made.

On securing a receipt for \$1.50 person wishing to guess will write his guess on the back of the receipt in ink or indelible pencil, writing one guess on each receipt, and depositing the same in the sealed box provided at the East Oregonian office for that purpose. Subscribers out of town will be allowed to mail their guess in the same manner. The same in a sealed envelope plainly marked "East Oregonian Guessing Contest," and they will be deposited in the box. The sealed envelopes will not be broken until the receipts in the guessing contest are sold—975 receipts in all. Subscribers can get their receipts any time after the committee has met and drawn the three numbers which will give the lucky holder the receipt with the same number buggy.
