

Thousands Have Kidney Trouble and Never Suspect it.

How To Find Out. Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

What To Do. There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes.

You may have a sample bottle and a book that tells all about it, both sent free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention this paper and don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y.

GOLCONDA STRONG

STANDING AND PURPOSES OF THE COMPANY STATED.

Its Affairs Were Not Unfavorably Affected in the Slightest Degree By the Wade Failure - The Property is Owned Principally by Pendleton People - Good Advice by T. G. Hailey.

"The Golconda mines will not close down," remarked Thomas G. Hailey, of Pendleton, the president of the company, Saturday night to the Baker City Herald.

"Colonel Raley and myself have just returned from Sumpter, where a complete examination of the conditions of the mines was made, and there will be no change whatever. The men were instructed to go ahead on full capacity and no cessation will take place in the development.

"I went through the mines myself, and examined them in every detail. We are thoroughly satisfied and will so report to the other stockholders. The men were a little uneasy from what they had seen in the papers and were afraid that we would close down, and they were very much pleased when we informed them that there would be no cessation in the development work.

"The idea crept out that the mines were in trouble through the exaggerated reports of Mr. Wade's financial embarrassment. As a matter of fact this did not affect the mines in the least. The stock of a mine may be sold here and there and float about the country and be exchanged a thousand times but that does not affect the mines. Because a stockholder of a corporation happens to have financial troubles that does not hurt the corporation itself or its property. The stock which the man holds is not hurt. It will find another owner if he is not able to hold it.

"The stock of the Golconda mines is principally owned by Pendleton people. There is very little of it owned outside the state. We have full faith in the enterprise and are not the least discouraged by Mr. Wade's financial troubles. In fact it does not affect the property in the least. We shall go right on developing and improving it and feel confident of results. We feel unusually well satisfied. We are all friends and neighbors and cannot be accused of trying to freeze anybody out.

"And right here," remarked Mr. Hailey, "I am sorry to see the charges made that local residents of Oregon are trying to freeze out investors. I hope it is not true. It will injure the whole mining interests of the state. When you once get it abroad that local men are trying to entice foreign capital into a community for the purpose of dealing unfair with it, it makes all outside capital timid and keeps out money that we need. I hope the people of Oregon are not trying to freeze out men in the east who have placed their money here. It will hurt the state badly."

BUNCOED STOCKMEN.

Smooth Swindler Scoops up \$2,000 at Blackfoot, Idaho.

Several prominent stockmen of Blackfoot, Idaho, are deeply interested in the whereabouts of a smooth horse trader named Leggett, who after scooping up several hundred dollars in notes and checks for a cheap looking cayuse of no apparent value, made his escape.

Leggett went there a few days ago and represented himself as a large dealer in thoroughbred horses. In a few days by the smoothest kind of confidence work, he organized a company of prominent stockmen to buy a standard bred stallion with a mark of 2.75.

The company was to dig up \$2,000 and Leggett was to produce the horses.

So smoothly did he work the game that he got notes or checks from all but two of the victims who formed the company, after which he turned over to them a very cheap looking animal with neither pedigree or record.

The victims immediately tried to stop payment of the checks and notes, but they had already been assigned to the innocent third purchaser, and the parties will have to puntle up. F. P. Roberts, a prominent local business man, created considerable amusement by driving a burro up and down the street with a sign on it offering the animal for sale at \$2,000.

The Horace K. Turner art exhibit cleared \$289 for the Eugene public schools.

AS OLD AS THE PYRAMIDS

That blood poison existed among the ancients has been proven beyond question. It has been traced back thousands of years, and is as old as the Pyramids. This blighting curse has been handed down from nation to nation and from individual to individual till it has spread to all parts of the world.

Contagious blood poison, as it is called in modern times, begins with a small sore or ulcer through which the virus enters the blood. This is followed by inflammation and swelling of the glands of the groins, a red eruption breaks out on the body, sores appear in the mouth and the throat becomes ulcerated, and as the disease takes a deeper hold and the blood becomes more thoroughly infected, the hair and eyebrows drop out, the skin is spotted with copper-colored spots, the bones and muscles ache, and it seems to the victim of this monster scourge there is not a sound spot in the whole body.

The horror of this awful disease can never be told. The one who contracts it suffers in body and mind, and if the poison is not eradicated transmits the taint to his children, and Contagious Blood Poison thus becomes responsible for many of the ills of childhood—Skin Eruptions, Catarrhal Troubles, Sore Eyes, Scalp Disease, White Swelling, Scrofula and others just as bad. S. S. S., the great vegetable blood purifier and tonic, has long been recognized as a radical and safe cure for Contagious Blood Poison. It counteracts the deadly virus and cleanses and purifies the diseased blood, and under its tonic effects the general health improves and soon all signs of blood poison are gone. The strong mineral remedies, Mercury and Potash, which are so often prescribed for the disease, dry up the sores, skin eruptions and all external signs, but leave the stomach and digestion ruined and the system in such condition that the disease usually returns in worse form than ever.

S. S. S. is guaranteed a purely vegetable remedy. \$1.00 is offered for proof that it contains a single mineral ingredient. GARDUI BABIES

Many homes are mere lonely abodes because no children are there. Barrenness exists in almost every case because female diseases have paralyzed the organs of womanhood.

Wine of Gardui imparts health and strength to the diseased parts and makes motherhood possible in thousands of cases where barrenness is supposed to be incurable. Wine of Gardui regulates the menstrual flow and also prevents miscarriage and cures bearing down pains. Wine of Gardui removes the cause of barrenness by making the female organism strong and healthy.

Go to your druggist and secure a \$1.00 bottle of Wine of Gardui. The use of Wine of Gardui will bring happiness to your home.

BRYANT, VA., Feb. 18, 1902.

My daughter-in-law, Lizzie Giles, found great benefit in Wine of Gardui. She had a miscarriage in March 1901, before using your medicine. She was in very bad health, so I persuaded her to try Wine of Gardui. Since then she has had a fine baby boy. Soon he will be three weeks old. She highly recommends Wine of Gardui.

My daughter, Fannie Hudson, also has a fine baby boy by your treatment. She highly appreciates Wine of Gardui.
