expenses for the month have been light, not amounting in the aggregate to more than \$500, which is a light drain on the treasury in proportion to some of the years of the past year, when the city was being built and the bills were totaled more than \$5,000. The outlay has been less, the income has been many times more. For the month the city treasury received \$4,165 from different sources. Heretofore this sum has been much lower, and some of the months the running expenses of the city government, but thanks to the money in from the gamblers and machines by the fines system is a large surplus in the

allowing the bills for the month a resolution was introduced providing that the salary of the marshal be raised from \$85 a month, the change to take effect after the first of the month.

Resolution carried, no one wished to vote against it. After the matter was settled, there was a good deal of discussion. It was stated that in his opinion the salary was a changeable one, and that in a short time ago they raised the salary of the marshal, and now they raise it again. It was thought that there were some who would take the lower figure and see that there were good men who would take the place of the old ones and make good officers and men. He thought that the department should be carried on the same regard for the same mark the contractor enterprise, and for the thought it unwise to pay the labor than was necessary for good service.

Al Razor, of Elgin, Who Killed Ross, Is Not Expected to Live.

La Grande, Feb. 4.—Al Razor, who shot and killed Ross, a logger, at a sawmill near Elgin, last Friday, is not expected to live.

Ross attacked Razor with a peavy or canthook, a long pole with an iron pike in the end of it, striking him over the head and prodding the iron pike through the face, downward through the roof of the mouth, inflicting a horrible injury, from which it seems impossible for him to recover.

It was while Ross was thus assaulting Razor that Razor fired the two shots into Ross' body, which caused his death, some hours later. Ross was a magnificent specimen of manhood, weighing 200 pounds, was six feet two inches tall, broad shouldered and full-chested, and extremely agile and muscular, and was regarded as a giant in strength and skill. The shot which killed him entered his right shoulder and ranged downward into his lung.

MARCUS A. HANNA DANGEROUSLY ILL

Present Stage Followed a Congestive Chill, Experienced Yesterday.

HELD CONSULTATION OF EMINENT PHYSICIANS.

It is feared that the case has developed into a typhoid—Blood analysis will be made—Patient is low physically and depressed in every way, but the physicians look for his recovery—Sleeps only when under the influence of opiates.

Washington, Feb. 4.—Senator Hanna passed a fairly comfortable night, with no return of the congestive chill. Dr. Rixey will hold consultation with New York practitioners this noon.

Result of Consultation.

A consultation lasting an hour, was held this morning by Rixey and Brewer, of New York, and Magruder, of Washington. Brewer treated Hanna during his recent illness in New York.

A sample of blood was taken this morning for analysis, and they hope to arrive at a definite diagnosis. Up to this time Hanna's malady was believed to be la grippe. Fears are now, however, of typhoid.

The physicians admit they are puzzled over the fact that notwithstanding his nervousness and irritability his temperature today is but half a degree above normal. He slept last night only through the heavy administrations of opiates.

Hanna realizes his grave condition and submits unreservedly to the physicians' orders. A further consultation of physicians will be held later in the day and a full report made, so if necessary his brothers and sisters may be summoned.

Expect Recovery.

At 12:30 this afternoon the physicians issued the following bulletin: "At the consultation held this morning no new features were found in Hanna's condition. He is suffering from a recurrent attack of la grippe, with an unusual amount of physical depression. There are no alarming conditions, and no reason to believe recovery will not take place within reasonable time."

Brewer returned to New York on the afternoon train. Rixey and Magruder held another consultation at 8 tonight, at which time it is expected the results of an analysis of Hanna's blood will be known.

More Favorable.

At 2 this afternoon Mr. Hanna's condition is more favorable. He is enjoying some natural sleep.

La Grande, Feb. 4.—Four traveling men who were in the stage wreck between Elgin and Joseph, Wallowa county, last week, arrived in La Grande from Wallowa Wednesday morning. The gentlemen are M. J. Monteith, of Albany; W. H. Casey, San Francisco; W. J. Raymond and T. H. Miller, of Portland. Mr. Monteith sustained several bruises on the shoulder, and it was necessary for him to have Dr. Mollitor, of this city, and Dr. E. B. McDaniel, of Baker City, use an X-ray this morning to determine the exact nature of the injuries. They reported nothing serious, however, but say that he will be unable to use his arm for some time.

Mrs. Charles Henderson, the most seriously injured in the party, is still in a dangerous condition, and is under the care of a doctor and trained nurse at Wallowa. Her nose was broken, right eye gouged out, lip cut, and face all battered up. She was found underneath the sleigh with tons of baggage piled upon her and had it not been for the heroic efforts of the men she would have died in a short time.

Mrs. Foster, of Wallowa, had her right hand badly mashed down to the ankle. She is getting along very well, but will be crippled for life.
