The 17th annual clearance sale which has been in progress at the Peoples Warehouse, and which has marked an epoch in money-saving values given, will be brought to a close earlier than originally advertised, and the last day of this great sale will be Wednesday, February 10.

It behooves economical buyers to take advantage of the few remaining days and buy what they need before the opportunity is a thing of the past. Fix in your mind that next Wednesday the sale closes, and profit by the clearance sale prices while they last.

**Japan's Postal Service.**

The cheapest postal service in the world is that of Japan, where letters are conveyed all over the empire for two sen—about seven-tenths of a penny. This is the more wonderful considering the difficulties of transport over a mountainous and irregular country, which has less than 100 miles of railway, while wagons can pass over only a few of the chief roads and the steamers connect but a small number of coast stations.
