

Thousands Have Kidney Trouble and Never Suspect it.

How To Find Out. Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or something indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

What To Do. There is comfort in the knowledge, so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage, it corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes.

You may have a sample bottle and a book that tells all about it, both sent free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention this paper and don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y.

LECKENBY RETIRES

IS NO LONGER WITH STATE EXPERIMENT FARM.

Differences of Opinion Between Himself and the Board of Managers of the Farm, as to Method of Handling States Seed Crop Led to His Resignation.

Professor A. B. Leckenby, who has been superintendent of the Oregon Experiment farm at Union, since the land was purchased by the state has severed his connection with the state and will return to his home near Olympia, Washington, where he has a choice tract of land, which he will convert into a seed growing farm.

Prof. Leckenby has made the state farm what it is, and leaves a firm and well founded basis for his successor, George Gamble, to work upon. When Prof. Leckenby took the state farm it was largely grown up to wild oats, mustard and weeds, owing to the rather slipshod methods of farming employed by many Grande Ronde farmers. He has brought the land up to the highest cultivation secured many acres to new and wonderful grasses and plants, and had made it a veritable flower garden.

A difference arose between Professor Leckenby and the board of managers, some time ago, over the disposal of the valuable seed crops produced on the farm. Professor Leckenby's ideal was to produce good seeds of all kinds, that would be safe, healthy, sure and well chosen from the best specimens of plants to be found, and sell this seed directly to the farmers, at actual cost of production, so the farmers would receive a direct benefit from the state's efforts at farming.

The board of managers opposed this plan, and desired, at least a portion of them, to sell the entire output of farm and garden seed grown upon the farm, to some wholesale seed house, in Portland or on the Puget sound, for a lump sum, thus doing away with the bother of retailing it out to the farmers at the station, but causing the farmers living adjoining the farm, and in fact all over the state, to pay the wholesale seed house a large profit for the seed grown by the state, for the benefit of the farmer.

This difference of opinion widened until it has been apparent for some time that Prof. Leckenby would retire, as he declared he would not remain in the position of superintendent, and see the seed belonging to the people of the state, and needed by them sold to a wholesale house which would, in turn, reap the profits belonging to the people from the state's own product.

Professor Leckenby, while superintendent of the farm has experimented with hundreds of different grasses, in the effort to find something to replace the bunch grass, now rapidly disappearing from Oregon ranges. His experiments were incomplete at the time of his retirement, but he has made sufficient progress to convince him, that many of the hardy grasses introduced by him on the farm, will accomplish this, and if no other monument is erected in memory of the work of this grand old man, this would be sufficient.

ARKANSAS Y. M. C. A.

Large Number of Delegates to Fourteenth Annual Convention.

Fayetteville, Ark., Feb. 5. - Arriving trains this morning brought scores of delegates and visitors to the fourteenth annual state convention of the Young Men's Christian association. The meeting was formally opened this afternoon with a college conference and the sessions will continue until Saturday night.

H. M. Beardsley of Kansas City, Chancellor Frank Strong of Kansas State University, Stonewall Anderson of Hendrix College and L. W. McGill, secretary of the Tennessee state association, are among the prominent speakers to be heard. The program is the best ever arranged for a meeting of the Arkansas association and the convention promises to be highly successful.

NEW THEATER COMPANY.

Walla Walla Amusement Company Purchases Opera House.

Walla Walla, Feb. 5. - Calvin Helig and Joseph McCabe yesterday transferred their interest in the Walla Walla opera house to the Walla Walla Amusement company, articles of incorporation for which were filed a few days ago in Portland. The incorporators of the new company are Calvin Helig, Joseph McCabe and John Cort.

The change from individual to corporation management does not mean any change in the scheduled shows, except such as might naturally arise from internal reasons nor any radical change in the theater's policy. The Northwest Theatrical association will continue in control of the shows coming here.

FOR WOMEN

Much That Every Woman Desires to Know

About Sanative Antiseptic Cleansing

And about the Care of the Skin, Scalp, Hair and Hands

Too much stress cannot be placed on the great value of Cuticura Soap, Ointment and Resolvent in the antiseptic cleansing of the mucous surfaces, and of the blood and circulating fluids, thus affording pure, sweet and economical local and constitutional treatment for weakening ulcerations, inflammations, itching, irritations, relaxations, displacements, pains and irregularities peculiar to females. Hence the Cuticura remedies have a wonderful influence in restoring health, strength and beauty to weary women, who have been prematurely aged and invalidated by these distressing ailments, as well as such sympathetic afflictions as anemia, chlorosis, hysteria and nervousness.

Women from the very first have fully appreciated the purity and sweetness, the power to afford immediate relief, the certainty of speedy and permanent cure, the absolute safety and great economy which have made the Cuticura remedies the standard humour remedies of the civilized world. Millions of women use Cuticura Soap, assisted by Cuticura Ointment, for preserving, purifying and beautifying the skin, for cleansing the scalp of crusts, scales and dandruff, and the stopping of falling hair, for softening, whitening and soothing red, rough and sore hands, for annoying irritations and ulcerative weaknesses, and for many sanative, antiseptic purposes which readily suggest themselves, as well as for all the purposes of the toilet, bath and nursery.
