

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, or the kidneys themselves break down and waste away cell by cell. Bladder troubles almost always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy. It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address: Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

GENERAL NEWS.

W. E. Sewell, governor of Guam, has resigned on account of ill health.

Two thousand five hundred copper miners at Houghton, Mich., are on strike.

Abner McKinley, brother of the late president, lies dangerously ill at Johnstown, Pa.

The entire southern part of West Virginia is under a sheet of ice an inch thick, the effect of heavy sleets.

Henry O. Havemeyer, president of the American Sugar Refining Company, receives a salary of \$100,000 per year.

Rev. Father Joseph G. Zealand, the noted Jesuit priest and educator, is dead at St. Louis, aged 72 years. He had been priest and teacher 50 years.

Only one failure of a private business firm is so far reported as a result of the Baltimore fire. It is W. C. Stewart & Sons, builders' hardware.

British Columbia has a law taxing all lumber exported to the United States from \$1 to \$5 per 1,000. A suit has been brought to test its constitutionality.

The Greensboro, N. C., college for women, one of the oldest institutions of the kind in the South, has been burned. Loss, \$125,000; insurance, \$40,000.

F. G. Senter, a railroad contractor, at Denver, shot and killed his wife and then himself. They had quarreled and separated and she rejected his overtures for reconciliation.

PACIFIC NORTHWEST NEWS.

Multnomah county has 130 regular employees and a payroll of \$10,780 per month, or \$358 per day.

An unknown assailant fired two bullets through the window of Mrs. Hugh Dennison's home, in Portland, on Thursday morning.

Henry Miller, American consul at Niu Chwang, China, at the seat of the Russo-Japanese war, was formerly a member of the Oregon legislature from Josephine county, and is an Oregon pioneer.

All the furs stolen from the Silverfield fur parlors at Portland, have been recovered. The stolen goods amounted to \$5,000 worth of the finest furs in the house. Matt Cullen and George Kelly are in jail awaiting trial for the theft.

An unknown man was carried out to sea down the Sacramento river, on a log, during the recent flood there. He shouted for help as the log rushed past Redding. Kennet and Keswick, but it was impossible for anyone to reach him, so rough was the water in the stream.

Sam Kohn, a sewing machine agent, committed suicide at Spokane Thursday, by jumping from the Division street bridge into the Spokane river. Kohn was arrested in Montana last summer for being guilty of dynamiting the Northern Pacific bridges, but was acquitted of the charge.

We have some propositions in real estate which are worth your time to investigate. Come in and talk them over with us.

RESERVATION LAWS

DISCUSSED BY MEMBERS
PUBLIC LAND COMMISSION

Great Change in Sentiment by Stockmen Toward Government Management of the Public Range Lands—Villainous Work of Land Fakirs Who Speculate on Government Undertakings.

Gifford Pinchot and F. H. Newell, members of the public land commission recently appointed by the president arrived in the city yesterday from Portland, where they have been attending a convention of wool growers of the Pacific coast, says the Denver Post. On their way back they visited the governors of different states and secured suggestions from the executives as to the land and forest reserve laws.

This morning they had an interview with Governor Penbody and afterwards met with a delegation of citizens from Garfield county, which presented facts relating to the restoration to entry of the land included in the Battlement mesa forest reserve.

A great change in sentiment relating to government control of the ranges has taken place among the stockgrowers. Mr. Newell says at the convention he attended it seemed to be the general desire that the government assume control of the ranges and parcel them out between the sheep and cattlemen.

These factions it seems have grown tired of the endless wars with which they sought to settle their grievances and are anxious that there be a third party who will make decisions and settle controversies. It is probable that some action will be taken to place the lands under government control, says Prof. Newell.

Messrs. Pinchot and Newell visited the government irrigation works in several of the states, and found the work progressing swiftly.

The Truckee canal is the greatest undertaking so far, Mr. Newell says that land fakirs are victimizing hundreds of people in regard to this enterprise. "It should be generally known," he said "that there will be no water available in this district before 1935. Grafters are rushing ignorant people into the district and charging them from \$50 to \$100 for locating the land for them.

The land is absolutely worthless desert at the present time and there is no way of making a living on it. Homesteaders must live on the land to make their entry good, but it is impossible for them to live on most of this land until water comes."

Very little opposition has been met with by people in regard to establishing forest reserves, and the settlers all seemed generally in favor of it. The opposition comes, it is said, from other sources.

WANT AMERICAN ENGINEERS.

Foreign Countries recognize the Ability of the Yankee.

Washington, D. C., Feb. 19. — The importance and value of the practical and scientific investigations of the United States geological survey are winning recognition, not only in this country, but in foreign countries as well. Requests for the statistics and other data relating to geology, hydrology and hydrography are received often from the chiefs of bureaus in foreign countries engaged in the collection of similar information.

Quite recently a request came from the colonial government of Bermuda for data concerning the probability of securing artesian wells on the islands. Within the past year representatives from France and Mexico have visited Washington for the purpose of familiarizing themselves with the methods followed by this government in this work.

A short time ago a letter was received from the government of Peru, stating that the country was about to organize a department of hydrology on plans similar to those developed by Messrs. Fuller and Darton, hydrologists of the United States geological survey.

Experienced men were needed to organize the new department, and correspondence was opened with the director, C. D. Walcott, requesting that he recommend efficient men to take charge of the Peruvian work.

The director has recommended several, among whom is a scientist, who for a number of years has been in charge of important work for the survey. It is understood that Peru will adopt the methods at present in vogue in the survey, which have proved so successful in this country, and it is anticipated that an efficient bureau will be formed in the South American republic.

Seventi. Day Adventists' Meeting
Walla Walla, Wash., April 5-10, 1934.

For the above occasion the O. R. & N. makes a rate of one and one-third fare for the round trip on the certificate plan. Tickets on sale any three days prior to the opening day. For particulars, call on or address E. C. Smith, agent O. R. & N.

Over 200 printers thrown out of employment by the Baltimore fire, have been employed since the government printing offices at Washington. No particular claim is made that they were needed. The trick was turned by the administration "to take the cuss off" the recent turndown of the Typographical Union.

Escaped an Awful Fate.

Mr. H. Haggins of Melbourne, Fla., writes: "My doctor told me I had consumption and nothing could be done for me. I was given up to die. The offer of a free trial bottle of Dr. King's New Discovery for Consumption, induced me to try it. Results were startling. I am now on the road to recovery and owe all to Dr. King's New Discovery. It surely saved my life." This great cure is guaranteed for all throat and lung diseases by Tallman & Co., druggists. Price 50c and \$1.00. Trial bottles free.

Life is Now Empty.

No longer will the busy business man call for a phone number and be answered by the pretty telephone girl with a mania for reading novels that the line is out of order or that it is busy. A private switch is being constructed by the telephone company which will lead from the operators' room to that of the main operator and this will enable him to hear anything that the telephone girls have to say. They will not be allowed to carry on conversations over the 'phone with any of the young swains, but as they value their positions will promptly give the number asked.—Spokane Press.

Deafness Can Not Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

F. J. CHENEY & CO., Toledo, O.
Sold by druggists. Take Hall's family Pills are the best.

IT IS FOR LADIES, TOO.

They Can Stop Their Hair Falling Out With Herpicide.

Ladies who have thin hair and whose hair is falling out, can prevent the hair falling out, and thicken the growth, with Newbro's "Herpicide." Besides, Herpicide is one of the most agreeable hair dressings there is. Herpicide kills the dandruff germ that eats the hair off at the root. After the germ is destroyed, the root will shoot up, and the hair grow long as ever. Even a sample will convince any lady that Newbro's Herpicide is an indispensable toilet requisite. It contains no oil or grease, it will not stain or dye. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

F. W. Schmidt, special agent.

Embroidery and Ribbon Sale

The following coupons are as good as cash this week at THE FAIR. Read them, cut them out and use them.

This Coupon is Worth
25 CENTS
To apply on each purchase of embroidery or ribbon this week amounting to \$1.00. Good for this sale ending Feb. 20.
THE FAIR.

This Coupon is worth
\$1.00
To apply on price of any man's or young men's suit this week only one coupon can be used on each suit.
THE FAIR

This Coupon is worth
50 Cents
On any purchase of men's or young men's suits this week only one coupon can be used on each suit.
THE FAIR

The only conditions connected with the above coupons are stated in the coupons themselves. Bring the coupons, buy the amount of goods named in the coupon and we accept the coupon in part payment.
