CONVENTION'S LAST SESSION. (Concluded.)

It had when our fathers were young? Is it lack of numbers? No; we have not the character of our fathers for good. The church needs quality of members, more than quantity. "As the shuttle leaves behind its contribution, so we each have some effect on those we meet. No one is a blank; each has some power for good, or for evil on those with whom they meet. "And in the weaving sometimes the work is interrupted by a broken thread. So it is in life; but there are two sides to the work—the right and the wrong, and the side in the sight of God shows no broken ends if the work is done in the spirit of truth and desire for good. Only the roses of the pattern are visible. "The weaver's work is inspected, for God, the giver of the loom, has a right to see what it does. But if we do our best we will have no fear of the inspection. We will see God as a father and not as a judge, and be not afraid. Which will be in your sight; the father or the judge?" At the conclusion of the address a short experience meeting was held, after which the Christian Endeavor benediction, "God watch between me and thee while we are absent one from the other," was repeated by the delegates and the convention was a thing of the past. Resolutions were passed endorsing the action of the congress in passing the Sunday closing clause of the Lewis and Clark fair and thanking their entertainers for the hospitality shown and the press for the courtesy extended to the convention and

the delegates. A resolution was also passed expressing pleasure in the recent closing of the gambling houses of the city and expressing the hope that they would be kept closed.

JIM JOSHUA DEAD

NOTED UMATILLA INDIAN COMMITS SUICIDE.

Shot Himself Twice With Winchester at His Home at Thorn Hollow Yesterday—Second Suicide in the History of the Tribe—Was Nephew of Famous Scout, Donald McKay.

The second Indian suicide in the history of the Umatilla reservation occurred yesterday forenoon, at Thorn Hollow, when Jim Joshua, a well known Umatilla Indian, shot himself in the breast and forehead with a Winchester rifle. Word reached the city this morning that Joshua had committed suicide and Indians arriving this afternoon confirm the report.

Family troubles are assigned as the cause. Joshua was a well-to-do Indian, about 40 years of age, with a wife and three girls, two of whom are in the Indian school at the agency.

Jim Joshua was one of the most prominent Umatilla Indians living, being a nephew of Donald McKay, the famous scout, who headed the band of scouts that captured Captain Jack, in 1872. He was sober, intelligent and honest, and his suicide was a surprise to all, doubly so, for the reason that an Indian suicide is an unusual occurrence, and only other case of the kind in the history of the tribe being the suicide of a daughter of Columbia Jim, on McKay creek, several years ago.

Joshua owned 160 acres of rich farming land near Cayuse and also 40 acres on which the station of Thorn Hollow stands, his home being at Thorn Hollow, where he had a neat cottage and also a tepee for his wife, who preferred to live in the tepee in the summer time rather than in the house.

He married a daughter of Little Sparrow Hawk, and had lived a seemingly happy life, until recently when there arose rumors of trouble in the Joshua home.

He was one of the most intelligent Indians on the reservation and was well liked by the whites and Indians alike. Frank Carl, of this city, has farmed his land for some time, and speaks in the highest terms of his landlord, the dead Indian.

"COLONIAL PARTY."

Given by Seventh Grade at High School Assembly Hall.

The young people of the seventh grade of the high school, very pleasantly entertained their friends yesterday evening at the assembly hall of the school, with a colonial party. Colonial costumes were worn by a number of those attending and the program, consisting of musical and literary numbers, was so selected that it carried the auditors back to the time of the birth of the nation. The party was in commemoration of the birth of Washington, and was greatly enjoyed.

REDEEMING WARRANTS.

This Work is Keeping the County Treasurer Busy.

County Treasurer Sommerville is busy paying out money in response to the call he has issued for warrants. For the past day or so he has been having a good many callers, each with a warrant which has been called in. On the other hand, there are many warrants from old calls that have never been returned for payment, the holders evidently not needing the money, and preferring to keep the paper until they do.

AT WORK ON CENSUS.

School Enumeration Will Be Completed by March 1.

John Halley, Jr., the clerk of the school board, is now busy making the census of the school district, and has the work well in hand. It is necessary that the work be completed by the first of next month, and this will be easily done. The increase over last year is not known at this time, but it is thought that the number will be materially larger than at the last census. Last year there were 1,525 children in the district.

ADAMS' WATER SYSTEM.

Expected That it Will Be Effective and Profitable.

C. M. Robinson, of Portland, an engineer who has been in this city and at Adams looking over the proposed water system, left this morning for Portland. He is of the opinion that Adams will have no trouble floating the \$5,000 worth of bonds that they wish to raise for the construction of the system, as the income from the water will more than pay the interest on the bonds when the plant is put in working order. In the estimation of the engineer,

the city will have a profitable water system if the present plans are carried out.
