

Women as Well as Men Are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a Home of Swamp-Root pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers cured.

OLD-TIME PICTURE.

An Umatilla in Skins, Feathers, Paint and Blankets.

The Indian is civilized in part, at least, and it is seldom that one of the old-time pictures is brought before the eyes of the public of today, but this morning the people at the depot saw one of the relics of the days of long ago.

One of the Umatillas was starting on a visit to some of his brethren, down the Columbia, and in honor of the journey had togged himself out in the dress of his tribe. Blanket and feathers were all there, and in his hand was the bow and quiver of arrows that have almost passed out of memory except as curios. The bow was gaudily painted, and the arrows were feathered and tipped with flint, being very pretty and interesting. The Indian was the center of quite a crowd.

A WOMAN TO BE PRETTY

Must Have Luxuriant and Glossy Hair, No Matter What Color.

The finest contour of a female face, the sweetest smile of a female mouth, lose something if the head is crowned with scant hair. Scant and falling hair, it is now known, is caused by a parasite that burrows into the scalp to the root of the hair, where it saps the vitality. The little white scales the germ throws up in burrowing are called dandruff. To cure dandruff permanently, then, and to stop falling hair, that germ must be killed. Newbro's Herculicide, an entirely new result of the chemical laboratory, destroys the dandruff germ, and, of course, stops the falling hair, and prevents baldness. Sold by leading druggists. Send 10c. in stamps for sample to The Herculicide Co., Detroit, Mich.
