

WHY MOTHERS WORRY

Did you ever hear a mother worry over a plump child? There is no better bank of health for a child to draw from than a good supply of healthy flesh.

Scott's Emulsion not only gives a child weight and plumpness, but it feeds the brain, bones and nerves with strength and active power.

Fewer mothers would worry if they knew more about Scott's Emulsion.

LIKES PERCHERON HORSES.

Formerly Raised Clydes, But Found Them Unsuitable to the Rough Western Country.

W. P. York, formerly of Vinson, Umatilla county, but now a resident of Kilbride, in Grant county is one of the most extensive growers of heavy horses in the state, and has changed from the Clyde to the Percheron breed, quite recently.

He believes the Clyde is too timid and too susceptible to rough usage for the Western country, and that the Percheron, being more hardy and of stronger constitution, is better suited to the rocky roads and unfavorable conditions of a frontier settlement.

The hoofs of the Clyde will not stand the rough wear that the Percheron will undergo, and if turned out early in the spring to browse, the Clyde colt will shiver and hide behind a sheltering tree, while the tougher Percheron will hustle for limbs and scattering feed among the snow drifts.

Mr. York keeps about 40 brood mares on hand all the time and is raising an exceptionally heavy grade of horses for truck and dray work, and finds ready sale in the markets of the Sound cities and Portland, besides furnishing some of the best teams ever sold to Pendleton draymen.

He finds that the heaviest grade of work horse is not needed in the farming districts, but that a medium horse, weighing from 1,100 to 1,250, answers the farmers' purpose just as well as a heavier horse, and the amount of money invested in teams on the farm is not then so great, as if heavier stock were used.

WASHING WITHOUT WATER

Is Like Trying to Get Rid of Dandruff Without Herpicide. Did you ever see any one trying to wash themselves without soap or water? If you did what would you say of him? It is every bit as foolish to try to get rid of Dandruff and to prevent Baldness by feeding the germs which cause it, with Cantharides, Vaseline, Glycerine and similar substances which form the principal ingredients of most so-called Hair Vigors. Newbro's Herpicide is successful because it attacks and kills the parasitic germ which feeds on the hair roots. It is the original and only genuine scalp germicide manufactured. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. F. W. Schmidt, special agent.
