NEW BRICK BLOCK

IT WILL BE BUILT ON EAST COURT STREET.

Pressed Brick and Twenty by One Hundred Feet—Will Cost at Least Six Thousand Dollars — Original Intention Was to Have Built Last Year—Carl Weisert, the Harness Man, Projector and Owner.

Carl Weisert, the Court street harness man, will in a short time begin the construction of a modern brick building on the property which he recently bought of W. F. Matlock and William Roesch) which he will occupy as a harness shop.

The building will be of brick and will have a pressed brick front and will be 20x100 feet in dimensions. It will be one story in height and will have a large skylight over the rear part, in order that there will be plenty of light.

The completed building will cost at least \$6,000 and perhaps more, as Mr. Weisert has not settled on all the details of the construction. It will be ready for occupancy by the middle of May if the plans now under consideration are carried out.

Mr. Weisert would have bought the property some time last year and had the building completed and occupied by this time had it not been for the menace of the old Wheeler building, which is next to

the place bought. The Wheeler building is considered a firetrap and a menace, not only to all the buildings on that side of the street, but to those on the other side as well, and for this reason building is retarded in that neighborhood. Now that the fire department has taken the matter in hand, it is thought that such restrictions will be put on the place that it will not be of so much danger to the other buildings in the block.

COUNTY CHARGED UNJUSTLY.

Simple Blanks Used in Assessor's Office and Printed by Tribune. Cost Five Prices.

Among the bills to be presented to the county court at this session is one for 3,000 small blanks, 4x6 inches, on cheap paper, containing 12 words and ruled for listing property and used in the office of the county assessor.

The actual commercial rate on these blanks would be about \$2.25 per 1,000, but the bill of the Tribune for these 3,000 blanks, as it will be presented to the court, is \$37.50, or more than five times the commercial price of the printing. This is only one small item on the bill for county printing, but it is sufficient to make the taxpayers wonder where this graft is going to stop.

AGENTS OF PORTLAND POST-OFFICE SELL STAMPS HERE

Lewis and Clark Job Printing Concern of Portland, Skins Eastern Oregon Cities and Adds Insult to Injury by Soliciting Stamp Sales for Postoffice of the Metropolis—Stamp Orders Should Be Cancelled.

Agents of Portland job printing offices took orders for several hundred thousand Lewis and Clark fair envelopes in this city, about a month ago, and now it transpires that many of the business men who ordered these envelopes, also ordered stamps from the same agent, in this manner depriving the Pendleton postoffice of several hundred dollars in stamp sales and adding a like amount to the Portland postoffice.

The stamps which will be placed on these envelopes coming into Pendleton, will be purchased in Portland, and Pendleton money will swell the income at the big postoffice in the metropolis, while the receipts of the home postoffice will be whittled down to that extent.

The business men who made these purchases did so without thinking of the bad result it would bring to the home postoffice, and perhaps little thinking that the home papers which support the town and defend its interests were also entitled to furnish these envelopes by using the Lewis and Clark official emblem, through a contract with that corporation.

Several thousand dollars will be sent out of Pendleton, which might have been left at home to circulate among the institutions and swell home pay rolls. The Lewis and Clark fair is working many a graft in Oregon, and if the newspapers will shut up tight, and let that concern pay for its advertising, it will be made to feel the power of the press.

Instead of apportioning out this job printing among the country papers, charging a commission for the use of the official emblem, and permitting the envelopes and souvenir paper to be printed by each paper in each town, as they might solicit any other job work, the privilege is "farmed" out to some job printing concern in Portland which can help the fair in no possible way, and which is a competitor to the country papers, whose money is spent in the cities now supporting this cheap printing concern.

It is hoped that the business men who have ordered stamps from Portland will cancel the order immediately, and at least buy stamps from the home postoffice, even though their job work for a year ahead has been bought in Portland.

SCHOOL AT IRRIGON.

New Town Shows Gallantry by Electing Women as Directors.

At the organization of the school district at Irrigon, Morrow county, yesterday, the inhabitants of the hustling new town showed a proper gallantry by electing two of their directors from the ranks of the women.

At the election of officers, Mrs. W. H. Kinder, Mrs. George H. McQueen and Fred L. Mills were elected directors, and A. Bennett, clerk. The majority of the voting members of the board is composed of women and if they hang together the lone man on the board might as well look for another job.

Bonds to the amount of \$3,450 will be voted to build a two-room school house and F. B. Holbrook, superintendent of the Oregon Land & Water Company offered to donate to the district, free of charge, any site that may be selected by the board, on which to erect the building. Public school will begin on March 7, a private school having been in session for some time.

G. N. Miller Will Put Them in the Coming Summer.

G. N. Miller, the engineer who had charge of the construction of the sewer work, has returned from a visit to Seattle, where he accompanied Mrs. Miller, who is now visiting with her parents.

Mr. Miller will leave in a short time for North Yakima, where he has secured the contract to superintend the construction of an elaborate drain and sewer system. The work, which will take all summer to complete, will furnish not only a modern sewer system, but will also be so built that it will drain all the cellars and streets. It will cost about \$65,000 to complete, and will cover nine miles of the streets of the city. Work will commence in a short time, and Mr. Miller will leave in a few days to take charge of the construction.

Golden Gate Coffee.

In this issue the East Oregonian begins the publication of a series of Golden Gate Coffee advertisements. The advertising is new, but the article is the highest grade of coffee produced by the old and popular house of J. A. Folger & Co., San Francisco, and is the result of 54 years of coffee experience. Believing that Golden Gate would please those who enjoy good coffee, the firm arranged to call the attention of every housewife in this city to it through the columns of the East Oregonian. The order comes from the office of M. L. Hadley, the special advertising agent of San Francisco, with whom it is said that none but houses of known integrity and reputation can open an account.

Exciting Runaway.

There was an exciting runaway on Alta street this afternoon, when one of Gus La Fontain's ranch teams hitched to a farm wagon, took fright at some object along the road. Their sudden start threw the driver from his seat, and the horses went on their way alone. Half way down the street a man climbed in over the end-gate and tried to stop them, but could get hold of but one of the lines. He crawled out the same way he got in and let them run. At the corner of Cottonwood one of the horses fell, and both were caught by spectators. The horse which had the fall was badly shaken up and bruised, but not seriously hurt. Otherwise no damage was done.

The Start

In married life is generally made on an equal footing of health in man and wife. But how soon, in many cases, the wife loses the advantage and fades in face and falls in flesh, while her husband grows even more rugged and robust. There is one chief cause for this wifely failure and that is, the failure of the womanly health. When there is irregularity or an unhealthy drain, inflammation, ulceration or female weakness, the general health is soon impaired.

\$500 REWARD FOR WOMEN WHO CANNOT BE CURED.

Proprietors and makers of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay \$500 in legal money of the United States for any case of Leucorrhoea, Female Weakness, Proflapsus, or Falling of Womb, which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

"A little over a year ago I wrote to you for advice," says Mrs. Elizabeth J. Fisher, of Diana, W. Va. "You advised me to use Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery,' which I did, and with the most happy result. I was troubled with female weakness and bearing-down pains. Had a very bad pain nearly all the time in my left side, nervousness and headache. Was so weak I could hardly walk across my room. Could not sit up only just a little while at a time. My husband got me some of Dr. Pierce's medicine and I began its use. Before I had taken two bottles I was able to help do my work. I used three bottles in all and I cured me. Now I do all my household work. It is the best medicine I ever used."

The Common Sense Medical Adviser, in paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.
