Scab or No Scab. The great trouble with the scab question seems to be that Christy said no, and Lantz said yes.

When the Wade cattle were brought here for the sale Dr. Christy made an examination of the lot and reported that they were in good shape and condition; that they were neither tuberculous, or mange, or scab, or anything else, in short, it was a fine bunch of cattle, and in the best of condition.

When the time for the sale came government officers reported that the bunch had the scab in a mild form and that they would have to be dipped twice before they could be allowed on trains.

Which is right in the controversy is hard to determine. Christy says they haven't and Lantz says they have.

Mr. Rigby says the cattle had the scab about a year ago, or perhaps a little farther back than that, but that the disease was cured to the satisfaction of all at that time, and since the cattle have not been examined in any way.

The scab question is a puzzling one, always. Some time ago a prominent sheepman who has been shipping large bands of sheep out of the country during the past winter, had a large shipment from Echo.

SULTAN OF SULU IS CALLED DOWN

Treaty With That Mohammedan Mogul is Abrogated by Washington.

FAILURE TO CARRY OUT CONTRACT THE REASON.

The Sultan is a Bad Actor, and Forfeits Many Privileges by His Unscrupulousness—Proclamation From the War Department Takes the Matter Out of the Hands of Congress—The Philippine Commission Will Act.

Washington, March 14.—The treaty between the United States and the sultan of Sulu, whereby that official and the dattos under him enjoyed certain annuities from the United States government and were allowed to continue to practice polygamy, has been abrogated, according to a cablegram to Governor Wright, of the Philippines, sent by Secretary Taft today.

The failure by the sultan and the dattos to discharge the duties and fulfill the conditions imposed, are the reasons.

The Philippine commission is directed to pass suitable legislation. Disturbances on Jollo island made this action expedient in a special bill is thus formulated.
