G. W. LUPER DEAD

HAD BEEN ILL LONG TIME WITH BRIGHT'S DISEASE.

Prosperous and Well Known Farmer—Had Lived a Long Time in the Valley—A. O. U. W. and Masons Will Conduct the Funeral Tomorrow at 2 p. m., From the Residence.

George W. Luper died Sunday morning at his home in North Pendleton after a protracted illness with Bright's disease.

The deceased was 51 years of age and left a widow and three married daughters—Mrs. Page Evans, of this city; Mrs. Ed Brown, of Spokane, and Mrs. John Gore, of Portland, all of whom are now in the city to attend the funeral. Mr. Luper had been a resident of Pendleton for some time, and was well known as a farmer of experience and one who had been prosperous. For many years he was one of the well known residents of Albany, Or., near which city he had one of the largest and most highly cultivated farms in the upper valley. He was a member of Safety Lodge No. 13 of the A. O. U. W., of Albany, and was also a prominent Mason, and these orders will have charge of the funeral, which will be held from the residence tomorrow afternoon at 2 o'clock. Mr. Luper, after selling his property

in the valley, bought a large farm in Washington, and has been in the habit of spending the summer there each year, while he spent the winter in Pendleton with his family.

DEATH OF MISS PEARLA ALLEN.

Occurred at Fond du Lac, Wisconsin, March 4.

Miss Pearla Allen died March 4 at her home at Fond du Lac, Wis., of quick consumption. Miss Allen became the friend and acquaintance of many Pendleton people during her protracted visit here in 1902, with her friend, Mrs. H. E. Cook, and her sudden and unexpected demise will be a great shock to all. After leaving here Miss Allen was until a short time ago assistant matron of the McKinley Orphans' Home at San Francisco, resigning and going home to Wisconsin only a few weeks ago, when attacked with her last illness.

WILL RESIDE IN PENDLETON.

John T. Whistler Will Arrive Soon With His Family.

John T. Whistler, the government engineer who is in charge of the work being done in this part of the country by the reclamation department, is expected to reach this city during the current week. He will bring his wife and family with him, and will make this his home in the future. Mr. Whistler has been in Washington, D. C., during the winter, working on the report which he is required to make to the government on the progress of his work here.

The whistling by switch engines which work all night in the railway yards in and near cities is permitted in no country other than America.

THEY REMONSTRATE PUSHING SURVEYS

PROPERTY OWNERS OBJECT TO A DOUBLE ASSESSMENT.

New Light is Thrown by Their Protest on the Question of Grading Webb Street—An Old Issue That Must Be Again Threshed Over—Will Probably Be Postponed by the Council.

At the last meeting of the council it was decided that the property owners along Webb street would have to grade the street from one end to the other, and that the cost of the work should be borne by them. The matter was put into the hands of the street committee, and now some of the people are out with a remonstrance which is being numerously signed, asking the council to reconsider its action. The remonstrance sets forth that some of the residents of the street have graded their parts and have borne the expense, and are not at this time financially able to do the work again. They wish to have the matter delayed.

Some years ago it was decided by the council that the street needed fixing, and the mandate went forth. The railroad company started in near their freight depot and put in several blocks of gravel which is still in good condition. At the other end of the street a man was hired to haul gravel into the street, and brought on an assortment of rock and boulders that made the street more impassable than before. The property owners kicked, the city filed liens on the property which are still unpaid, and the matter died. That is the present status of the matter. What the council will do is a question. Some of them are in favor of putting the street on grade at this time, and others would just as lief wait a short time.

The city will be compelled to have a rock crusher in a short time. It has been proven that gravel will not do in street work. The rocks are too big and too round, and half of them have to be raked off the streets after they are put on. On the other hand, the crushed rock is known to be good, and if the city is to have good streets it must get a crusher sooner or later, and fix the grades permanently.

From the way the question looks at this time it is probable that the council will recognize the remonstrance and allow the street to go as it is for a time or until some lasting and acceptable improvement can be made.

APPRECIATE THE CREAMERY.

La Grande Grocers Delighted With New Industry There.

George D. Goodhue, traveling representative of the Commercial Cream Company, of Salem, was at the Bickers last night, en route from La Grande to North Yakima.

He has been in La Grande for several days on business connected with the new creamery being started there by local capital. He finds the hotels and grocers delighted with the new industry as it will enable them to get their supplies fresh from the creamery daily, and will do away with the old custom of keeping butter on hand until it becomes old, because of the long distance to the creamery and the delay in getting orders filled.

The confectioners are also rejoicing to know that a fresh supply of sweet cream will be always at hand for ice cream and soft drinks. Pendleton uses 300,000 pounds of butter and 10,000 gallons of ice cream and fancy dishes per year, but she imports all this supply.

ASSESSORS GET BUSY.

Deputies are Appointed and 1904 Assessment Will be Taken.

The assessor's office is beginning to get busy once more. C. O. Henry of Athena has taken his blanks out and will assess the two at Athena and the Adams precincts.

S. S. Darnell will start the first of the week for Willow Springs and Vinson where he will assess the property.

O. F. Steele will have charge of the work in Union precinct and will commence work the first of the week.

Assessor Strain and his assistants will commence the work of assessing Pendleton and vicinity some time during the first part of the coming week.

From now on the work will be pushed forward as fast as possible in order that the office force will have as much time as possible in making up the roll.

May Invest Here.

C. B. Stoddard and N. T. Stoddard, two business men of Chehalis, are here looking at the liquor business of H. A. Kline on Main street, with a view to buying the present proprietor out. Mr. Kline has a good location and the chance for one of the best businesses in the city, and it is to be hoped that the gentlemen from Chehalis will decide to invest, as two popular and representative business men would be able to do a good business at that number.

Promoters of New Bank.

Clyde Beach and W. L. Thompson, of Lewiston, were in the city yesterday for a short business visit. They are the promoters of the new bank, and were in the city to look further into the details of their prospective business. They returned home this morning.

GOVERNMENT FORCE WILL BE INCREASED TO 15 MEN.

Camp is Now Located 27 Miles West of Echo at "The Buttes"—Water Being Hauled Five Miles to Supply Camp—Surveys Will Be Vigorously Prosecuted This Year.

Engineer Edmund S. Davis, who has temporary charge of the government survey in the absence of John T. Whistler, is now located with a crew of seven men, at "The Buttes," 27 miles west of Echo, and 10 miles from Castle Rock, at a point at which the lower reservoir for the Echo irrigation tract will be located.

Surveys are being vigorously prosecuted and the force of men will be increased to 15 this week, and two teams will be added to the equipment. Supplies are being hauled out from Echo, and at present it is necessary to haul water five miles to supply the camp.

The crew is working eastward from "The Buttes," and will cover every foot of country included in the reservation, between now and fall.

It is now the plan of the government to build a reservoir in the natural basin formed by "The Buttes," to be about six miles in length when completed. The main canal will lead from the Umatilla river near Barnhart on the high ridges extending along the south bank of the Umatilla to intersect other reservoirs en route and at last empty into this lower storage basin.

The government survey will be vigorously prosecuted this season, in order to be ready to begin actual work on the proposition next year, if the plan is accepted as feasible.

Machinery and tools will be furnished with which to prospect for underground water, and also to make investigations as to the depth of the bedrock in the reservoir basins.

GONE TO CARLISLE.

Two of the Best Teachers at the Umatilla Indian School.

Miss Harriette McDowell and Miss Spear, two of the teachers at the agency school, have been transferred to the Carlisle training school at Carlisle, Pa. The change was made about 10 days ago, and the ladies have left for their new field of labor. Both have been at the Umatilla school for some time and are very capable teachers. They will be missed by the management of the school here.

CHANGED HANDS.

Tom Baker Has Bought the Horseshoe Lunch Counter.

Tom L. Baker, who for a long time was connected with the furniture house of Baker & Folsom has bought the Horseshoe lunch counter near the corner of Main and Alta. Walter Wallace, the former proprietor, will engage in other business. Mr. Baker is well known, and will undoubtedly be able to build up a large business in his new location.

TAKING COLD?

Then you need instant attention. You feel chilly and have frequent sneezing spells. You'll be surprised at the amount of good a few doses of Hostetter's Stomach Bitters will do you. Try it today. Besides counteracting Chills, Colds and La Grippe, it is also unequalled for Dyspepsia, Indigestion, Constipation, Insomnia, Poor Appetite, Dizziness and Malaria. Thousands are using it with great satisfaction. Why not try a bottle?

Presbytery Tonight.

The called meeting of the Presbyterian presbytery will convene this evening at the Presbyterian church. Owing to the delayed trains the members of the body from the east did not reach the city until late this evening, but a full attendance is expected. A trustee for the academy will be selected and other business of interest transacted.

May Return Home.

Charles A. Cameron, Jr., and sister, Miss Norval Jones, left Saturday evening for Portland, where they will visit their father, C. A. Cameron, Sr., who has been in a hospital for some time, and who is quite ill. It is possible that they will bring Mr. Cameron home with them when they return.

Department Called Out.

A burning flue at the Telephone Stables near the court house, called the fire department out for a run Saturday evening about 9 o'clock. The fire was out by the time the department reached the place, and no damage was done.

HENRY WARD BEECHER

never appeared at his best unless fortified with a cup of good coffee. His lecture manager gives an amusing account of their ingenious efforts to get good coffee for the great preacher just before each lecture, and states that there was a marked difference between Mr. Beecher's lectures with coffee, and those without. It is easy to get the best, by simply ordering the famous
