# WROTE MANY SONGS

FAMOUS SONG AUTHOR IS EIGHTY-FIVE YEARS OLD.

**Has Been Blind Since Childhood But All Other Faculties Are Perfect—Written Nearly Three Thousand Hymns in Forty Years—Is Highly Educated and Has Been a Teacher.**

Bridgeport, Conn., March 24.—Miss Fanny Crosby, the famous blind hymn writer, today celebrated her eighty-fifth birthday in the full possession of all her faculties, but the one denied her. Miss Crosby lives with her sister, Mrs. Carrie Rider, and in her old age is fully as active as in her youth.

Miss Crosby became blind in her infancy, owing to improper treatment for a fever. When she was 15 years old she entered the New York Institution for the Blind. She was so apt in her studies that she subsequently received an appointment as teacher of rhetoric, English grammar, Greek, American, English and Roman history in the institution.

While still a teacher she composed songs, which were set to music by George F. Root. Among the best known are: "Rosalie, the Prairie Flower," "Hazel Dell," "Goodby, Proud World, I'm Going Home," "The Honeysuckle Glen," and "There's Music in the Air." She also wrote the words for the cantatas, "The Flower Queen" and "The Pilgrim Fathers."

Miss Crosby, in 1864, took up hymn writing and since that time has written nearly 3,000 of them, notable among which is "Safe in the Arms of Jesus." There is seldom a religious meeting at which one or more of Miss Crosby's hymns are not sung, and the deep religious pathos of her writings has been felt in many lands.

## NIAGARA SHIP CANAL.

**Powerful Interests Ask for Congressional Aid for Project.**

Washington, D. C., March 24.—At the hearing before the rivers and harbors committe tomorrow relative to the proposed Niagara ship canal, the commerce of the Great Lakes will be represented by one of the strongest delegations ever sent to Washington.

The project has the support of J. J. Hill of the Great Northern, of the Lake Carriers' Association, and the chamber of commerce and other trade organizations of Minneapolis, Duluth, Chicago, Cleveland, Buffalo and other cities whose interests would be benefited by the construction of the proposed ship canal around Niagara and the completion of the 1,000-ton barge canal from Buffalo to the seaboard. All of the various interests are expected to be represented at tomorrow's hearing and if the project does not receive a decided boost before the house committee it will not be because of lack of effort on the part of its advocates.

## EPWORTH LEAGUERS.

**Four Hundred Delegates in the Virginia State Convention.**

Petersburg, Va., March 24.—Four hundred enthusiastic delegates and visitors are in Petersburg for the annual session of the state conference of Epworth Leagues, to be held here during the next three days.

The attendance is the largest and most representative in the history of the league's conferences in Virginia. Officers' reports show a large increase in membership during the past 12 months and a general advance along all lines of league work. Much business will be transacted by the conference, but time will be found also to listen to addresses by a number of prominent speakers, among them Bishop A. Coke Smith of the M. E. church, South, and Dr. Dubois, general secretary of the organization.

**The Name Witch Hazel.**

The name Witch Hazel is much abused. E. C. De Witt & Co., Chicago, are the inventors of the original and only genuine Witch Hazel Salve. A certain cure for cuts, burns, bruises, eczema, tetters, piles, etc. There are many counterfeits of this salve, some of which are dangerous, while they are worthless. In buying Witch Hazel Salve see that the name E. C. De Witt & Co., Chicago, is on the box and a cure is certain. Sold by Tallman & Co.

# DENMARK NEEDS AMERICAN PRODUCTS

Raymond R. Frazier, American consul at Copenhagen, has sent the following interesting report to the department of commerce and labor on the need of American shoes and boots in the kingdom of Denmark. The report says:

The American-made shoe is popular in Denmark. Two of the foremost shoe stores in Copenhagen use the American shoe for a "leader" in their splendid show window exhibits. Many stores display the American shoes conspicuously, but none handle them exclusively. One leading shoe store makes a specialty of American-made rubber footwear, including rubber boots of all sizes. The largest department store in the kingdom carries a full stock of American shoes (except patent leathers) and an especially good stock of women's and children's "storm rubbers." The climate here is moist. For nine months in the year the sidewalks are wet with rain or snow practically all the time, but the wearing of rubbers, strange to say, is a comparatively recent custom. There is a promising future for American-made rubbers in this market.

Denmark is now our fifth best customer in boots and shoes, though five years ago the American shoe was practically unknown here. Since then we have overtaken Great Britain and Austria-Hungary and in 1902 surpassed them in this market. But there is much room for extending our trade, since Denmark buys but one-twentieth as many shoes from us as from Germany. During the five years ended September 31, 1902, Denmark imported each year on an average 523,743 pounds of footwear, the average yearly value for the five years being $929,960. In 1902 there were imported 516,171 pounds, to the value of $941,752, of which 403,393 pounds, valued at $735,928, is credited to Germany and 24,393 pounds, valued at $44,488, is credited to the United States.

Many of the coarser shoes imported into Denmark and worn by those who earn their livelihood by manual labor are in a class by themselves, and there is little opportunity for American manufacturers to compete unless they prepare to meet the peculiar demands of this branch of the shoe trade. On the other hand, great quantities of shoes are yearly sold in this market that do not give the satisfaction that the better fitting and more becoming and quite as economical American-made shoes give.

The domestic manufacturers make good shoes with American shoe machinery, but they do not satisfy the cultivated tastes of many consumers. Quite as important a consideration is the fact that domestic manufacturers can not nearly supply the home market.

There is little if any doubt that an American shoe store dealing exclusively in American goods and selling shoes at uniform prices, say between 13 and 17 kroner ($3.48 and $4.56) a pair, would meet with immediate and permanent success in Copenhagen.

The duty on the average pair of leather shoes (without silk uppers) will perhaps not exceed 20 cents.—Raymond R. Frazier, consul.

Copenhagen, Denmark.

**Colds Cause Pneumonia.**

One of the most remarkable cases of cold, deep-seated on the lungs, causing pneumonia, is that of Mrs. Gertrude E. Fenner, Marion, Ind., who was entirely cured by the use of One Minute Cough Cure. She says: "The coughing and straining so weakened me that I ran down in weight from 148 to 92 pounds. I tried a number of remedies to no avail until I used One Minute Cough Cure. Four bottles of this wonderful remedy cured me entirely of the cough, strengthened my lungs and restored me to my normal weight, health and strength." Sold by Tallman & Co.

**Opinion on Inheritance Tax Law.**

Salem—Attorney General Crawford has rendered an opinion at the request of State Treasurer Moore, in which he holds that, under the inheritance tax law personal property existing outside the state, is subject to the tax the same as other property of the estate.

**Nominated for Congress.**

Spencer, Ind., March 24.—John C. Chaney of Sullivan was nominated for congress today at the republican congressional convention of the Second district. There was no opposition.

"I'm going to call my next painting 'Still Life.' Can you suggest a subject?" "Yes; a tramp."

## McMinn's School of Dancing

Monday, class night. Wednesday and Saturday, classes from 7 to 9 o'clock. Socials from 9 to 12.

Children's Matinee, Saturday, 2:30.

Not an ordinary article, but something extraordinary is
