Mr. Howe states the Pacific press Company is planning to conduct some experiments over there this season in growing cantaloupes and it recently sent Agent Lovesey to Emmett to look up a suitable 20-acre tract upon which the experiments may be conducted. It wishes to secure a tract of sandy loam. On this it will put out a crop of the melons, sending a trained man to take charge. This man will also in struct the farmers in the culture of the lusclous fruit,

The reason the company is xlous to start the industry at Emmett is because the season there is 10 days earlier than at Payette, the is city has been rumored with inter being two weeks earlier than fimation that, rather than give Rocky Ford. At the beginning of the season the melons bring as high as \$4 a crate, and the company is satis fied if the business of growing them can be started at Emmett it will be so profitable that immense ship ments will soon be made from that point.-Boise Statesman.

## Do You Want Strength?

if you want to increase your strength you must add to not take from the physical. In other words, the food that you eat must be digest-ed, assimilated and appropriated by the nerves, blood and tissues before the nerves, blood and thates being being expelled from the intestines. Kodol Dyspepsia Cure adds to the physical. It gives strength to and builds up the human system. It is pleasant to the taste and palatable, and the only combination of digestants that will digest the food and enable the system to appropriate all of its health and strength-giving qualities. The latest improved two-wheel, side-hill combined harvester has proven a boon to wheat raisers. It is the most successful, most economical and easiest machine to operate ever built.

These harvesters have been given abundant trials right here at home and all users are highly pleased. None have been dissatisfied and all are high in their praise.

The Holt side-hill harvester on a side hill is able to stick to the side of the hill, while the header will slip down the hill. The main wheels are vertical, which braces the machine to the side bills. It works equally adapted to level land.

The Holt harvesters are sold exclusively in this section by
